

MATRIMONY.

- 1 The man must live a happy life
2 Who's free from matrimonial chains
3 Who is seduced by a wife
4 Is sure to suffer for his pains
1 Adam could find no solid peace
2 When Eve was given for a sister
3 Until he saw a woman's face
4 Adam was in a happy state

- 1 In all the female face appear
2 Hypocrysy, deceit and pride
3 Truth, daring of a heart sincere
4 Ne'er known in woman to reside
2 What tongue is able to unfold
3 The falsehood that in woman dwell
3 The worth in woman we behold
4 Is almost imperceptible
1 Care'd be the foolish man I say
2 Who changes from his singleness
3 Who will not yield to woman's sway
4 Is sure of perfect blessedness

To advocate the ladies' cause, you will read the 1st and 3d and 4th lines together.

THE HEART.

The human heart, that restless thing, The tripper and the trier, The joyous, yet the sufferer, The source of pain and pride, The gorgeous triumph - the desolate The seat of love, the lair of hate, Self strong and self defied Yet do we bless thee as thou art, Thus restless thing the human heart.

Section & Commission Store.

N. B. HUGHES, General Agent, having taken the large Brick Store House adjoining Mr. T. H. Snow, three doors above Mr. R. Smith's corner, on Main or Fayetteville Street, is prepared to receive in store any kind and quantity of MERCHANDIZE, GOODS, COUNTRY PRODUCE, and so forth, which may be entrusted to him, which will be sold as directed, either at private sale, or Public Auction. He only pledges to exert himself to a faithful discharge of his duties, in reference to the interests of the owners and assignees, and strictly to account for, and pay to each, his own. The House which he has selected for doing business in, is as nearly fire proof as any in the City, and that persons consigning articles to his care, need not be afraid of fire. He thinks it unnecessary to give references, being so generally known all over North Carolina. But to those who desire it, he would respectfully refer to the citizens of Raleigh and the whole State. N. B. HUGHES, Late of the N. C. Book Store, Feb. 2, 1846.

HOTCHKISS'S Vertical Water Wheel.

In consequence of the very great popularity which these Wheels have attained by the use of nearly 4000 of them in different parts of the country, the Subscribers have sold 100 Rights in North Carolina, 50 of which are in full and use, and 50 in Cumberland county. When properly introduced, they nearly double the value of the Mill, and in quantity of work generally far exceed the most sanguine expectations of the owners, many of whom are gentlemen distinguished for their scientific and practical skill, who have attended to the value of this improvement. The Wheels are more durable, and more easily kept in order, when properly put together, than the common Pile Wheel. They will save one-third of the water, and run well in back water, when there is a head of water. The speed of the Saw is increased to more than double the strokes per minute. The price of an individual right, for one pair of Wheels, is \$50. We refer, among others, to the following gentlemen, some of whom have had the Wheels in operation 18 months or more, and from many of whom we have received certificates highly approving of these Wheels, and stating that their Saws, with this improvement, cut 2500, 3000, 3500, and even as high as 5000 feet a day, according to the head of water.

With such a deservedly high character, the subscribers feel justified in offering these Wheels to the Public. They will sell individual or county rights on reasonable terms. They caution all persons throughout the State from paying any persons but ourselves or our authorized Agents for the right of using these Wheels.

NOTICE TO MILLWRIGHTS.

If you wish employment, solicit yourself with putting in these Wheels as we now wish to employ at least 100 in this business in different parts of the State.

GREAT BARGAINS!! Large Stock of Dry Goods and GROCERIES SELLING OFF AT COST!!!

THE firm of Russell & Cooke having been dissolved, and their remaining stock of Goods having passed into the hands of Mr. Russell, one of the late firm, who is determined to close the business as speedily as practicable, the whole stock, comprising an extensive assortment of DRY GOODS AND GROCIES of excellent quality, is now offered for sale at cost. Goods of almost every description suitable to this market may be had so cheap, that a better opportunity can never occur for all to supply themselves, who will call soon. The public are assured that this offer is not at cost in good faith, and will be strictly adhered to. They will also find the goods of the best quality, fashionable, sound, and substantial, of a kind made for use, not merely to sell. All may be suited, as there are on hand many articles of the finest quality as well as a large assortment of the coarser and more substantial kinds. All are invited to call and examine and judge for themselves those who have the keenest taste for CHEAPNESS, will doubtless be satisfied. Those who do not need at present, will SAVE by buying now and laying up for the future. Let it be remembered that no one will sell goods in a regular business without a profit, by which they can live; that no one will sacrifice goods at less than cost without compulsion; and that cost is about as cheap as most merchants can afford to sell and most people would wish to buy. GEO. T. COOKE, Agent, Raleigh, Jan. 1846. Register and Standard till forbid.

To Southern and Western Merchants.

WE respectfully ask your attention to the following reasons why you should make your purchases of goods in the New York market, very frankly confessing it is our desire you should do so. It must be admitted that from 40 to 60 percent of all the foreign merchandise which is imported into this country, is received into the port of New York. Of course there is here the opportunity for the widest selection. The stock of goods on hand in this city, is at all times, larger than the united stocks of all the other Eastern cities. It is equally certain that New York is the chief and great depot for the manufacturers of the Eastern and Middle States, and of the products of the Western. The construction of the Ohio and Illinois Canals is making a very great change in the commercial routes of the traffic of the Great West. The prices of goods in New York, by reason of its immense supplies, and the consequent competition, are necessarily lower, and credits are extended on as liberal a scale as at any other point. The Merchants, Manufacturers, and Importers whose addresses are subjoined, are prepared to prove the truth of these positions, and will be happy to dispose of their goods on Terms which will verify all that is asserted here. For the cure of

Mercurial and other Ulcers, of long or short standing; Scrofulous and other Tumors, including White Swellings, Sore Legs, Old and Fresh Wounds, Sprains and Bruises, Swellings and Inflammations, Rheumatic & other Pains, Scalds and Burns, including Burns by Lightning; Gout; Itches; Women's Sore Breasts, whether inflamed or deeply ulcerated; Sore Throat, Tetter on the Head, Whitlows or Pelons, Itches, Cancerous Affections, Eruptions, Poxas, Oak Vine, Pityriasis, Snake, Spider, and other bites of Insects, together with almost every species of External Disease. THE PROPRIETOR, in introducing this Ointment again to the public, feels unwilling (as is the general custom) to resort to the cant mode of making an article known, by puffing but a word of state, that the great and unequal reputation it already enjoys, has been acquired solely by its superior medicinal virtues. It possesses several very essential properties, viz. It is stimulating to the weak affected parts; speedily subdues all inflammation; induces a free discharge of matter, in long standing cases; practices a healing of the disease, and is extremely mild in its operation. No injury, whatever, can arise from the use of it, not to an infant, even, as it is one of the most innocent remedies ever applied to the human system, all the materials of which it is composed, being of the most pure and wholesome character, consequently, there can be no liability to cold, or any disease. Experience has shown that it may be applied to the most tender age, and without danger, under any stage of suffering. It is pleasant and benign in its operation, and yet so searching in its use, that it penetrates to the very root of the disorder for which it is used, and never fails to effect a cure even in the most obstinate cases. This invaluable remedy should be kept in every house, ready for the many casualties and affections to which all families are daily liable, as well as for the relief of the afflicted horse, and other animals, for it is very efficacious, in almost every species of external disease, both on man and beast. No other Medicine has performed so many remarkable cures. It has taken prominent notice of the house, and prevented others from going there. It has lifted the afflicted poor man from a bed of long suffering, and made him again useful to himself & family. It has likewise taken the crippled wife from a painful bed, placed her again in sweet communion with her husband and children, and enabled her to resume her domestic duties. In nearly all the diseases for which the Ointment is recommended, its virtue has been fully tested under my own superintendency; and in support of its efficacy, I have been furnished with the most ample testimony, from various parts of the United States; while I daily continue to receive convincing proof of its great value. The public are informed, that no Ointment, purporting to be prepared by me, is genuine, unless it bears my signature, in writing, on the outside label of the pot. All Orders, directed to me at Raleigh, or to Wyatt & Ketcham, 121 Fulton street New York, will be promptly attended to. WILLIAM W. GRAY, Raleigh, Dec. 6, 1845. 61-1y.

PHILADELPHIA NEW AND CHEAP Umbrella & Parasol Manufactory.

MR. GALES, SIR—In order to relieve the Public the prejudice (which appears to prevail in this section of the country against all Patent Rights) so far as my statement will go in giving the advantage which I have derived in having Major Collins' Patent Right for grinding Corn, Cob and Shuck, stretched or applied to my Grist Mill, I state that my Mill since this improvement was attached, grinds not only as good Meal as before, but five times better, and grinds up the Corn, Cob and Shuck into Meal, and grinds it fine to mix with other rough food for Stock. My Mill grinds very slow before this improvement was made, but now grinds fine Meal at the rate of 4 bushels per hour. I make this statement, as well for the benefit of the Public, as to do justice to Knowlton's Patent (now owned by Major Collins). J. MORDECAI, Raleigh, Feb. 20, 1845.
