ORGANIZE THE COUNTIES, TOWNSHIPS AND SCHOOL DISTRICTS OFFICE OF THE STATE PROHIBITORY STATE CAMPAIGN COMMITTEE, RALEIGH, N. C., May 21, 1881.

To the People of North Carolina: The counties, townships and school districts should be organized at once by the appointment of the necessary executive committees. Names of chairmen should be sent this committee. Attention of friends is called to the resolutions passed by the State convention in reference to organizing the bodies and raising contributions for necessary campaign purposes.

The campaign should be a systematic one, and therefore the friends in the various counties will consult this committee before making appointments for those who canvass the State at large.

In each county the friends should make arrangements for a thorough canvass by local speakers. We need: 1. Thorough county, township and school district organization. 2. The organization of the ladies into 'prohibitory societies' to last at least until after the election. 3. Funds to procure temperance documents and defray other necessary and legitimate expenses. 4. System in the appointment of speakers who canvass the State. 5. A system in each county by which the entire county will be thoroughly canvassed.

A special appeal is made to the friends of the movement to see that the above is carried out.

Genevieve Ward is shocked beyond all expression because men and women are compelled to sleep in the same sleeping car. It is dreadful. We have often worried over the same thing, and been afraid to go to sleep lest some woman should chloroform us and kiss us in our dreams. No man is safe in a mixed car.—Burlington Hawkeye.

The Philadelphia Weekly Magazine for Saturday, March 3, 1798, has the following remarkable death notice: "At New London (Connecticut,) Mr. John Weeks, aged 114. When 106 he married his tenth wife, who was only 16. His gray hairs had fallen off, and were renewed by a dark head of hair. A new set of teeth had made their appearance, and he ate three pounds of pork, two or three pounds of bread, and drank nearly a pint of wine a few hours before his death."

The floating of wheat down the Mississippi river in barges has proved so successful that it is now proposed to try this method of cheap transportation on the Missouri river. There are obstructions to barge navigation in the Missouri which are not encountered on the Mississippi, but the Council Bluffs Board of Trade seems to have entire confidence in the practicability of the scheme, and has invited the organized commercial bodies of the States bordering on the Missouri to send delegates to a "barge" convention.
