PROFESSOR—Mr. J. T. Childrell informs us that S. Mason Mallie, Esq., of Lenoir County, N. C., has a copy that is four years to four years in the last thirteen months; all of which are alive and thriving.

REV. WM. E. PELL, for many years a prominent minister of the Gospel, for some years editor of the N. C. Christian Advocate, and founder and editor of the Raleigh Sentinel, died suddenly, of disease of the heart, on Friday last, at his residence in Raleigh.

At the request of several Democratic and Conservative friends of Chief Justice Pearson, we publish this week his opinion in the case of A. G. Moore, ex parte; also the correspondence between the Judge and Gov. Holden, which the Governor finally concluded to obey the writ, and return the prisoners before the Chief Justice at Raleigh.

JOHN MANNING, JR., Esq., of Chatham, has been nominated by the Conservatives of the 4th District as their candidate for Congress, next Hon. R. B. Gilliam, deceased. Mr. Manning is a gentleman of high character, fine talents and moderate views. His election over J. W. Holden, Esq., the candidate of the Radicals, by a handsome majority may be set down as certain.

A MEMORIAL OBSERVANCE in honor of the late General Robert E. Lee will be celebrated in Raleigh, on Wednesday next, the 23d inst.—The eulogy upon the life and character of the departed Patriot and Hero will be delivered by Ex-Governor Z. B. Vance.

GERMANY.

Germany was first organized into a kingdom in the year 843 by the treaty of Verdun. It was ruled by the arduous dynasty until the Charles the Great was deposed in 877 by the vassals of the Crown, since which time down to the present century the Emperor remained practically for a longer or shorter period in certain great families. From 919 to 1024 the Emperors belonged to the Saxon dynasty; from 1125 to 1254, to the House of Hohenstaufen; from 1273, to short intermissions, until the dissolution of the empire in 1806, to the House of Hapsburg. The German Confederation of thirty-nine States was formed in 1815 until the Austro-Prussian war of 1866. By this war Austria was excluded from Germany, and the Grand Duchy of Luxembourg was declared neutral, and the five sovereign States of Hanover, Nassau, Frankfurt, Hesse-Cassel and Holstein were annexed to Prussia, twenty-two States, north of the river Main, and part of Hesse-Darmstadt, formed under the leadership of Prussia, the North German Confederation; while four States, Bavaria, Baden, Württemberg and the greater part of Hesse-Darmstadt are designated as the South German States.

The total population of North Germany is within a fraction of 30,000,000, the population of Prussia amounting to 24,000,000. The population of South Germany is 8,600,000, which, added to the former figures, give for the population of North and South Germany together, a total of 38,500,000. And Luxembourg, which is still a part of the German Confederation, whose population amounts to 2,000,000, and we have nearly 39,000,000. There are nearly 8,000,000 of Germans belonging to the Austrian Empire, and nearly 1,000,000 belonging to Russia—thus making the entire German population of Europe to amount to about 48,000,000.

The Constitution of North Germany was drawn up by the Prussian Government in 1852, and adopted in the same year by a Parliament, elected by universal suffrage, at the rate of one representative for every 100,000 inhabitants. By this constitution the legislative power is exercised by a Federal Council and a Parliament—the former corresponding to our Federal Senate, and the latter to the House of Representatives. The Federal Council consisted of 43 members, divided as follows: from Prussia, 17; Saxony, 4; Mecklenburg-Schwerin, 2; Brandenburg, 2; and all the other States, 1 each.—Thus Prussia, with a population of 24,000,000, has only 17 votes, while the rest of North Germany, with a population of 6,000,000, has 30 votes. The Parliament, or Law House, is elected by universal suffrage, according to a fixed ratio of population. The President of the Federation belongs to the Prussian Crown. The King of Prussia conducts the intercourse with Foreign States.—The Council and the Parliament meet every year, the members of the latter being elected for three years. The Parliament votes the supplies every year; and possesses the unlimited right of address on the Crown, and the power to initiate or amend all laws. The Executive has the power to declare war and to make peace, to appoint foreign ambassadors, to appoint the chief officers and employees of the Government. It is also his duty to see to the execution of the laws—like our own President, he is also commander-in-chief of the army and navy.

Every German is equal before the law; there are no special privileges reserved to the nobility. No person can be punished except by due process of law. Theoretically, at least, the press is free.

similarity between the constitution of North Germany and that of the United States; and while practically the Executive there is at present almost irresistible, the whirling of time may effect a change similar to that which has been experienced in this country.

The Executive will be the constant ally of the North German Army, at the beginning of the present war, consisted of 13 army corps (11 garrisons and 2 line) embracing 27 divisions, or 54 infantry and 26 cavalry brigades, or 118 infantry regiments, 18 chasseur battalions, 76 regiments of cavalry, 131 regiments of field artillery and 104 regiments of artillery of fortifications, 134 battalions of pioneers, and 131 battalions of dragoons.

The "Landwehr" consisted of 207 battalions and 16 divisions of chasseurs, 64 squadrons of cavalry, 104 regiments of artillery—altogether in peace 12,974, and in war 200,254 men. The reserve troops, when mobilized, amount to 180,072 men. Total of troops on peace footing, 319,286 men; on war footing, 972,434 men.

One valuable feature of the North German constitution, and one tending to illustrate its practical character, is the provision for cheap and regular railroad fares through the whole Confederation.

Prussia, as we have stated, has a population of 24,000,000; of these, 2,000,000 are Poles. Berlin has now a population of 800,000, being the fourth city in Europe. The present King of Prussia is William I, second son of Frederick William III, and the Princess Louise of Mecklenburg-Strelitz. He was born in 1797 and succeeded his brother Frederick William IV in 1861.

The present constitution of Prussia, granted by King Frederick William IV in 1848, has been repeatedly modified. It vests the executive and part of the legislative authority in the King, whose crown is hereditary in his male line. The King is assisted by a council of ministers, appointed and dismissed by him. The Legislative Body consists of two Chambers, the Herrenhaus, or House of Lords, and the Abgeordnetenhaus, or Chamber of Deputies. Financial projects must be first submitted to the Chamber of Deputies. The right of proposing laws is vested in the King and in both Chambers.

The second Chamber consists of 42 members, and is elected by the qualified voters. The House of Lords is composed of princes of the royal family; the chiefs of the medieval nobility formed by the King (50); a number of life peers, chosen by the King from the rich landowners, great manufacturers and "national celebrities"; the representatives of the universities; the mayors of towns with over 50,000 inhabitants; and an unlimited number of members nominated by the King for life or for a shorter period.

JOHN MANNING, JR., Esq., of Chatham, has been nominated by the Conservatives of the 4th District as their candidate for Congress, next Hon. R. B. Gilliam, deceased. Mr. Manning is a gentleman of high character, fine talents and moderate views. His election over J. W. Holden, Esq., the candidate of the Radicals, by a handsome majority may be set down as certain.

From the Episcopal Methodist CONFERENCE NOTICE.

I have written to the editors of the several railroads in the State, requesting the reduction of fares for members of the Conference. Some have responded, complying with the request, and the others will doubtless do so. Those who come by private conveyance will report at the store of Mr. Seymour Shale. Those coming by rail, if they do not meet the conference, yet wish to have their baggage checked, will report to the hotel across the street formerly kept by Mrs. Edwards, now by Mrs. Yarborough. A. W. MANUEN, Greensboro, Nov. 7.

The Lord's Prayer.—A few years ago nothing would have seemed more improbable than the deliberate alteration, by an authoritative body of Christian clergy and orthodox Biblical scholars, of the phylactery and the Lord's Prayer, yet such has been the case. The New Testament revisionists, now in session in London, have voted that the literal translation of the phrase "deliver us from evil," should be "deliver us from the evil one;" and they have decided to expunge the doxology at the end of the prayer, as absent from all the earlier manuscripts. Thus short and altered, the great prayer of the age will sound unfamiliar indeed.

COTTON IN RUSSIA.—It is rather surprising to learn that Russia has 67 cotton factories, employing 180,000 operatives. Before the war in this country cotton manufacturing had scarcely commenced in Russia. During that period, however, the Russians began to manufacture British and Indian goods, and they are now the largest in the world, exceeding in style and completeness even the English establishments. The products amount to \$50,000,000 annually.

The coming winter, it is predicted, will be very severe in England. Among the signs of an old-fashioned winter are given the recent aurora borealis on October 24th, and the fact of several of the trees and woods. The oaks are full of acorns, and the Hawthorn are crowded with great bunches of berries, it being believed that nature in this way makes provisions for a hard winter. In addition, last summer in Great Britain was a continuous season of hot, dry weather, another forerunner, it is supposed, of a long, cold winter.

Balloons Magazine for December.—The first in the field for December is "Balloons Magazine," and an examination of it shows that it is a model number in every respect. The engravings are excellent, the descriptions ingenious and eloquent, while the stories are remarkable for their interest and great originality. Mr. Edson finishes her continued story, "The Mystery of the Island," which is a most satisfactory manner, as the juveniles will learn when they read it. Percy has furnished a sea story in his own peculiar vein. Stephens gives us "An Evening with a Catamount." Darling tells us "Why our Wedding was Postponed," in his most comical manner, and then there is a Christmas story, full of humanity and goodness, and the regular features which will be found all a dozen times, and "Lost and Found" is a regular California tale, by a new aspirant for fame in the columns of Balloons. In addition to these there are many articles worth reading, in the shape of sketches, poetry, etc., and all for the sum of 15 cents per copy, or \$1.50 per year. The December number, \$1.50. PATENT AGRAFFE-TREBLE, Together with all modern improvements. The most thoroughly seasoned timber market of foreign origin, regardless of cost, as we feel assured it will be the cheapest in the end.

The great increase in the sale of our instruments, has enabled us to reduce our prices for First Class Pianos, from ten to twenty-five per cent. less than any other house (offering the same class of instruments) in the United States.

While we act upon the maxim of "quick sales and small profits," we make it, at the same time, a special object to furnish our customers with instruments in no way inferior to the best in the market.

Many families have had a desire to obtain a Piano, but could not afford to pay the dealer a profit of from \$100 to \$300, neither do they wish to purchase a cheap made instrument, that would cost more to keep in repair than it is worth, hence a large class of our music loving people have been obliged to do without.

We can furnish New Seven-Octave Piano Fortes from \$75 to \$50 dollars. Second hand Pianos from \$40 to \$25 dollars.

Parties ordering by mail may rely upon the best selections. Our Pianos are fully warranted for six years. Descriptive Circulars sent to all parts of the country upon application.

THE BURDETT Combination ORGAN.

(With Carpenter and Burdett's New Improvements.) The disengaged reedy tone entirely overcomes the Verdict is Unanimous! The Greatest Success of the Age!! We Challenge the World to Equal It!!

And cordially invite the profession, dealers and the musical world generally to examine this truly wonderful instrument.

The Burdett Combination Organ As its name indicates is an ingenious union of all our standard improvements, combined with many new features never before introduced or attempted in Reed Organs, together making this Organ the very best of its kind, and one that has already created a revolution in the public mind in the decided favor of the general adoption of Reed Organs, both for secular and sacred music, where an instrument is required either to accompany the voice or to produce orchestral effects.

With the multitudinous and surprising combinations that are contained in this instrument, the most intricate music of the "great masters" can be rendered as on a grand organ; or the most simple music for the melodeon can be played by a child.

All the various improvements on the Burdett Organ are protected by patent, being exclusively to the Company, and can be used on no other Organ.

The present Burdett Organ has received the most cordial and highest eulogiums from those ranking among the first of musicians and organists.

The New York Independent says of the Burdett Organ: "It is by far the most perfect reed instrument we have ever seen."

The Christian Leader says: "We had no idea that a reed instrument could be brought to such perfection."
