ABOUT MONAZITE.

FOUND IN MANY LANDS,

Where It is Found and Why It is Valuable.

Monazite! A new word to conure with. A new mineral to cause man to scratch the upper crust of old Mother Earth as he digs and delves for it. A new commodity of which man may dream until they imagine themselves millionaires rolling in wealth all evolved from this wonderful "sand" that hides away somewhere in its tiny particles the thoria about which so much has been said and written of late.

And yet, in a way, monazite is not a new mineral at all, as The Herald learned yesterday from Mr. William fering ten cents per pound for some Earl Hidden, the celebrated minera- of the better grades. Mr. Hidden cial quantities.

It seems that the news has been pretty generally circulated in this and adjoining counties that Tom Covington, the convicted murderer, has been trying to starve himself to death since court. We find upon investigation, however, that such is not the case. The man was sick for several days and had lost his appetite, which accounted for the report. He is all right now.

Once Thirty, Always Thirty.

A story is told of a woman on the witness stand in a French court. She was asked her age, and she an swered that she was thirty years old, "But," said the magistrate, "did you not tell me you were thirty when you appeared before me two years ago?" "I think it very likely," she replied, smilingly acknowledging her falsehood and not at all abashed "I am not one of those who say ole thing to-day and another thing /o-
