

THE NIAGARA SHOWER-BATH AN ENTIRELY NEW ARTICLE FOR SHOWER BATHING.

A great and important improvement is made in the Shower Bath over all others, by throwing the water immediately on the body without wetting the head, unless at the will or pleasure of the bather; but a greater point is gained by being enabled to bathe with warm water, which no other Shower Bath is adapted to—and most important of all, the Bath can be medicated without injury to the hair.

Many persons cannot take a cold bath—their case is met in this, as they can regulate the temperature of the water to suit their wish and commence bathing at any season of the year without any unpleasant result. Ladies can have the advantage of bathing without wetting the head or covering the same.

The arrangements are simple and complete, and not liable to get out of order. The Bath can be adjusted to suit any height, from a small child to the tallest person. When the door is closed, the fixtures are hid and the outside appearance is that of a neat piece of furniture.

They have received the approbation of several medical gentlemen—others are requested to call and examine them.

Manufactured by the Patentee, EPHRAIM LARRABEE, 24 South Calvert Street, Baltimore.

CAPT. BRAGG—GEN. TAYLOR. The New York Express of Thursday evening says:—It being known that the distinguished Captain now Colonel Bragg was in town, an impromptu dinner was given him last evening by a few gentlemen at the Astor House, over which Philip Hone presided.

As the dinner was in some degree private, we shall go no further than to report in substance, and from memory, the remarks of Col. Bragg. Mr. Hone, toasted him as Dapt. Bragg, better known by that than any other name.

Col. Bragg modestly rising, and in some embarrassment said, it was well known, that he was only a soldier, and that therefore no fitting speech could be expected from him in reply.

To the General-in-Chief his acknowledgments were especially due. He inspired the whole army with valor and confidence by his presence, not only at Buena Vista, but from the opening of the war on the Rio Grande.

On the 8th they fought at Palo Alto, and when night came on, the bivouacked in the open field, and amid the grass, with not a tent over them, the General himself wrapped in his blanket, and many I can assure you, in not a little doubt and gloom.

Another Gentleman. How near was the enemy to your pieces, at any one time? Col. Bragg. Within fifty yards at one time, when we mowed them down.

Col. Bragg closed his remarks by saying:—Understand me, gentlemen, I am a soldier, and no politician. I know General Taylor only as a soldier and a man.

The Express goes on to say: The remarks of Col. Bragg, which were more extended than we have been able to give from memory—and of their entire accuracy, as from memory we give them, there must be doubt—were received with great applause, and with the most profound interest.

In the morning a council of war was summoned, and there were eleven officers present, three only of whom advised advance. Mind, I cast no censure upon any one. A difference of opinion, under such circumstances, might have been expected.

When the Division Judge shall summon me to appear before our constituents at the end of our brief journey here below, our modesty, our weakness will not be an excuse for inaction.

Washington Platform.—An honest zeal and unflinching attention to the interests of the United States are all I dare promise.

Taylor Platform.—It will ever be my pride and constant endeavor to serve the country with all the ability I possess.

the name we call him, replied, after the consultation had broken up, we will advance in fifteen minutes—and forward they marched to Resaca de la Palma, the result of which you all know.

So at Buena Vista the personal character of General Taylor had a like influence on the army. When the War Department deemed it necessary, in order to form a column to invade Mexico via Vera Cruz to take his Regulars from him he was sure that Santa Anna would attack him.

ous to go on such an occasion, we might subjoin some most interesting remarks from Col Haskell, who served under Gen. Scott, and whom, whether as a teamster, or a paymaster in the commissariat, or in and every department, he pronounced the best sort of an officer, the very model of a perfect and accomplished soldier, and what is remarkable, as accomplished in the smallest as in the greatest things.

DESPERATE RENCONTRE. We copy the following from the Plauding (Miss.) Clarion, of the 19th August: Mr. H. E. Raney returned home from his pursuit of Daniel Stuckey, on the 12th inst. He brings intelligence of the killing of his brother-in-law and Banj. Stuckey, in a recent attempt to take the life of the latter individual.

This was done by engaging one of his neighbors to decoy him from his house, under the pretence of taking a hunt. In accordance with this agreement, Raney and his party were concealed in the house of the neighbor alluded to, when Benjamin Stuckey came up.

Gen Cass, on one occasion presented in the Senate, the resolutions of the State of Michigan upon the subject of the Wilmot proviso, one of which read as follows:—

"Resolved, That whenever the Government of the United States shall acquire any territory conquest, cession, or purchase, in which slavery shall not by law exist at the time of such conquest, cession, or purchase, it shall be repugnant to the moral sense of this nation, and a violation of the clearest duty of Congress to permit the institution of slavery, in any form, to be introduced therein."

In his pamphlet on the right of search, Gen Cass takes occasion to utter the following sentiment:—

"I AM NO SLAVEHOLDER—I NEVER HAVE BEEN—I NEVER SHALL BE. I DEPRECATE ITS EXISTENCE IN PRINCIPLE, AND PRAY FOR ITS ABOLITION EVERY WHERE."

To these multiplied proofs of Gen. Cass's unsoundness so far as the South is concerned must be added the passage of the Oregon bill, by his friends through the Senate—the treachery of two of them from the slaveholding States (Houston and Benton)—and the signing of the bill by Mr. Polk, the illustrious predecessor of this would be President.

From the Savannah Republican. SALE AT VERA CRUZ. The reader will find below a specimen of Democratic financiering which is sadly in keeping with the recklessness of the present Administration, as displayed in all its acts.

The Galveston News gives some interesting specimens of the manner in which United States property was sold at Vera Cruz. It declares that, although full sales of public property were advertised, all the public property which was offered at public auction was mere rubbish while all that was considered an object for purchasers was sold at private sales to a few individuals, who realized immense sums by these transactions.

Among the items thus sacrificed at private sales, was the government ship St Louis, which cost \$20,000 when she sailed from Philadelphia to Vera Cruz, and privately sold for the amount as understood, (and if not so, the News calls upon the Government to deny it,) of five hundred dollars!

The United States steamer Mary Somers (iron) that cost the government some \$30,000, and for which many purchasers were in the market, was sold for some \$2 or \$3,000, and may be less.

The big Architect, coppered and copper fastened, which cost some \$4 or \$5000, was sold at \$400.

The surf-bats were at private sale.—The property at the castle was sold at private sale. The property at the Island of Sacrifices was sold at private sale; and was sold at private sale to those who were connected in its profits before those who are recognized as the public had a chance of purchasing.

There was money enough unnecessarily and corruptly sacrificed by Government agents in the sale of this property to have covered the expenses of the Administration in the Savannah river. It is unconstitutional, however, say the democrats to clean out rivers, but not so to fill the pockets of politicians.

When the Division Judge shall summon me to appear before our constituents at the end of our brief journey here below, our modesty, our weakness will not be an excuse for inaction. It will be of no avail to reply, we were nothing, we could do nothing, we were but a grain of sand. He will say to us, I placed before you, in your day, the scales of a beam, by which the destiny of the human race was weighed, in the one was good, and the other evil. You were but a grain of sand, no doubt, but you told you that that grain of sand, would not have caused the balance to incline on my side? You have intelligence to see, a conscience to decide, and you should have this grain of sand in one or the other, you did neither. Let the wind drift it away; it has not been of any use to you or to your brethren.
