LOSSES BY MAIL.

The Washington Union states that in every case of loss by mail, whether supposed to be the result of casualty or of deception, it is important that the department should be informed without delay of all the circumstances connected with it.

AMOUNT PAID OUT EXCEEDING RECEIPTS.

The City Attorney was directed to address the Board of Commissioners on Monday, July 23rd, 1855, regarding the amount paid out exceeding receipts.

THE THREE-TENTH JOURNAL.

The Washington Star of Saturday evening, says that the accounts received in Washington from the frontier, with reference to the progress, the whereabouts, and the means of the Stone and other bands of Indians, are somewhat contradictory.

AN ELASTIC SALKER.

The salary of the Governor of Indiana, though small when stated without the population to which the office extends, is not quite liberal when stated in full.

From the Philadelphia Star.

THOMAS JEFFERSON A "KNOW NOTHING."

Some time since the Washington Union contained an article under the head of "Immigration—Its Influence on our National Progress and Prosperity," in which the American Organ says, assuming that it is not a fact that the prevalence of foreign immigration to the United States is the result of the policy of such a party, adopted at an early period in our history, must have been fatal to our prosperity and greatness, since, as it pretended to show, in an argument based upon some common tables furnished by our SCIENTIFIC OFFICE, the American nation is mainly indebted for its growth in wealth and population to the influx of immigrants from Europe.

THE CHURCH EXPECTS EVERY MAN TO DO HIS DUTY.

Now, what think you, people of all religious denominations, except that of Rome, of this mingling of Church and State in political affairs? Is it not time that such a system of electioneering as this should be put down? "The Church" expects every man to do his duty! Mark that!

Mr. James B. Clay, a son of the great Kentucky statesman, has been making a speech against the American Party.

He is the person who tore down the old mansion of his immortal father, instead of leaving it to be resorted to and gazed upon with reverential awe, by the men of future generations. Prentice of the Louisville Journal, says, "by the way, as Mr. James B. Clay, according to our information, is or has been selling the beams, rafters, posts, &c., of his glorious father's old dwelling house to be manufactured into walking sticks, &c., probably the Know Nothings would be glad to see a publication of his tariff of prices for the lumber. A great variety of them would, no doubt, be willing to pay any reasonable price for precious relics from the mansion of the most illustrious of American statesmen. If Shakespeare had had a son, possibly his house at Stratford-upon-Avon, instead of its standing as it now does, merely to be gazed at by hundreds or thousands of "pilgrims to his genius," without yielding a farthing to anybody, might have been torn down and sold for a very smart sum, as material for walking canes, chairs, snuff boxes, years and years ago."

THE AMERICAN PARTY IN ALABAMA.

From the accounts that reach us from Alabama, the American party has already become formidable, and promises to sweep the State at the approaching election. The Hon. W. R. Cobb, the old Democratic representative of the Huntsville district in Congress, has taken position on the American platform, and men of all parties from every section of the State are rushing into the American ranks.

Mr. Editor: The meeting of the friends of the American party, held at Hamburg, Wake county, by the motion of William H. Hood, Esq., called to order by appointing A. T. Mill, President; James Woodruff and Moses A. Kibben, Vice Presidents; and Moses H. Todd, Secretary.

After the reading of the National American Platform, which was received with an outburst of applause by the some of American soil, and without a murmur of condemnation from the friends and allies of the Foreign and Home Catholic slaves. After which, Hon. H. H. Hays, distinguished platform of principles in an able and patriotic speech of one half hour's length, which carried conviction to the hearts and minds of all present. Whereupon the ratification of the platform was proposed and unanimously adopted.

LETTER FROM H. W. GUION, ESQ.

LANCASTER, July 25, 1855. My dear Editor:—I received by mail, your issue of the 21st inst., containing an account of the proceedings of the American party in your paper, as a candidate for Congress in this district. While I appreciate your kind notice, and the interest which you manifest in my behalf, yet, as I am apprehensive that my true position may be misapprehended, and my views on the subject of immigration, and the influence of immigrants on our national progress and prosperity, may be accompanied by an explanation of the position I really occupy.

Although not a politician by trade, it has ever been my practice to give to every public question, a calm, thorough and impartial consideration. I have, therefore, given to the subject of immigration, at present agitated through our country, an earnest examination. I find myself fully and warmly committed to the newly formed "American Party"—and am unwilling, therefore, that my name may be associated with any party, or used in any manner, which would be likely to excite the passions of the people, or to be taken as a recommendation of any party, or to be taken as a recommendation of any party, or to be taken as a recommendation of any party.

To show my sincerity in adopting the American principles—I will take only what I consider a single branch of the subject, and that is, the subject of immigration. I will show, by the facts and figures, that the immigration of the people of the North and the South, in the year 1850, was 13,342,194, and that in the year 1851, it was 13,959,618. It appears, then, that in the short space of six years, the Northern States have fast outstripped the Southern in the increase of population; and this fact appears the more striking, when we consider that the population of the Southern States, in the year 1850, was 4,242,436, and that in the year 1851, it was 4,242,436.
