For Sale.

The Proprietor of the NORTH CAROLINA STAR, having other business that requires his attention, is desirous of disposing of the entire establishment, presses, types, materials, list of subscribers &c. To a person of energy and enterprise, the investment would be not only a safe but a profitable one, and might be made very lucrative. The materials are good, the type new, or nearly so, with a respectable list of subscribers, and a tolerably good job and advertising patronage, which, with a little effort, might be largely increased. Any one wishing to purchase, will please address

WILLIAM C. DOUB.
Editor and Proprietor

☞ For reasons growing out of the above announcement the publication of the TRI-WEEKLY STAR will be suspended for the present. Subscribers to that paper will be furnished with the Weekly issue.

A Free State out of Texas.

From various sources we have come in possession of facts (says the New Orleans Creole) which go to show, that the German, French, Swiss, Hungarians, and other foreigners will, ere long, make a strong demonstration to form a free state out of Western Texas. We have lately conversed with men from that part of the State, and they unhesitatingly aver, that the foreigners there are to a man opposed to slavery.

There are also men from the North who are insidious leaders in the movement and are urging the foreigners to take a bold stand in favor of the project. They are busy in the work of drilling them for the contest, and already boast of having ten thousand voters.

The struggle for a division will soon commence and although natives of the state would like to see a division, yet they fear to test the question. But whether they move or not, these foreigners will move for them and bring on the issue. The longer the natives of the State delay action on this subject the worse it will be them, for their opponents are gathering numerical strength, and will doubtless, overwhelm them sooner or later, unless the present patent process of naturalization is speedily arrested.

The patent mills are grinding out voters with astonishing rapidity, and the hopper is kept full of grists from the old world.

Gentlemen who have lately visited that portion of the State confirm the above statements.

There is just for reflection to Southern men in this matter, and the sooner the issue is promptly met the better it will be for all parties.

Alabama Affairs.

We have received a copy of the annual message of Governor Winston to the Legislature of Alabama.

It is mainly occupied with the local affairs of the State; but some of the topics are of general interest.

The finances of the State are in a very sound condition; so much so that the Governor recommends an inquiry into the expediency of reducing the rate of taxation; and it is in relation to this topic that he speaks of the degree of aid which he is willing to extend on behalf of the State to works of public improvement. It is to lend to enterprises of public utility "as a financial operation, whenever unproductive surplus there may be in the treasury of the State unavailable at the time for the payment of State obligations," provided" that the borrower guarantees the prompt repayment at an early day of principal and interest, by security personal and real. He says very distinctly that the propriety of the State loaning its credit, or raising the means from the people to aid in the construction of railroads, "does not appear to have received the approbation either of the people or of those seeking place in the councils of the State." There is at least a very distinct declaration of what the Governor understands by "State aid" to railroads.

Household Words.

We have received from the publishers, Messrs. Dix and Edwards, New York, the December number of Household Words. The following is the table of contents:

"Out of Town; Winifred's Vow; The Light of Other Days; Ghost Music; Model Officials; Italian Village Doctors; Instructive Comparisons; Holiday Quarters; Spotting Cowley in Earnest; Peter the Great in England; London Stones; A Dream; Half a Life-time Ago—in five Chapters; The Cuttle Postman; Pierre Etard; A Dash Through the Vines; Barbarous Torture; Yellowknights; The Present; Bound for Brazil; Sunday Music; An Enemy's Charge; An Excursion Train; Another Tight Little Island; The Roving Englishman—From Koshwa to London, In Belgium; Truffles; The Beechgrove Family; Stonehenge; Tardy Justice; A City Weed; A Lodle's Warehouse; The Post Mistress."

Harper's Magazine.

We have received the December number promptly from Mr. Pomeroy. Its illustrated papers are The Conquest of Mexico, by John S. C. Abbott; Remembrances of the Mississippi, by T. B. Thorpe; A Trip to Newfoundland, being a history of the Telegraph Cable party; How Mr. Bloomup's Congressional Experience, and Lessons. The Rancher; a tale by the author of Loss and Gain, is very excellent, and there are several other fine stories, with the usual editorial record of monthly events, chit chat, &c.

A Rich Development.

The administration organ, the New York American, at Washington seems to be in a "pack of trouble" with regard to its organ, the Washington Union. We saw it stated a few days since that Col. John W. Forney had retired from the concern, with the intention of trying to shuffle the political cards in Pennsylvania so as to get elected to the United States Senate from this State. It is well known here that he is an applicant for Senatorial dignity and honors, and has had an itching that day at every election for United States Senator which has occured in Pennsylvania within the past eight or ten years. No party, or even faction of a party, however, has ever been found willing to endorse him, or having the temerity to present him for that responsible and dignified station. In other words he has "gone a begging" heretofore, and yet, like Micawber, he is always looking after "something to turn up." The Senatorial atmosphere is a good deal bedogged and beclouded in Pennsylvania at this time, but through the liftings of the mist, which enshrouds it, we cannot discover who is to support Col. Forney for Senator, although certain Washington letter writers, in somebody's pay perhaps, insists that he is prominent as a candidate.

Telegraphing on a Long Circuit.

The feat of telegraphing direct, in a single circuit, between New York and New Orleans, was witnessed last evening, says the New York News of yesterday, at the office of the New York, Washington, and New Orleans line, Mr. Cure, of New York, and Mr. Bardavin, of New Orleans officiating as operators. This was effected by the aid of six repeaters, a very simple arrangement, by which the aid of way batteries at intervals of several hundred miles is secured. Telegraphing in very long circuits, by the Morse system, is practically, day after day quite impossible but it is believed by those competent to form a correct judgment in such matters, that the newly invented and wonderful machine of Mr Hughes will render it easy to telegraph, at all times when the wires are not actually parted in circuits of even five thousand miles. We understand that several of the Hughes machines are nearly completed and that they have been secured by a company, who propose to open a new line to the South in the course of a few weeks—the most ample arrangements for this purpose having been already completed.

Kansas.

The Free State Convention concluded its business and finally adjourned on the 11th inst.—The resolution adopted endorsing the Nebraska bill and the principle of squatter sovereignty was subsequently called up and rejected. The Constitution, as it has been adopted, submits the question of slavery in Kansas to the vote of the people. Among the provisions of the Constitution is one fixing the boundaries of the State in accordance with those laid down in the Kansas Nebraska Bill, extending west to the summit of the Rocky mountains. Topeka is to be the capital temporarily, till the Legislature shall determine a site for a permanent location of the state buildings. The Constitution is to be submitted to a direct vote of the people for ratification on the 15th of December next, and if adopted an election for Governor, Lieut. Governor, Secretary of State, Treasurer, Auditor, Judge of the Supreme Court, Attorney General, and members of the General Assembly, is to be held on the third Tuesday in January, 1856.

The Three Millions—All a Mistake

It is now stated that it was altogether a mistake about Cushing having decided that the three millions due Mexico were to be paid to the purchasers of Santa Anna's drafts. On the contrary Cushing has made no decision at all, and the question still remains an open one. The probability is that it will be paid to the existing Mexican government, in order to satisfy the requirements of the law, and to vest the outstanding wrath of Gen. Gadsden. If this should not be done, the consequence will be that we must buy another large slice of Mexico in order to furnish that unhappy government with the means wherewithal to keep its head above water. Taking every thing into account, it is hope that it will all be settled quietly, harmoniously, and honorably, with a due regard to the feelings of Cushing and Gadsden, and a tender respect for the financial sensibilities of Mr. Guthrie. We must keep the peace.

American Cause.

The result of the election (says the Albany Register) has brought thousands over to the American side who did not before belong to us.—The American Councils swarm with new members, while the old and lukewarm are animated with renewed energy and devotion. From all parts of the State we receive the most gratifying assurances; and no party ever had a prospect like that which will attend the advent of the American party to power. All this indicates the confidence felt that the Americans will make a wise use of the power conferred upon them, and meet their responsibilities in a manner that will best promote the general welfare.

Governor Pease, of Texas, in his message, has recommended the Texas Legislature to accept the United States Congressional bill appropriating 7,500,000 dollars, in full liquidation of the Texas debt. It is fully believed that the Legislature now in session will accept the bill. Private letters received in New York from Texas, give assurances to the same effect. In three months after Texas accepts the bill, the $7,500,000 is to be paid out from the United States Treasury, which will go to the Texas bond-holders, and must tend to render money more plenty, by taking that sum from the vaults of the government and putting it into circulation. About $2,000,000 of it will be paid to creditors in New York, and considerable sums to others in Philadelphia and Southern cities.

Fair Play

After the London Times had falsely charged Mr. Buchanan, the American Minister, with promising American sympathy for the allied cause, Mr. Buchanan wrote a courteous note to the Times, explicitly but in polite terms contradicting the statement, which *the Times refused to publish*. Imagine the *National Intelligencer* guilty of such unfairness and discourtesy to the representative of a foreign country! But it shows the spirit of the Times and the disposition to fabricate a cause of quarrel, without regard to truth or justice.

A Cool Falsehood.

The Dover (Del.) Reporter, having published a pretended paragraph from an Ohio paper, stating that the register at Ohio read the American tickets at the recent election, the Delaware Sentinel quietly calls the falsehood to the counties in showing from the constitution of Ohio, that no colored person can vote at all in that State.

☞ The New York correspondent of the Savannah Republican, after a page devoted to the Senatorial election, says he will say something of considerable consideration. We hardly have any fixed opinion on this particular point, but it occurs to us that as long as Seward, Wilson, Sumner, and their confederates, continue to flash and agitate the subject, it would be proper for somebody to meet them and expose their falsities and misrepresentations; and this, we think, should be done principally by Northern conservatives like Mr. Dickinson. But hear what the Express says:

"A body of men, powerful in wind and words, are making the North ring with unconstitutional and unscriptural doctrines,—and no man, not even a deaf one, can shut his ears against them. Rome howls with the hurricane they raise,—and to pretend to its insensible to it is folly. If such men as Ex-Senator Dickinson thus shut up shop, and leave the African traffic all to the Wilsons and Sewards,—they will soon make a desert of Sahara to us,—an Africa indeed.

"The North needs,—and must have the whole subject of Slavery, constitutionally, scripturally, historically, and as a matter of peace, thoroughly discussed. Such men as Mr. Dickinson ought to go into, and not shrink from it. If the Constitution, in upholding slavery, as it unquestionably does, is against God, as we are told,—it ought to go down, and must go down. Such men as Mr. Dickinson ought to come out and show the country why it should not go down."

Blackwood.

We have received the November number of Blackwood's Edinburgh Magazine, re-printed by Leonard Scott & Co., No. 79 Fulton street, entrance 54 Gold street, New York. Price $3 a year; Blackwood and any one of the four Reviews $5; the four Reviews and Blackwood, $10. Postage, payable quarterly in advance, on Blackwood and the four Reviews, 80 cents a year, viz: 24 cents on Blackwood and 14 cents a year on each of the Reviews. So large a quantity of literary matter of the first class, can hardly be gathered from any other source for so small an amount of money.

The American party, says an exchange, is everywhere coming out as an open organization, upon the broad platform of the Union, the constitution and its compromises, and maintaining the great patriotic doctrine that Americans should rule America. The march of this great national party is onward. In fact, it promises soon to be the only strictly national party in the country.—No fears of a dissolution of the Union need be apprehended when it achieves power. It will bind the States together with "hooks of steel." that no power, whether domestic or foreign, can break.

The Condition of London.

A correspondent of the National Intelligencer says that the street population of London are in an excited and restless condition, and have more than once risen in fury, overawed the Government. They were first rallied out by the proposition to make the Sabbath Observance bill, and afterward assembled a Chartist charter, and now demand bread or employment. They meet every Sunday in great numbers in Hyde Park.

The Veiled Murderess.

Mrs Robbinson, the veiled murderess, is said to be employed at present in working upon straw hats. It is stated that, whilst engaged at her labor, she will burst out occasionally into an uncontrollable fit of laughter; at other times is sad and desponding. She is very good tempered, and will continue to be the pet of all around so naturally that her many crimes are still hard of her release. She expects to be hung.

☞ Mr. Dobbin, the Secretary of the Navy, it is now stated, has not resigned, or given up his office. He has for some time been a sufferer from a bronchial affection, but his health is much better. It was owing to this cause.

The physicians thinks that a brief relaxation from the labors of his office will restore him to health, and has advised him to visit Florida or elsewhere in the South.

New Arrival.

The Steamer Atlantic arrived in New York on Friday last. The Turks had gained a victory in Asia. Rumors of peace are prevalent, but they were of a vague and indefinite character. The price of cotton is unchanged. Breadstuffs have advanced slightly.

From Texas.

Crosby, the American candidate for Commissioner of the Land Office, in Texas, has been elected over Fields by nine hundred and sixty majority. The office is second in importance to none in the State, and this triumph shows that Texas is sound on the American question.

☞ John A. Boyden, Esq., of Salisbury, has been elected President of the Yadkin Navigation Company. The Company is now fully organized, and, will, we presume, shortly commence active operations in the prosecution of this important work.

CAPE FEAR AND DEEP RIVER NAVIGATION COMPANY.—The Directors of the Cape Fear and Deep River Navigation Company met in Fayetteville on Tuesday last the 20th inst., all the members of the Board, with the Engineer, being present.

We understand that a proposition was introduced to let out the work on Deep River to parties in Philadelphia at the Engineer's estimates; but for reasons satisfactory to a majority of the Board, it was resolved to defer the letting out of said work for the present.

We understand, also, that the work on the Cape Fear is substantially finished, with the exception of that portion at Cross Creek; and that with the heavy force now employed at that point viz, upwards of one hundred hands, in a few days if no freshet intervenes, it will be put beyond danger.

We hear, likewise, that Mr. Douglass, the Engineer, who had been in charge of the work for some time, expresses himself highly pleased with its progress, and the manner in which it has been executed.—*Wil. Herald.*

ANOTHER DECLENSION.—Ex Senator Dickinson, of New York, has declined to lecture on the slavery question in Boston. He says:

"To lecture upon this disturbing subject, unless it is proposed to act upon it, would seem to be a barren and profitless gratuity; and, if action is proposed, it must have relation to the domestic concerns of our sovereign equals, with which we have no right to interfere. They left this question in other times, according to the true sense of the Constitution, to the people of New York and Massachusetts, [illegible] and intolerance, to dispose of [illegible] their own and in our [illegible] to the accordant spirit, leave it to the same [illegible] Determined long since to [illegible] question where the Constitution left it, and [illegible] accept your invitation, I would close by my theme 'The Duty of the people of these Five States,' and would endeavor to inculcate the valued admonitions of the Father of our Country upon sectional disturbances. Lest, however, a formal lecture, as proposed by your course, even involving no intervention in the affairs of sovereign States, might be construed into an admission that it was an open question, and that by the same rule, choice might arise and I must decline, assured that I shall [illegible] to preserve the public peace by declining to take part in the proposed discussion."

THE Trustees take pleasure in announcing to the public that they have secured the services of Mr. Matthew S. Davis—a young man who has sought a solid education, with express reference to the business of teaching, and has selected it, not as a stepping stone to some other call, but as a permanent profession. Mr. Davis is a graduate of the University of North Carolina, and was prepared for College chiefly in the School of which he has now become the Principal. We have had, therefore, every opportunity of knowing his qualifications; and we confidently assure those who may feel inclined to patronize the school, that they will find in Mr. Davis a teacher to whom they may with comfort and confidence intrust the moral and mental training of their children.

Board can be had in the village at $10 per month.

Tuition—English Department	$ 9,00
Latin and Greek	12,00
Incidental expenses	0,50

The next Session will commence the 2nd Monday in January 1856.

By order of the Board,
A. H. RAY, PRESIDENT.

To Fanny Fern's 1,000,000 Readers!

A NEW BOOK COMING!

WE have the pleasure of announcing that we have in press, and shall publish about the first of December, a new work of fiction, entitled

ROSE CLARK,

A ROMANCE—BY FANNY FERN.

The last work, and first continuous tale of this brilliant and fascinating authoress, "Ruth Hall," achieved a success unexampled in the annals of letters. In the language of a leading periodical, it "created a more profound sensation than any which has been issued during a quarter of a century." But it is unnecessary to dilate on the merits of "Ruth Hall." Judging from the number of copies of it we have sold, we judge that every body in the United States has read it. As respects the work we have in press, ROSE CLARK, we can only say, that we regard it, as in every respect, a greater, a better work; and are confident it will not only sustain, but even increase the reputation of its distinguished authoress. We have reasons for thinking that "Rose Clark," will make a greater sensation than did "Ruth Hall."

It will form an elegant 12mo volume of over 400 pages. Price $1.25, on receipt of which copies will be sent by mail, post paid. It will be for sale by all booksellers. Published by
