LEGISLATURE OF NORTH CAROLINA.
SENATE.
December 15, 1870.
Senate met at 10 o'clock.
After some reports the family or
the bill on salaries and fees was
taken up.
The sixth section provides that the
superintendent of public instruction shall
receive \$50 per annum.
Mr. Olds moved to amend by inserting
\$2,000.
Mr. Love moved to postpone till to-
morrow at 10.
Mr. Moore moved its indefinite post-
ponement and eloquently defended the
present school system.
Mr. Troy moved to amend by inserting
\$1,500.
Mr. Robbins, of Rowan, was in favor of
friends asked for, and Wittily said, that
he had not been moved from this even by
the speed at which had been made in de-
fence of the system.
Mr. Love would go for 50 cents. He
wanted to tear down the odious head of
the system. The object is to drive this
man from the State of North Carolina, and
let him go back to cold Cape Cod where
he came from.
A committee from the House of Rep-
resentatives announced that the House
had instructed a committee to draft
articles of impeachment against the Gov-
ernor, and that such articles would be
drawn.
The President inquired of the commit-
tee if articles of impeachment had been
prepared.
The committee informed the Chair that
they had not, but would be prepared in
due time.
The President then read the law and
announced that in his judgment the Sen-
ate could not properly act until articles
were drawn and presented.
Mr. Warren moved that it be announced
to the house that the message has been
received, and the Senate will consider it
and take proper order thereon.
The motion prevailed and the commit-
tee withdrew.
The discussion on the sixth section of
the bill under consideration was then re-
sumed.
The Senate then voted to strike out
\$50 and insert \$1,500.
Mr. Love moved to reconsider and post-
pone further consideration till to-morrow
at 12 o'clock. Motion prevailed.
Mr. Graham moved to postpone the
consideration of the whole bill to that
time. Motion prevailed.
The bill to provide for a convention was
taken up.
Mr. Dargan said we have been here
twenty-five days. We have repealed the
Shoffner bill, and set divers bills upon
their legs. We have discussed corpora-
tions considerable, but we have done al-
most nothing for the good of the people
of North Carolina at large. He spoke at
great length.
Mr. Latham moved to amend the oath.
Mr. Warren moved to consider the bill
by sections. Motion prevailed.
Several amendments were discussed
and adopted, as we shall publish the
whole bill as soon as it is complete, we
omit them.
Further consideration of the bill was
postponed till 7 1/2 p. m.
Mr. Warren moved that the House mes-
sage on impeachment be referred to a
select committee of five with instructions.

in office, and acquaint the Senate that
the House of Representatives will, in due

ticles of impeachment against William W.
Holden, Governor of the State of North
Carolina, with power to send for papers,

advised.

BILLS.
Mr. McAlce introduced a bill to appoint
a commission to visit the University—
Calendar.
The morning hour having expired, on
motion of Mr. parlow the rules were sus-

gaged and sent to the House at once.
The vote was then taken on the motion
of Mr. Graham to transmit the bill at
once to the House, which prevailed by a
vote of 24 to 9. Messrs. Beasley, Progen-
der, Epps, col., Flythe, Hyman, col.,
King, Moore, Olds and Price, col., 9 voted
in the negative.

the House fixing the per diem and mileage
of officers and members of the General As-

Mr. Albright said he was in favor of
\$3 per diem, but a large number of Sen-

tion at once he would vote for \$4, and
moved to strike out \$5 and insert \$4, and
20 cents mileage, and insert 15 cents.
Mr. Fleming moved an amendment to
the amendment by substituting \$3 per
diem for \$4 and 10 cents mileage for 15

GOOD AND EVIL.—He who has observ-
ed how throughout history, while man is
continually misusing good, and turning it
into evil, the overruling sway of God's
providence out of evil is ever bringing
forth good, will never be cast down, or
led to despair, or to slacken his efforts,
however onward the immediate aspect
of things may appear. For he will know
that whenever is laboring in the cause of
Heaven, the powers of Heaven are work-
ing with him; that, though the good he
is aiming at may not be attainable in the
very form he has in view, the ultimate re-
sult will assuredly be good; that, were
man diligent in fulfilling his duty, this re-
sult would be immediate; and that no one
who is thus diligent shall lose his precious
reward, of seeing that every good deed is
a part of the world.

HOUSE OF REPRESENTATIVES.

Superintendent of Public Instruction and
the Librarian, giving information about
their respective offices.

Constitutional Reform.
On motion of Mr. Rankin, the rules

ing the Governor to issue writs for an elec-
tion for Senator in the 26th Senatorial
district on the 24th of December, was
taken up.
After some discussion the bill passed its
third reading.
A communication was received from the
Superintendent of Public Works and or-
dered to be printed.
On motion of Mr. Jones, of Caldwell,

"PUSH."
This is not a very elegant term, but it
is expressive. It implies energy, enter-
prise, and the go-ahead spirit. The pas-
sions enter into "push," and when wisely
directed by the intelligent and moral sen-
timent, give efficiency. One with the re-
solute in him never says "I can't," nor
will he be found "loafing around" on store
counters, street corners, tavern steps,
drinking saloons. Push always mean-
ing to do, the man who works, who
sometimes becomes restless, and shows a
tendency to boil over or explode, it is be-
cause he needs to work off surplus steam.
Be patient with him. Do not try to bot-
tle him up, but give him room for exer-
cise, and he will come out all right. Take
a full awake child from four to six years
old, full of hot blood, and overflowing with
vital energy, how can he keep still!—
Such little "chubs" want something to do.
It is the duty of their parents to direct
and not restrain them. To require per-
fect quiet of such a nature is cruelty—
The little human engine is simply a "per-
petual motion," every fibre is alive from
top to toe. All the engineer has to do, is
to keep him on the track, and give him
enough to do. Send him on an errand;
let him bring wood, coal, water, or go to
the post-office to deposit or bring a letter.
A sensible parent will lay out his work-
—play—and give him enough of it. Do
this, and obedience may be more easily
secured. The child—all children that
amount to anything are so—is full of push,
and must work it off in one way or another.

JOHN BILLINGS.
Mankin love mysteries, a hole in the
ground excites more wonder than a star
up in heaven.
Don't mistake vivacity for wit, there is
about as much difference as there is be-
tween lightning and lightning bugs.
Nature never makes any blunders;
when she makes a fool, she means it.
There is some phlox in this world who
spend their whole lives in hunting after
righteousness, and can't find any time
to practise it.
A kicking cow never lets drive until
just as the pail gets full; it is just so
with some men's blunders.
The man who won't believe anything
he can't see, ain't so wise as a mule, for
they will kick at a thing in the dark.
Every time a man falls he takes a kink
out of the chain of life and thus length-
ens it.
A poor, but dishonest euss!—this is
about as low down as any man can get,
unless he drinks whiskey.
Living on hope is like living on wind,
a good way to get phlegm, but a poor way
to get phat.
It is human to err, but devilish to
drag on it.
The man who ain't got an enemy is re-
ally poor.
Advice is like kaster ile, easy enough to
give, but dreadful uneasy to take.
A cheerful old man or old woman is
like the south side of a wood shed, in the
last of winter.
Pity costs nothing—and ain't worth no-
thing.
