MISCELLANEOUS.
IMPORTANT TO FARMERS!
FORTUNES FOR A FEW YOUNG MEN!
No Money Required!

THE FARM PORTABLE FENCE.

LATELY RE-PATENTED WITH GREAT IMPROVEments, far surpasses any Farm Fence for utility, cheapness, convenience and durability, ever offered to the public as it saves the cost of posts and labor of setting them; being made of the common rail and wooden pins where plank and nails are inconvenient; and the only tools required is a hand-saw and hammer, and so simple as to avoid the necessity of a carpenter or any instruction after once seeing it.
Being portable, it is readily taken down and put up as at first, without the slightest injury, the use of any tool, or having to draw or drive a single nail, whereby two-thirds the quantity of fencing can at least be dispensed with when used instead of the post and plank or common rail fence. Equally as durable, and twice as cheap as the former; fully as cheap and substantial as the latter, with all the above advantages.
It is not only becoming universally used for Yards, Gardens and Farms, but Railroad Companies above, and are fencing their roads with it. And knowing the scarcity of money, and the great need of fences, a rare chance is offered a few young men in the purchase of town and County Rights, for which any kind of produce, gold, cotton, tobacco, tar, rosin, turpentine, shingles, or other marketable articles will be taken, or notes and mortgages on land, payable in one and two years.
For Circular containing a large illustration, full description, cost of fencing per rod, with lumber at various prices, including railway schedules of prices for Farms, Towns and County Rights, enclose stamp with full address, immediately, or visit me at Asbury Farm Out, on the N. C. Railroad. Address

INCREASE OF RATS. The *Farmer's Gazette* (English) asserts and proves by figures that one pair of rats will have a progeny and descendants no less than 351,050 in three years. Now, unless this immense family can be kept down, they would consume more food than would sustain 65,000 human beings.

RATS *versus* BIRDS.—Whoever engages in shooting small birds is a cruel man; whoever aids in exterminating *rats* is a benefactor. We should like some of our correspondents to give us the benefit of their experience in driving out these pests. We need something besides dogs, cats, and traps for this business.—*Scientific American, N. Y.*

"COSTAR'S" RAT EXTERMINATOR is simple, safe, and sure—the most perfect RAT-infection meeting we have ever attended. Every Rat that can get it, properly prepared according to directions, will eat it, and every one that eats it will die, generally at some place as distant as possible from where the medicine was taken.—*Lake Shore, Mich., Mirror.*

HOUSEKEEPERS troubled with vermin need be so no longer, if they use "COSTAR'S" Exterminator. We have used it to our satisfaction, and if a box cost $5, we would have it. We have tried poisons, but they effect nothing; but "Costar's" Powder knocks the bottom out of Rats, Mice, Roaches, Ants and Bed-Bugs, quicker than we can write it. It is in great demand, all over the country.—*Medina Ohio Gazette.*

A VOICE FROM THE FAR WEST.—Speaking of "COSTAR'S" Rat, Roach, Ant, &c., Exterminator—"more grain and provisions are destroyed annually in Grant County by vermin than would pay for tons of this Rat and Insect Killer."—*Lancaster, Wis. Herald.*

FARMERS AND HOUSEKEEPERS—should recollect that hundreds of dollars' worth of grain, provisions, &c. are annually destroyed by Rats, Mice, Ants, and other insects and vermin—all of which can be prevented by a few dollars' worth of "COSTAR'S" Rat, Roach, Ant, &c., Exterminator, bought and used
