His first object was to make home the happiest place to his children; to render them independent of foreigh alliances in their pursuits and riendship, and so to interest them in do mestic enjoyments that there should be no restlessoess and longing to wander abroad in search of pleasure and enjoyment. Mr. Richmond's system was, throughout, one of severe exclusion from all external influences. His arrangements and method for religions impression and guidance of his children were somewhat peculiar. "He provided each child with a separate sleep ing room, thus securing a comfortable place of retirement and devotion. These little sanctuaries were always accessible to himself; he often visited them to leave a note on the table; for while at home, as well as when sbroad, he kept up a correspondence with his lamily, which he used to call his Home Mission; and to these notes he re-

DISTRESSING ACCIDENT,

A melancholy accident happened in this County near Ward's Bridge a few days ago which resulted in the death of three persons. The Wife and two sons of a Mr. Adams were sickof chills and fevers; and the attending physician, Dr. Johns having occasion to administer quinine, of which he happened to have none on hand, sent to Lynch burg for a supply, but failed to receive it at the appointed time. Expressing his regret at his disappointment in the presence of a lady whose deceased husband was a physician he was informed by her that she could supply him with the needed medicine, and thereupon brought a small vial labelled "quinine" containing a substance very like that article-which indeed atter tasting it and minutely examining it, Dr. Johns himself took to be quinine. It prored however to be something more fatal, in its effects, for in a very short time after it had been administered to the patients, they all three died. It is supposed to have been arsenic or morphia.
