GUMBO SOUP AS MADE IN NEW ORLEANS.

Take a fowl of good size, cut it up, season it with salt and pepper and dredge it with flour. Put into the soup kettle 1 table spoonfal of lard, 1 of hutter, 1 onton chopped fine. Next try the fowl till well browned, and add 4 quarts of water. The pot being covered, Then put in 30 must simmer for 2 hours. oysters, a haidful of chopped okra, a very little thyme, had let simmer half an hour more. Just befare serving up, and a halftable spoon of feeles powder. Soups must simmer not boil.

If made a day before and the greate skimmed off when cool, this soup may be taken with impunity by dyspeptie. VICTOR.

VALUE OF AN ORCHARD.

Every farmer of mechanic who owns an aere of land should supply it with fruit trees. The fruit would be worth more than any other product that he would obtain from it bestdes the advantage of comfort and health to the family. One individual of our acquaintance cleared off the rocks and bushes from an acre of worthless land, and set out 36 apple trees. The fruit has paid for all the labor, the land and the trees being now worth \$200.

PINE APPLES IN FLORIDA

The coluvation of the pine apple has been commenced in Florida; and, with a little protection occasionally in winter, it is believed this delicious fruit can be raised in that State in abundence.

SWEET LARD.

cook it till well done; pack it in stone jars, or sweet oak tubs.

undred pounds, the increase from the Guano would be \$30, against a cost of \$331. Here. toe, veg-tation is very luxuriant opon the land since the oats have been taken off.

Respectfully. &c., B H. MAGRUDER.

The idea of cutting grain while yet quite tom by driving three nails at equal distances the Colorado and the Gila rivers. [He said, the territory which she claims or a less amount, tom by driving three nails at equal distances the Colorado and the Gila rivers.
