ATTA LIFE INSURANCE CO., WILLIAM H. CROW, GEN. AS Facts to be Considered to are but few subjects presen There are but few subjects presented to the mind of man upon which there are not a great variety of opinions, and about which there are not protracted discussions. But there are a few facts so well established, and so uncontrovertible that they are universally assented to. One is that all men now living, will soon be called upon to gather up their feet and depart to the land of the dead. "One generation goeth, and another cometh, and we have no abiding city here," is a matter about which there is no dispute. Another is, "Of that day, and of that hour, knoweth no man." Whether death cometh at the twelfth hour or at the cock-crowing, is of equal uncertainty to Has deposited with us a large number of Bibles and Testaments for Sale or Donation, at Society

or at the cock-crowing, is of equal uncertainty to Another is, that when wife and children gather around us, to take their final leave, in that sad circle centres all our earthly interest. The last earthly rational thought of Husband and Father, is Wife and Children, (if worthy of sustaining such endearing relations.) Another is, no man living knows what may be the result of his efforts to secure a competence for his family. "Riches take to themselves wings and fly away," has been realized by how many? Adverse winds of tomorrow, may take the places of to-day's prosperous gales; under currents which the most penetrating eye cannot see, or the strongest arm con-trol, may in an evil hour sweep away the hard earnings of years. Another is, no man ever has, or ever can assume more sacred obligations, than Husband and Father. Hence it is said, that he that will not provide for his own household is worse than an infidel.

Now, what Husband anc Father is there battling with the difficulties of life, knowing as he must, that uncertainties attend every effort, and wait upon every enterprise, that he has not with earnest voice, and anxious heart, called to the future to unlock its barred gates and reveal to him the result of this or that undertaking. But the voice that comes from that land of sllence. is, Verily, thou knowest not what shall be on the

morrow. Such are some of the few facts about which there is no controversy, and such are some of the uncertainties that ever have, and ever will, gather around our pathway through life, and which have in generations past, and will in generations to come, trouble and oppress the Husband and Father. Now in view of these facts, responsibilities and uncertainties, it is for you to judge and decide upon the propriety, necessity, and duty, of making a policy on your life for the benefit of your family. Will it not relieve you of your present anxiety to know that a certain portion of he fruits of your labors are secured to that family? Remember that whatever you pay for a life policy is paid to them. The stranger intermeddleth not

Remember also, that \$5,000 paid to them in that day when the heart and flesh shall fail you, will be more to them than \$10,000 while you are here to provide for them. Also remember, that the amount for which you are insured will not be diminished in the settling of your estate, and that from generation to generation, Life Insurance has answered the end for which it was ordained, as fully, to say the least, as any institution of man's creation, and that its primary object was, and still is, to secure the family against the stern realities of want, and to relieve from corroding anxiety those who have assumed family responsibilities. Do you say "I know it would be wise in me to take out a policy and I intend to do so soon; but just now I want to use all my funds in my busi-Friend, if it is wisdom in you to insure at all, it is folly to defer it, to-morrow is in eternity, herefore "Boast not thyself of to-morrow, Sufficeent unto the day is the evil thereof."-Procrastination is the thief of time."

The Ætna Life Insurance Company offers you all the inducements to insure that can be found in any company. Its assets are over a million and a half. It has a surplus of \$300,000 over and above what is required to reinsure all its policies. Its monthly receipts are over \$150,000. And it is issuing monthly nearly 1,000 policies. Its rates for insurance are as reasonable as those of any other well-established responsible Company. It is paying as large dividends to its policy holders as any other Company. Its officers are competent business men. Its assets are as permanently and as safely invested as any other company can invest theirs, and from which as good interest is being received. It pays its losses as promptly, is as particular in the character of its risks, and as yet is a stranger to litigation.
