

The President's Message.

We give below from a contemporary, a synopsis of this document for the benefit of those who do not desire to read the entire message, which will be found at length in this issue.

The early portions of this remarkable document are simply recapitulations readily admitting of condensation, but the long concluding section containing a historical retrospect of the slavery question, must be read in extenso by all who desire to know the opinion of President Pierce on this momentous question.

The President's message contains an exposition of his policy on the slavery question, and an appeal for the attention of the people to this important subject.

Our Relations with China and Japan.

The New York Journal of Commerce publishes an interesting letter from China, in which the writer rebuffs the indignities which are put upon our ambassadors in China, and alludes to the quibbling of the Japanese in regard to the recent treaty made with the United States through Commodore Perry.

House.

Mr. Boyce made a personal explanation. He thought and had frequently expressed his opinion that circumstances were being brought to a head, and he was prepared to stand up for the grand principle of the North, and to oppose the single idea of hostility to the institutions of the South, which party held forth to be the National and Slavery Question, while at the same time the Constitution recognizes slavery and the formation of the Government was the result of harmony, compromise, and compromise. If that party ever obtained possession of the Government and he thought it would, it would be the result. He did not desire to see—God forbid it!—Mr. Allen, said he had no disposition to war on slavery in the States, but he was opposed to its extension.

The House then proceeded to ballot for Speaker, with the following result: [List of names and votes]

Mr. Dancy urged the Massachusetts members to sacrifice their personal feelings and vote for Mr. Loring.

Mr. Underwood offered a resolution that the first member on the list be put in nomination and balloted for, and so on till a Speaker is elected. The resolution was tabled.

Another ballot was then taken, which resulted precisely like the above. And then the House adjourned.

Mr. Knight, after urging the importance of a speedy organization of the House, offered a resolution providing for the election of a speaker by a plurality vote.

Mr. Phelps moved that the resolution be laid upon the table, which motion was agreed to.

Mr. Loring submitted a resolution, that the message of the President of the United States, together with the accompanying documents, be received; and that the message be now read. But this resolution, on motion of Mr. Washburne, of the country, was laid upon the table.

The House proceeded to vote for a Speaker. Mr. Banks received 103, Richardson 72, Fuller 32, Pennington 3, scattering 5. Whole number of votes 218. Necessary to a choice 109.

Mr. Million moved that the President's message, as it appeared in the House, be read in full, and that the House do not take any action upon it until the 21st of December, to be taken from the table and read in full, it was his judgment, a most respectable public document, falsifying the history of the Government from its organization down to the present day, in every particular.

Mr. Stanton raised a point of order, that the message should be received, and then read in full, and that the House do not take any action upon it until the 21st of December, to be taken from the table and read in full, it was his judgment, a most respectable public document, falsifying the history of the Government from its organization down to the present day, in every particular.

Mr. Mack moved that the whole subject be laid upon the table, which motion was agreed to in the affirmative—yeas 118, nays 91.

The House again proceeded to vote, with the following result: [List of names and votes]

Mr. Clayton concluded by offering a resolution that the number of copies be printed for the use of the Senate by the printer to the Senate for the last Congress, at a rate not exceeding the usual price.

Mr. Clayton concluded by offering a resolution that the number of copies be printed for the use of the Senate by the printer to the Senate for the last Congress, at a rate not exceeding the usual price.
