These Lands have been drained at great expense, under the direction of childs Personner. The undersigned having been employed by Mr.

I hese Lands have been drained at great expense, under the direction of skilfol Engineers, by an Act of the Legislature, and are believed to be now in a condition, to be cleared and cultivated.

This drainage has been effected by two main Canala, viz: Pungo Canal, extending from the Lake to the River, both of that name, 64 miles in length, with an average width at bottom of 22 feet, depth 6 feet, and fall of 12 feet; And, Alligator Canal, from the Lake of that name, to Pungo River, 6 miles long, with an average width at bottom of 30 feet, depth of 7, and fall of 10 feet, besides, sundry 1 ributaries, or lateral Bitches. They are, therefore, navigable for Batteaux—and emptying into fore, navigable for Battesux-and emptying into Pamlico Sound, their mouths are accessible to Sea-

A large pertion of this Land shounds in Juniver, Cypress, and other valuable timber, for which the forest of Easfern North Carclina is distinguished; nd other parts consist of prairie, covered with cone nd-bamboo, and in the estimation of the engineers who surveyed it, are of great fertility. I is therefore considered to offer peculiar inducements both
to Grain Farmers, and the getters of stringles,
staves, heading, &c &c, and, with exaction I iniper water, is thought to be more favorable to health

than most parts of the low country.

To immigrants now arriving in the ports of the United States in unusual numbers, especially those from Holland and Germany, accustomed to a similar country in many respects, these Lands will afford a soil as fertile as any in the North western Stat s, with easy access to the sea, and the great markets of the world, for its productions, and with in three days sail of New York.

A credit of one, two and three years, will be giv-

en to purchasers, on bonds with approved seems, and the titles will be warranted, but deeds will be withheld, until the final payment of the purchase

The President and Directors of the Litery Fund will stiend at the shantee on Pungo Canal, on the 20th day of May next, and will offer as much as 5,000 seres of said Land for sale at public auction, in quarter sections of 160 seres each, on the terms aforesaid, and may, if there be sufficient induce-ment, continue said sale on the two following days, or until the whole body of 50,000 acres is disposed

TO ALL WHO USE LEATHER IN ANT OIL OF TANNIN;

Leather Restorer: A New Chemical Discovery.

Most prople know that Skins and Hides are converted into Leather by the use of Tannin, extracted from certain burks, ite.

When the torce and strength of the Tannin is worn out, leather becomes dead, hard, day, brittle, aracked, as vered with a coust, ite. This all know. To restore, them, hip, softenss, moistness, strength, smoothness, and remove all roust, fly or blaster, restore the Tannin. This substance the leather never can receive the second time; but the whole situes of it are in this article, the Oil of Tannin, which penetrates the stillest and burdent techer. If it has been twenty years in use, and if it tour easily with the fingers, it imparts at once a strength that it has been twenty years in one, and it it tears endity with the fingers, it imparts at once a strength that is uttelly incredible until seen, it heromes the new leather, in all respects, with a delightful softmess and pellath, and makes all leather completely and perfectly impervious to water. - particularly boots, shows, carriage tops, harness, hass, tunks, and in fact all things mode of leather, giving a splendid polish, even higher than new leather has, and at least doubling its durability, in whatever manner the least coulding the durability.

Those who will may wear old alones, - grean with corns - ride with old cornage tops, - have not harvers and throw them away had used, - hook fittly themselves and all about them - expend double what is necessary for articles of leather to their heart's content, for what we care, if their prejudice are so strong that they will not try a new miscovery. We have no favers to ask of thems they are
