A HEAVY BUSINESS.-We are credibly informed that the firm of Brown & Bro., tobacco nunufacturers of Mocksville, N. C., have paid to the proper revenue officers the sum of about \$30,000 tax on their business for the year 1869. This implies not only a heavy business on the part of B. & B., but an honest punctuality in paying the taxes on the same exacted by the government of the United States.

The Standard thus comments on this

"By this it will be seen that the people of the 6th District have responded fully the call upon them. Col. Henderson, (the Assessor.) represents his District as quiet and orderly, and says there has been no attempt to resist the sevenue officers"

Inasmuch as the District has done so well. and the people been so correctly loyal. we think the Government ought to continue the operations of the Mint, at Charlotte, and has afford a little benefit to those who pay large tr bute.- Charlotte Democrat.

The principal reason for the great increase, we learn, is in consequence of the law itself .-The law moder which tobacco manufacturers are now operating, was not passed until July 1868. At the time of its passage the season for manufacturing tobacco that year had nearly expired, and the consequence was that most of the tax on manufactured tobacco was thrown over to the year 1869. Manufacturers in 1868 waited for the passage of the pending act and it was not passed until the season was nearly over.

IF OTHER Remedies FAIL

FOR BRONCHIAL AND LIVER DI-SEASES read the following: Thomas H. Bainey, Esq. Granville co., N. C., says: "I find your Pills to be the best family medicine I have ever used. They have proved very beneficial in my own case. I have been very much afficted for fifteen years, and have tried every kind of medicine that I could get, but have found more to lief from your Pills than all others. My disease as bronchial affliction, and a complete prostration of the nervous system. I have used them in ten or fil-

toen cases in my family, and find them to be the very medicine for nearly all family diseases." The Cure is Thorough. Kenneth Haynes, Esq., Clerk of Columbus county court, writes (April 2, 1863:) "During the latter part of the year 1862 I was severely afflicted with diseased liver and many nights while in bed the pain would become so exeruciating that I was compelled to get out of bed and sit up juntil the pain would subside. I procured a few boxes of the SOUTHERN HEPATIC PILLS, and the first dose I took gave me great relief. I continued to use the Pills for two

weeks, and have not suffered from liver disease since. I have recommended them accordingly, and several persons are in want of them. All disease is an enemy to the human system and is at war with it and will conquer it, unless nature, with all the assistance it can receive from strengthening medicines and suitable—nourishments, can conquer the enemy; which would be best to take medicine before you get sick to prevent sickness of to take medicine after you get sick to care sickness. Exercise your own judgment in the means of deense; the enen y will come, be ye also ready with
