L. O. O. F.—North State Lodge, No. 26, of this excellent and benevolent Order had a celebration in this city on Friday, Wednesday, May 3rd. The lodge of Raleigh, delivered the address. We were not present, but hear the address spoken of on all hands in the highest and most complimentary terms. We learn that an effort will be made to obtain a copy for publication. Maj. Gates is a gentleman of culture and very fine literary tastes and attainments, and the address will be looked for with much interest by members of the Order, and others.

The African Methodist Ep. Church in this place is having a season of great religious prosperity. Elder John Moore, assisted by Elder Hood and others, have labored faithfully and successfully. Nearly 60 souls have been added to the membership, and 29 have been baptized. More than 200 persons attended a Love Feast held in their church on Monday night. Our colored friends are doing well, and we are pleased to see such signs of religious prosperity among them.

The following Preamble and Resolutions adopted by the Stewards of the Methodist Church in Salisbury were ordered to be printed in the Economist and the Old North State. Whereas, We have received through our Church Papers intelligence of the decease of Rev. Jas. Osgood Andrew, D. D., Senior Bishop of the M. E. C. South, and the oldest Methodist Bishop in the world. Resolved, That we, the Stewards of the M. E. Church South, in Salisbury, have heard with profound regret of the loss which the Church at large, and one community in particular, have sustained in the death of Bishop Andrew.

Resolved, That we have a memorial service for Bishop Andrew, in our Church in this place on the 5th Sunday in the present month at 3 P. M., under the conduct of our Pastor, Rev. DR. TUTT'S EXPECTORANT FOR COUGHS, COLDS, & C.

For the Speedy Relief AND PERMANENT CURE OF Consumption, BRONCHITIS, ASTHMA, COLDS, AND ALL DISEASES OF THE LUNGS, CHEST, or Throat!

THE EXPECTORANT is composed exclusively of Herbal and Mucilaginous products, which cause them to throw off the acid matter that collects in the Bronchial Tubes, and at the same time forms a soothing coating, relieving the irritation which produces the cough.

The object to be obtained is to cleanse the organ of all impurities; to nourish and strengthen it when it has become impaired and enfeebled by disease; to renew and invigorate the circulation of the blood, and strengthen the nervous organization. THE EXPECTORANT does this to an astonishing degree. It affords Oxygen to vitalize the blood, and nitrogen to assimilate the matter.

THE BURDETT COMBINATION ORGAN. As its name indicates, is an ingenious union of all our standard improvements, combined with many new features never before introduced or attempted in Reed Organs. It is a grand organ, or the most simple music for the melodeon can be played by a child.

All the various improvements on the Burdett Organ are protected by patent, being exclusively to the Company, and can be used on no other organ.

The New York Independent says of the Burdett Organ: "It is by far the most perfect reed instrument we have ever seen."

The New York Observer says: "The purity of feeling, richness of tone, and wonderful electrical combinations, together with a number of new and original stops, render it an instrument of such perfection as to be beyond comparison."

The press and public everywhere who have had an opportunity of listening to its beautiful playing, not only give it the unqualified approval, but unhesitatingly concede that it stands without a rival.

The Burdett Organ ranges in price from \$135 to \$1000. We have also New Cabinet Organs at \$45, \$75, \$100, &c.
