For sale at the Medicine and Drug Store of WM. M. MASON & Co. BALRIOR, N. C.

The proprietor of this medicine will not, like Paracclass and many inventors of the day, pretend to say his pills will care all diseases in an instant, or are capable of prelonging life to an indefinite excent. Could be cure them or arrest their progress to fruition, he would produce a classor in the economy of the universe which is not permitted, yet in conforming to the general benevalence of Providence, what he cannot entirely relieve, he is enabled to publishe. He can, however, confidently assert, if his pills be used in the incipient stage of either of the above diseases, in the incident ringe of etter of the nove diseases, in ninety-nine cases out of an hundred, no other, medicine will be required, and no family after having tested their solutory effects, will ever be without a bax; of this however, the public will be the best judge; being a Southerner, by birth, principles and feelings, he is at all times willing to place his destinant, in their hands.

III. NRY P. JONES.

Communication received from the eminent Dr.

J. H. Irwin of Florence, Ga. March 13, 1839.

Dr. J. P. Peters. My Best Sur—On the night of the 11th instant, I was called in great haste to the hoose of a lellow citizen (Mr. Lee) where I found his son—a child of six years old, laboring under a most alarming attack of Cynanche Trachenlis (Croup) and apparently beyond the aid of remedy. By the greatest good fortune, however, I had in my pocket a broken hox of your pitts—two of which I administered, with such an immediately happy effect that in a few minutes my pattent was at case, and out of danger. This case, in connection with my name ast your acrvice—and I have the pleasure to be able to inform you that your inextunable medicine is in such great favore with the faculty here, hat I believe there is not one of them who does not use it in his private practice. Yes most resply, J. H. IRWIN, M. II.

DR. W. W. MARSHALL'S Olutiment for the Blind Piles. This invaluable remedy has been several years before the public; its virtue and efficacy have been well tested, and, in numerous insta-ces, in the most aggravated forms of the diseas in not a solitary case has it been known to fall in effecting a cure. Many very respectable persons have borne testimony to its efficacy; among whom is the Rev. Wm. A. Smith, at the M. E. Church, and Editor of the Conference Journal who, from his own sperience, confidently re-commends it to the public as "A NAFE, ADRESA-RER, AND EFFICIENT RESERTA." It may be had at the Store of R.
