Oh my! Ah. What a treat we have had: aking our hint that we wanted semething eat, we having said we were open to conction on the subject of eatables, that Prince Landlords, Mr. O'Mulligan has just sent in a plateful of hash to which he had the psiderate kindness to add four spoons that ers might enjoy the same exquisite pleasas that whose ecstacy we are still laborunder. We are not positive, but strongsuspect that his charming helpmate, Mrs. Mulligan herself was at the bottom of the oon business. Such is the forethought of vely woman! If the hash we have just ampled is of the same quality as that Mr. O'Mulligan always furnishes his boarders then are they indeed blest! In the meantime we would respectfully say to Mr. O'Mulligan and his charming wife that we are still open to conviction on the subject of hash or in-leed upon almost anything eatable. If he don't happen to have any hash we have no objections to taking a hack at the swill bar-

EXCURSION TO RIDGEWAY.—The Raleigh Baptist Sunday School and a large number of their parents and friends took an excur sion to Ridgeway last Saturday A special train on the Raleigh and Coston road was chartered for the purpose, and some six or seven hundred people, a majority of whom were children, with a large number of handsome ladies, were carried from here. The long train of neat and comfortable cars was drawn by the splend d new engine, the S. S. Royster, made at the shops of the R. & G. The day was occupied in the disposition of R. R., and run by James E. Lawrence, engineer. Thos. Badger acted as conductor-A. B. Andrews, the efficient superintendent of the road, accompaned the train. The whole was under the direction of J. M. Betts, marshal of the day. Every precaution was taken to avoid collision or accident, and with these arrangements, a beautiful day, and every one disposed to enjoy the occasion and help his companions enjoy it, the day promised to be a happy one, and such

it proved to be. Arriving at a little after 10 o'clock, the excursionists repaired to the park, and were welcomed to Ridgeway by Col. J. M. Heck, of the Ridgeway Company, who was responded to by W. J. Palmer, Superintendent of the School, The party was joined by two or three hundred of the people of Ridgeway and vicinity, and with these accessions, numbered, all told, nearly a thousand persons. The whole party then scattered about the place, seeking the several means of enjoyment. The children indulged in their vouthful sports, and older people engaged in more quiet, but perhaps not more rational means of enjoyment, for nothing can be more truly rational than innocent sport of good children.

A beautiful rustic arbor, covered with bark, and presenting a very rural appearances was the centre of attractions, and during the day this arbor and neighborhood was the headquarters of a large portion of the excursionists. Here the school sung several beautiful pieces of music, and Rev. Dr. Pritchard delivered a brief address appropriate to the occasion. He congratulated his hearers upon their apparent happiness and exhorted the younger scholars to enjoy themselves as much as possible, being always careful, here as everywhere, to do nothing that would injure their playmates. Near by the tables were spread, and an abundance of good things was served up to the satisfaction of every appetite. Our enterprising townsmen, Messrs. Bradley & Christophers, The Rutherford Vio dicator notices that were on the ground with their arctic socia pecial terms of Superior Courts in several fountain and a supply of ice cream. The nties of the State have been day was so hot that their soda and cream were early exhausted, and then ice water was the strongest drink on the ground.

During the day large numbers of people visited the stave factory of Huey & Robb, and the handle and spoke factory of the Cunningham Brothers, both run by steam in the same building. The handle factory, when in full operation, will turn out ninetysix dozen axe or pick handles every ten the proper authorities, when we are sure it hours. The stave factory will turn out 30,-000 perfect staves daily. The handles are sent to San Francisco and Australia, and the staves and barrel heads, ready for use, are sent to Northern markets.

The Ridgeway Hotel, one wing of which, containing thirty rooms, is nearly completed, was thrown open, and generally sought for shade and rest. When this house is finished it will be one of the finest of not the best

We took a drive around Ridgeway, and were shown the improvements that are going on there. Col. Heck has a ten acre lot very tastefully laid out, upon which he purposes building a residence for himself. Dr. Hawkins has a similar lot near this, upon which the landscape gardener who laid off the lot of Col. Heck, will soon commence operations. Several miles of beautiful, hard, smooth streets have been built, and during this summer a road will be run out into the country ten miles, in two opposite directions, thus making the railroad easily accessible at that point. Several new houses are building. About thirty heads of families have come to rel. Long live O'Mulligan and his noble Ridgeway and have brought their families, or will do so, as soon as houses can be provided, and many more are coming. This CHILD STOLEN. - One tousand dollars re- place is admirably adapted to fruit raising, and many immigrants will make growing fruits for market their business. The Company have 250,000 peach trees already set, and have in one nursery 20,000 grape vines and 200,000 peach trees. The low freight,

Not an accident occurred during the trip, except the NEW ADVERTISEMENTS. - Miss Henriette | laughable one of a boy falling squat into a bucket of lemonade-no bones broken! Thanks are due to Mr. Johnson, Mayor of Ridgeway, for his exertions to make the visitors enjoy themselves, to the Ralcigh & Gaston Railroad Company for the liberal terms upon which the train was furnished, to the committee of arrangements and the marshals for getting up and conducting the excursion, and to many private individuals for kindnesses which cannot be enumerated, but which will be long remembered. It is with extreme pleasure that we learn of the unprecedented success of the N. C. Home Fire Insurance Company of this city. Although it has been in operation a little over four months, it has already issued conside ably more than three hundred policies, and the number every day is rapidly increasing. This is a subject of the greatest importance to every citizen of the Old North State-Every man who feels an interest in the future of this State should give his unhesitating support to this home company. It has already proven itself a success beyond a peradventure, and now is the time for the people to come forward to its support. It. is a home institution in the fullest sense of the word, and is one of the many such which we need at the South, which will keep thousands of dollars in cash at home to be immediately disp ned again amongst our people within our own State, which, if not entrusted to this company, must go to fill the coffers of the companies North and Northeast. You can depend upon this as fully as any company doing business in the State, as it is in every way worthy your sup-Carolinian give his patronage to this reliable arrested. IMPORTANT FACT.

We see that persons of strong constitutions. and young, suffer for days with pains of the limbs. loss of appetite and fever, who suddenly get well after a cholic followed by slimy, billous stools. The relief produced by these evacuations were the original guide to the idea and practice of purgation, and which, when enforced by Brandreth's Pills, always benefits, usually cures, and often prevents disease, especially Scarlet Fever and diseases of similar character

I. L. Cook, publisher of the "State Banner, Bennington, Vt., says Brandreth's Pills ours him of Dyspepsia, after being afflicted with it over five years. His friends and doctors considored his recovery impossible; but six boxes of Brandreth's Pills restored his health perfectly.

A young ludy of Mount Pleasant was sorely troubled with Tape-worm. All advice and medicine failed to help her. She had no rest. Thin. careworn and unhappy, she looked the picture of misery. At last she concluded to try Brandreth's Pills. In one year she took seventy two boxes. They brought away, according to her computation, over two hundred yards of tapeworm. At length all her bad symptoms left her; she slept and ate naturally, and health became fully restored. june 12-1m
