Four States Are For Amendments

WASHINGTON, Nov. 6.—(P)—Constitutional amendments authorizing them to take part in the federal social security program had been ratified today by Kansas, Florida, Louisiana and Colorado, although old age pension plans were headed for defeat in three other states.

Voters in Nevada, Washington, and Oregon apparently had rejected initiative and referendum proposals for old age benefits. South Carolina returns showed indecisive results on a similar amendment.

Liquor questions were settled by ballot in four states, while a wide range of tax measures were approved or rejected by voters in all corners of the country.
