The President Sinking.

The official bulletin issued by the physicians at 12:30 to day, says President Garfield is beginning to suffer from inflammation in the right parotid gland; that his stomach is somewhat better than on yesterday; pulse 108, temperature 98.4, respiration 18.—Our doctors say that the inflammation is the result of blood poisoning—the pus from the wound being absorbed into the blood. Undoubtedly, the President is hovering between life and death with the prayers of the nation for his recovery. If blood poisoning has really set in the end is very near.

Ho! for the Mountains!

To those desiring to go to Asheville a rare chance is now offered. By referring to our advertising columns it will be seen that an excursion train will leave Goldsboro on Wednesday next the 24th inst. for Asheville. Make your arrangements and be ready to go when the train passes this city.

Wake Superior Court.

Court met on yesterday at 9 1/2 o'clock, His Honor Judge Gilmer presiding. The following business was transacted:

Polly A. Lafoon vs Ediza Shearin; continued.

John A. Johnston vs M. C. Utley; continued by consent.

Andrew Syme, administrator of Joseph Marcom, vs the Richmond and Danville Railroad Company. The examination of witnesses in this case was resumed at the morning session and occupied the time of the court until the recess. The afternoon was taken up with the argument of counsel. The case was given to the jury at 8 o'clock. It will be remembered that the intestate, Joseph Marcom, was killed by an excursion train on the Richmond and Danville Railroad, he being on the track, during fair week, 1879. The accident occurred about one mile above Brassfield, in this county, at or near the 70th, mile post. The amount sued for is two thousand dollars. Messrs. Argo and Wilder appeared for the plaintiff; D. G. Fowle, F. H. Busbee, and Thos. R. Purnell, Esqs., were counsel for the defendant company. The jury is 'hung.'

Sam. C. White of the 14th Reg., endorses and will be at the fair prepared to "grab the paw of any old confed," who presents himself.

Maj Gen R F Hoke says: "I will take pleasure in being present at a reunion of our ex-soldiers during the coming fair."

A member of the 10th Artillery says—I want to be in at the general hand shaking of the old Tar heels during fair week. I was not a war man, did not seek or accept office, consequently gained no title. Have no scars to exhibit, and can show a traveling record unsurpassed. Let them all come.

Col D G Coward of Norfolk, Va., commandant 32d Reg., Daniel's brigade, writes as follows: "I am much gratified at the suggestion you make for a grand re-union of all the old

soldiers of No 11 Carolina at the State Fair in Raleigh. It meets my hearty approval, and I trust every good soldier in the late war will feel the same way, and that the effort may be entirely successful."

A Sad Death.

Correspondence of THE VISITOR.

MEBANESVILLE, N. C., Aug. 17.—Mr. Charles Creswell, from near this place, was drowned near Poughkeepsie, N. Y., on Friday night last. The deceased was well known in this community and was highly esteemed and beloved by everybody who knew him. He will be greatly missed in this community. His sad and untimely death has cast a gloom over the entire community. He was a student at the Bingham's school, through which he passed with much distinction. He was a student of Eastman Business College at the time of his death. We all miss him, but hope our loss is his eternal gain. Peace to his ashes. B.

Correspondence of THE VISITOR.

MOREHEAD CITY, Aug. 17.—I am here am having a most delightful time. This place is already considered the leading summer resort of the State. People from this and adjoining States are here in large numbers, and are perfectly delighted with the treatment received from the doctor. A gentleman, stopping here from Maine, told me the other day that the fare and accommodation excelled anything he had ever seen at a watering place either North or South, and he had been to all the fashionable and leading watering places in the Northern States. He was very profuse in his praise of Dr. Blacknall. Says the doctor is one of the best hotelists he ever saw, and in which I and everybody else who have ever stopped with the doctor will heartily endorse. But I have written to much already. We want you, Mr. Editor, to come to Morehead and be convinced of the truth of what I write by stopping with the doctor, and I advise everybody else to come to Morehead and spend a few days. Yours truly, C.

WHAT A FARMER SHOULD BE.—Somebody lays down the rule what every farmer should be, as follows:

"Not only an accomplished tiller of the soil, but also an excellent mechanic, a fair harness maker, the mender of shoes, a tolerable carpenter, pretty good blacksmith, or machinist, and also a wide-awake, thorough judge and breeder of stock, knowing and caring for their ailments—not only horses and cattle, but sheep, hogs, poultry, or anything that money can be made out of. With all this he should be a civil engineer, acquainted with levels and hydraulics and repairs of pumps, and if, in addition to these requirements, he understands laying stone and brick, and putting on plastering, as well as mixing and applying paints, he will find plenty to do, say nothing of what he ought to know about grain and milling it."—Farmer and Fireside.
