### Fascinating 40 Make-up Latest Cue From Sirens

By **ADELAIDE KERR**

**NEW YORK.—(P)—**A new "fascinating forty" make-up has made its debut among smart moderns here. It is designed to enhance the beauty and charm of the woman who is 40 and takes its cut from sirens who have made their greatest conquests after they have passed their youth.

The new make-up really begins with the treatment of the skin and prevention of the dryness which often complicates the beauty problem of the woman over 40. It is based on four points:

#### Fried Food Out

1. A diet which favors fruits, vegetable and fresh grilled meats and virtually banishes fried foods and rich desserts.

2. Plenty of rest—at least eight hours' sleep a night and a half hour's complete repose in a darkened room some time between luncheon and dinner.

3. A liberal use of oily creams to counteract dryness of the skin.

4. A careful use of astringents to firm and tighten the skin and keep it from sagging.

The following beauty treatment is suggested for daily use before making up:

Cleanse the face thoroughly with a cleansing cream which contains a liberal allowance of oil of sweet almonds. Remove the cream with cleansing tissues. Cover the face again with cream and allow it to remain during a warm bath whose vapors help it to penetrate. Smooth it gently into the skin, then dash cold water over the face for several minutes and remove the cream with cleansing tissues. Wipe the face carefully with a morsel of cotton dipped into a mild astringent and then smooth on the foundation for make-up.

**Smooth In Foundation**  
For this some women prefer a liquid, others a light cream. Either, however, should be of a texture which will smooth into the skin and not stand out on it.

The new "fascinating forty" make up is then applied. A cream rouge (generally of a coral tone) is worked on over the cheek bones. Only enough to give a healthy color to the face should be used and this should diminish to none at all near the ear line. Powder of a creamy rose tone (never lighter than the skin) is applied evenly to face and neck and then brushed with a camel's hair brush until all loose particles have disappeared.
