We propose in a few days to publish a series of articles on the "history, growth and consumption of tobacco—its manufacture and sale—what it will do for Raleigh," by one of the most accomplished and well-versed writers in the city. We bespeak for these series a careful perusal by our citizens—especially our capitalists, merchants and business men. If the suggestions should be adopted by our people, they would be the means of bringing in millions of dollars of trade and also of giving employment to numbers of poor white and colored people who are now growing up in idleness, ignorance and vice.

GOOD TIME.—One Mr. Jones, who purchased a watch nine months ago from J. W. Cole on Market Square, called yesterday to report progress. He found his watch had only varied one and three quarter minutes during that time. His watch cost him \$15. Duplicates can be had for the same price at the same place.

KILLED HIS WIFE.—We have learned of a most horrible tragedy which took place in Person county last week. A man by the name of Grose Cauzart, married a young lady 18 months ago, and soon after deserted her. He returned last week and without any provocation, so far as our informant knows, murdered her and then made good his escape. The above are the particulars so far as our informant knows them.

AN ENTERPRISE WHICH DESERVES PATRONAGE.—Professor Linckes' Gymnasium is fast gaining golden opinions amongst our citizens, and it would be well for all to go and pay a visit to the Professor. He has furnished his hall with all the necessary implements to make it a first class enterprise. Besides numerous gymnastic implements amongst them several constructed solely for the use of consumptive people, a shooting gallery, a raffle board table, and a fine piano, are making Athletic Hall the most attractive place of popular resort in our city. Mr. L. invites the parents to visit him at his hall and see what he has erected for the health, comfort, development and happiness of their children.

FOR WILMINGTON.—Mrs. Karrer and daughter, Miss Emmie, and Miss Annie McGowan, of this city, will leave on Monday, to make Wilmington their future place of residence. Generous to a fault, and having dispensed much charity in our midst, the lady first named will be especially missed by the unfortunate; while the removal of those who will accompany her will create a void in the circle of which they now form so charming a part, not to be filled, and cause regret in the breasts of all who know their many virtues. Misses Karrer and McGowan, we learn, will engage in the business of working in human hair, millinery and stamping, and we bespeak for the fair firm a liberal share of the patronage of the ladies of the city by the sea and of those of Cape Fear generally.
