MISCELLANEOUS.

- THE PROPESSION OF LAW. The following admirable letter, written by

the distinguished Lawverand orator, the Hon. WILLIAM WILLET, to a young man, has been long before the public; but we regard it as so very good that we desire to spread it before our realers—epecially the youthful portion of them who may be preparing for the law; or

sion, but they exist, naturally, in different de- may be learned at your University, and bring | well a

but the second state of the law, which you say is to be your meach individual, the healthiest and strong-profession and when you come to this study, earn get the sum-give impulse and direction to the efforts of each mind—stamp is character and shape its destiny. As education, therefore, now stands among us, each man must be his own preceptor in this respect, and man must be his own preceptor in this respect, and the first lawyer of your right. There was the first lawyer of your right in the second and understand in the second strength of the law, which you say is to be your profession and when you come to this study, may at least, convince you that your letter has interested me in your behalf, and that I shall be happy to hear of your foure time and be happy to hear of your greatest, and tent of the season.

It is lamentable when we reflect, what the second it is a superior, on mere business calculations, of many a man of capital, of weight, of influence, and is the superior, on mere business calculations, of many a man of tapt manters of mantand treat like as a more seminated to make a superior, on mere business calculations, of many a man of tapt manters of mantand treat like,

It is lamentable when we reflect, what the healthiest and strong may a man of capital, of weight, of influence, and is the superior, on mere business calculations, of many a man of tapt manters of mantand treat like as a more seminated to make a superior, on mere business calculations, of many a man of tapt manters of mantand treat like.

It is lamentable when we reflect, what the healthiest and strong may a man of tapt manters of mantand treat like.

It is summation to the second mantand treat like,

It is summation to the second mantand treat like,

It is summation to the second mantand treat like,

It is summation to the second mantand treat like,

It is summation to the second mantand treat like,

It is summation to the second mantand treat like,

It is summation to the second mantand treat like,

It is summation to the second mant descrying the comparative action of his powers, discover which of them requires more tone barning. Master the science of pleading—which, if any, less. We must take care, master Coke and Littleton—and Coke's and chalking out a course of study by formshing ficult parts of the science, but by courting you with lists of books and the order in which them, grappling with them, and overcoming general remarks.

Export against be an atom and pure are your control and the co

agreeringes are paid.

If subscribers neglect or refuse tribing their to be discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few words: it is "opte-distinct-ornate discouraged by the reflection that we few wor is to which they are sent, they cannot all be Newtons. It is our business erre—to speak to the purpose—to speak rill their bills are settled and to make the most of our talents, and opported and distinctly—to speak greefully; maides, and insight of decouraging parselves to be able to speak to the purpose, you must by comparisons and imaginary impossibilities understand your subject and fill that belongs to by comparisons and imaginary impossibilities understand your subject and fill that belongs to believe all things possible—as indeed almost it—and then your thoughts and method must battles. The march, the counter-march, the was placed, together with the articles found all things are, to a spirit bravely and firmly by councided—and lastly, your voice, syle, the retreat, the real face to face, open field, not in the person, in a glass case for the inspection man as contradistinguished from a delivery and gesture, must be graceful and de-botty connected, hand to hand fight—all, all but in the process of unrolling by Prof. Agaspractical man as contradistinguished from a delivery and gesture, must be graceful and de-visionery theorist, as men of genius are very lightfully impressive. In relation to this sub-make up the programme of the actions of eve-siz. Br. Charles T. Juckson, Dr. Wyman, apt to be. He was great and in that greatest ject. I would strenuously advise you to two of all good qualities, strong, sound, common things much and often, and treamphs. A man may look around him, no divide a miscrafe divided and a mere genus, a thing of guessa distinct, or arefully, with reference to this rule of aptorate and fet your conversation have thing in the social field that touches somehow his interests, either donesite, pecuniary, more reference to the same objects. I do not mean the rest your intellectual efforts, principally, to that you should be elaborate and formal in al, or intellectual, and his happiness, his well-restricted to the same objects. I to not mean the programme of the actions of each of the actions of each of the second field strength in the social field that touches somehow his interests, either donesite, pecuniary, more programme of the actions of each of each of the actions of each of the actions, and the programme of the actions of each of the actions of each of the actions and the programme of the actions and the progr

the cultivation of the strong masculine quali-ties of the mand. Sales, \$5,006,51. Com \$2,12] a barrel— 650 acres. Net to hand, \$148,75.

LEONIDAS B. LEMAY, Associate Editor.

The proprietir has just commenced the use of line and is of opinion that it will pay a profit upon the expenditure more certain than any other outlay be can make. The Roanoke Bostoms, that are overflowed upon an average once in seven years, will violated eight and a bout \$15 an acre. The uplands, may average \$2,50 an acre, and yield about two barrels, ten bushels,) to the acre. The best corn land on the river will average 10 parrels.

8650, of which \$300 is for overseer's wages. It is worthy of remark, that the same overseer has been in the same employ fourteen The proprietor took possession of the vears. dace in 1844 and the sales that year amount-

d to \$1500. In 1845, \$2,500, 1846, \$4,200, 1847, \$4.500. 1848, \$4.600. 1849, \$4,200, leaving still on hand about \$400 worth of surplus .-During the same time, complete new buildings and fences have been erected, and the value of the land more than doubled, and more than

quadrupled in productiveness.

Now how has this been accomplished! By disching and draining swamp land, naturally The tract contains 1,785 acres, valued at deeply; by exceting manure for the poor barren sands; but principally by digging and spreading manure for the poor barren sands; but principally by digging and spreading immense quantities of mart, or rathin grass or "resting." It is composed of rich or, sea-shell deposities, which, until now, had alluvian bot ons, which are liable to overflow, lain idle and useless; while the former owner

upon it a sumeient quantity of mills to make a mixture resembling cream, the balance of milk is then to be added; and lastly the whiting is then to be crumbled and spread on the surface of the fluid in which it this period it must be well stirred in, or ground as you would other paint, and it is fit for use. There may be added any coloring matter thet suits the fancy .

It is to be applied in the same manuer as

other paints, and in a few hours it will become perfectly dry. An other coat may then be added, and so on, until the work is completed. This paint is of great tenacity, and possesses a slight classicity, which enables it to bear rubbing even with a coarse woollen cloth, without being in the least injured. It has little or no smell even when wet, and when dry is perfectly inodorous. It is not subject to be blackened by sulphurous or animal vapors, and is not injurious to health. Ail which qualities give it a decided advantage over white

The quantity above mentioned is sufficient for covering 57 yards with one coat.—Anna polis Republican.

O PERSERVE FRUIT TREES IN BLOSSON FROM FROMT. -- Surround the trunk of the tree in blossom with a whisp of straw or hemp,--The end of this sink by means of a stone tied to it, in a vessel of spring water, at a little disance from the tree, one vessel will conveniently serve two trees; or the chord may be lengthned so as to surround several before its end is plunged into the water It is necessary that the vessel should be placed in an open situation out of the reach of any shade, so that frost may produce all its effects on the water by means of the chord communication with it. To PRESERVE APPLE TREES PROY BLIGHT.

By washing the branches with quicklime it will preserve the trees from blight, and ensure a crop, those which escaped washing suffered from the blight whilst the other produced a good crop. So says a correspondent of the Linerpool Courier.

To DESTROY GREEN AND WORMS ON ALL

KINDS OF FRUIT TREES, - Take spirits of Tur-pentine and rub the trees well with it. Use a painter's brush

To Paserve Peace Tures .- The followlowing mode accurring Peach tree from injury, and promoting their bearing fruit plentially, has been practised with uninterrupted success for many years. As soon as the clossoms appear in the spring. time ashes are sentered. Sales \$5,083,16. 600 acres of corn, sold at ver them and the young leaves, by occass of a fin box, perforated with holes, and fixed on the end of a pole. The process is easily performed and in the power of any one. It should be done if possible on a moistday, and when the wind it still.
