DEMOCRATIC INCONSISTENCY

It is disgusting to notice the glaring inconsisof the Convention. ency of the democratic party in their opposition o the secrecy of the American movement and remarkably uncomfortable at the prospect of the tactics, and especially of their abhorrence to test Convention presenting a platform that will enapaths and obligations. One of the most plausible objections urged by the Democratic party against the Know Nothings, is the cath by which the latter have bound themthe cath by which the latter have bound them-selves to conform to the rules and regulations of the order. This eath has been stigmatized as Council at 5 P. M., yesterday, and they were distreasonable and criminal, and epithets have been lavished upon it which were anything but flowery or odoriferous.

But, although it has long been the practice of certain class of politicians to " Compound for sins they are inclined to,

By shunning those they have no mind to," Yet that perfection of screne self-assurance, which teaches that what is culpable in others is exemplary in ourselves, was never successfully reached until the meeting of the several democratic Conventions to cominate candidates for Congress. The old sect of the Familists, if we remember rightly, taught their followers the equivocal maxm, that " to the pure all things are pure;" but it remained for these delegates to preach up an especial denunciation of Know Nothingism, on account of its oath, and then complacently procord to formally attach their names to a declara tion even more imposing and solems. Fiel gentlemen, fie! If, like the elder Cato, you do ometimes disduin to sacrifice to the Graces, at least imitate his illustrious example in one other respect, and pay a due regard to the proprieties.

We was I call the attention of our plous out-Know-Nothing locofoco friends to the propriety of taking into consideration the case of that young man, who, recently raised his right hand, and called God to witness, a lo Know-Nothing, that he would not vote for, countenance or the North and the South. The North does not respect any d-d Know Nothing, or any body that demand a repeal of the fugitive slave law, nor the sympathized with them. They ought to set up with this renegade from the true locofoes faith He has fallen into forbidden puttis by oath-binding pledges, and prescribing a portion of his fellowcitizens from the offices of the country. We commend him to the Prophets and Apostics of the Jacobin Club, that ring long sounding bells to gather the faithful together in the temple of Justice. They do not rally very promptly, we learn, at the call; the reason for which, we have heard it suggested, is because wicked Judges and Magistrates are in the habit of making folks lay their hands on the Bible and take dreadful oaths. The Company in ques-tion, resisted the payment of their policy, on the ground that the use of comphene was prohibited. The use of camphene was merely incidental in the mechanical department, and the plaintiffs contended was not such a use as was intended to be prohibited. The jury sustained this view, and rendered a verdict of \$5.478 with costs,— The ground unintained by the plaintiffs was that, the Companies were all awars of the com-mon practice and necessity of the fluids objected to in all such establishments, and that the fact for a steel engraving of Rev.
