NEW BOOKS! IREDELL ON EXECUTORS: BELNG

A Treatise on the Law of Executors and Administrators

IN NORTH CAROLINA. By James Iredell.

Till Kohject of this work has been to exhibit the law, as it now stands in North Carolina, in relation to the matters of which it treats. It embraces, therefore, the English doctrines, as far as they are recognised in one now State, as well as in acts of Assembly and the decision of our nown Caurts, on the subject of Wills, Executars and Administrators. It is thought it may prove secial, not only to members of the legal profession, but also to others, who are so frequently sailed upon to un-deptake the indispensable, important and responsible trusts of Executors and Administrators.
