

### GLASS WORKERS SAY NEXT MOVE UP TO OWNERS

#### Maritime, Bus And Waiter Troubles Arise

By The Associated Press  
Indications that culmination of a projected settlement would be deferred indefinitely threatened today to return a Pacific coast maritime walkout to the deadlocked status of two other major strikes involving 26,000 automobile and glass workers.

Harry Lundeberg, head of the Sailors' union of the Pacific said at San Francisco a vote of his membership on whether to accept a tentative agreement with ship-owners probably would be postponed.

**Seek Agreement**  
At New York, George Charlott of the San Francisco local, Masters, Vates and Pilots union, told a meeting that the 54-day-old strike would continue until employers on both east and west coasts reached similar agreements with workers.

President Glen W. McCabe of the flat glass workers announced at Columbus, O., that negotiations to settle their strike were at a standstill, adding, "the next move is up to the employers or the department of labor." The strike halted operations of the Pittsburgh Plate Glass company and the Libbey-Owens-Ford Glass company, with 14,000 workers idle.

Officials of the United Automobile Workers of America—claiming to have 12,000 members striking in plants which supply automobile bodies, wheels and other parts—said their offer to negotiate with the General Motors corporation had met with silence.

**Waiters Quiet**  
Some 600 Brooklyn bus drivers who had called a strike in demand for higher wages and other adjustments stayed on their jobs pending an investigation by the national labor relations board.

In Rochester, N. Y., 500 waitresses, waiters and cooks struck for higher wages and union recognition.

Five clerical employes in the Akron, O., office of the Goodrich local, United Rubber Workers of America, staged a brief sitdown demonstration. They returned to work four hours later when officials of the local tendered a settlement of wage and hour demands. This "strike" pitted union against union, since the office employes belonged to the Stenographers, Bookkeepers, Typists and Assistants organization.

### JOB AN OFFICER 28 YEARS TODAY

#### Treat Everybody the Same" His Motto, He Says

When the clock rolls around to 4 o'clock this afternoon Officer Bob Kendrick will have been an officer of the law for 28 years.

He was sworn in December 22, 1908 by Sheriff Joe Suttle with a number of others at the ceremony, among them D. D. Wilkins who was to be the new sheriff the following year.

"Always treat everybody alike," said Mr. Kendrick today in answer to how to be a successful officer.

He was given the oath in a small building situated where the post-office now is—a little grey building which remained there for years.

Mr. Kendrick is best known for his ability to handle the colored people. If they are to be arrested, they usually say, "I'd rather Uncle Bob 'ud git me than anybody else." Recently he took one portly negro to jail shouting, "Gal, I sho' is lucky. Uncle Bob said I looked lak Mae West."

### Pope's Broadcast Worries Medicos

VATICAN CITY, Dec. 22.—(AP)—Vatican sources said today that physicians to Pope Pius XI were dismayed by the Holy Father's intention to broadcast his Christmas message to the Cardinals.

The doctors hastened to the Papal apartments and were understood to be attempting to forestall his holiness' overweening enthusiasm for the project.

While technicians, at the Pope's order, worked overtime to rig up the broadcasting apparatus the physicians were said to be none too sure the Holy Father would be able to stand the exertion.

The pope had ordered the worldwide broadcast for 6:30 a.m. eastern standard time Thursday and planned to speak from an armchair in the study next door to his bedroom.

The pontiff spent another restless night with his sleep troubled by shortness of breath and pain in his swollen legs.

A navel orange 17 3-4 inches in circumference, weighing 2 1/4 pounds grew this year in W. C. Deke's orchard near Mercedes, Tex.

### BULLETINS

**NEUSE IN FLOOD**  
KINSTON, Dec. 22.—(AP)—The rain-swollen Neuse river, nearing four and a half feet above flood level, covered large areas of lowlands here today. Suburban Happersville and surrounding fields were flooded and the Kinston-Wilmington road was under water at that point.

**SEARCH RUINS**  
SAN SALVADOR, El Salvador, Dec. 22.—(AP)—Rescuers raked the ruins of earthquake-ravaged San Vicente today for bodies, as the official death toll estimate remained at 250. There were at least 800 injured, it was reported, in the series of shocks which leveled most of San Vicente over the week-end.

**LIBBY BUYS ESTATE**  
GREENWICH, Conn., Dec. 22.—(AP)—Libby Holman Reynolds, the torch singer, has purchased a 55-acre estate along the picturesque Mianus river here. The town clerk's office reported today a deed transferring the property to the widow of Smith Reynolds, heir to the Reynolds tobacco fortune, indicated the purchase price was approximately \$77,500.

**FIND NUDE BODY**  
BALTIMORE, Dec. 22.—(AP)—The nude body of a girl with scratches and bruises was found in the gas filled kitchen of the Rolling Road golf club here today. The club was closed for the season about two months ago. The body was identified as that of a patient at a nearby mental sanitarium.

**EXPECT ARREST**  
SOUTHPORT, Dec. 22.—(AP)—Sheriff J. A. Rux announced today that he would make one or more arrests in the next 12 hours in connection with the Thanksgiving flogging of Jesse Cox and William Inman by a band of praying night riders.

### Cubans To Oust President Gomez

(Continued from page one.)

nate concurrence in the impeachment today was but a formality.

**Secret Session**  
The house ouster was voted in a secret session to which no one but the members was admitted. Even clerks were barred, and the members were forced to record the proceedings themselves.

The struggle between Gomez and his former political ally, Batista, whipped the senate earlier into an uproar in which several members drew pistols.

The guns were drawn after Santiago Verdeja, a Gomez foe, debated heatedly with two Gomez supporters, Arturo Illas, senate president, yanked out his own pistol and threatened to kill anyone who fired a shot during the session.

If Gomez is officially ousted, as seemed virtually certain today, he would be the first Cuban president to meet such a political fate. His father before him, Gen. Jose Miguel Gomez, held the presidency from 1908 to 1913.

With Gomez removed and banned from holding Cuban office forever, the presidency would be held by Dr. Federico Laredo Bru, incumbent vice-president.

### Clark Continues Fight On Graham About Anderson

CHARLOTTE, Dec. 22.—(AP)—David Clark, member of the N. C. State college athletic council, said today he would attend a meeting in Raleigh tonight at which a fight would be launched to reverse the ruling dismissing Hunk Anderson as head coach there.

At the same time Clark long a foe of President Frank Graham of the Greater University of North Carolina, of which N. C. State is a part, said he "dared" Graham to make public testimony taken by a court stenographer at the recent athletic council investigation of the college's athletic situation.

Clark said he would go to Raleigh armed with a ruling he said had been made by the attorney general that Dr. Graham exceeded his authority in placing the matter in the hands of a faculty committee after the athletic council had recommended Anderson's re-election.

Clark said a real fight was planned, and that the matter would be taken to court if necessary.

"I think Hunk is legally elected," Clark said. "In the event that he isn't retained, though, he is entitled to a year's salary."

### 101 KILLED BY AUTOS IN N. C.

#### 904 Deaths Total For Year; 702 Hurt In November

RALEIGH, Dec. 22.—(AP)—Speeding and other causes of automobile accidents resulted in 101 deaths and injury to 702 persons in 6006 motor vehicle mishaps in North Carolina during November.

The highway patrol's monthly report, released today, pushed to 904 the accident deaths this year, through November, compared with 980 in the similar period of 1935.

There were 92 killed and 710 injured in 551 accidents listed in November 1935 and 114 killed and hurt in 679 October crashes. Speeding caused 36 fatal and 105 non-fatal accidents last month.

**31 Pedestrians**  
There were 31 pedestrians killed during the month and 93 injured, eight of those killed being children playing in the street and nine persons walking along roads.

Seven drivers involved in fatal accidents were listed as intoxicated, as were 65 drivers in non-fatal wrecks.

The hour between 6 and 7 o'clock at night was the most dangerous, with 14 killed and 60 injured during that period, and Saturdays were the most dangerous days, with 23 killed and 122 injured that day of the week.

Thirteen fatal and 108 non-fatal accidents were caused by reckless driving.

### London Paper Says Let Edward Alone

LONDON, Dec. 22.—(AP)—Lord Beaverbrook's Evening Standard, objecting to criticism of former King Edward by the Archbishop of York, said today "the need for restraint, understanding and patience is not less now when the nation has to overcome a deep sense of loss."

"The crisis ended Dec. 10 with the abdication," the newspaper said in an editorial. "After that event, whatever a man's views might have been during the crisis and at the climax, it became his highest duty to submit himself to a self-denying ordinance directed against recrimination."

The principal obligation, "which corresponded to the best instincts of our people," the newspaper declared, was "silence about the immediate past and its controversy."

### CHIANG'S WIFE FLIES TO SIDE

#### She Is A Wellesley Graduate; Ransom Rumors Heard

NANKING, Dec. 22.—(AP)—The American-educated wife of Generalissimo Chiang Kai-Shek flew to her husband's prison today, despite the urgent protests of high officials, for what was possibly a final effort to secure the captive leader's freedom.

The conviction was growing that no end to Marshal Chang Hsueh-Liang's rebellion to force war against Japan was in sight.

The executive yuan (council), believed to be despairing of a quick solution of the crisis, abolished the local government of Shensi province, indicating it would be pacified as a conquered territory when the civil war is over.

All provincial affairs were brought directly under the Nanking government and the local chiefs branded as "rebels who have forfeited all administrative rights."

Adding to the feeling that China was faced with a long-drawn fight for the release of the generalissimo was the fact that Mme. Chiang and her brother, Dr. T. V. Soong, who accompanied her on the dramatic journey, took huge quantities of luggage, indicating their immediate return to Nanking was unlikely.

Until the last moment before their departure, important personages attempted to dissuade them from making the trip.

It was feared their presence at Sianfu, capital of the revolting province, would weaken the strong resistance the central government had made to Chang's demands.

Little fear was felt for their safety since the rebellious young marshal seemed to have control of the situation there and had treated Chiang with every respect during the 14 days he had been held prisoner.

Extravagant rumors of a huge ransom demanded by Chang to release the generalissimo circulated through the capital but were emphatically denied. Some of the reports set the sums at from \$10,000,000 to \$15,000,000.

While Mme. Chiang, a graduate of Wellesley college and Dr. Soong winged their way through the heavy fog over the Yangtze river valley troops of China's central army pressed on against Sianfu.

### City's Fire Loss Extremely Small

The smallest number of fires in many years occurred in Shelby last year, Fire Chief J. L. McDowell said last night as some 65 firemen and their wives and special guests gathered for their annual banquet.

Final figures with total losses will not be available from the state office until the first of the year, but the chief said the number has been unusually low.

The banquet was held in the county community building, with the program entirely informal. Brief remarks were made by Dr. J. S. Dorton and W. C. Harris.

Firemen are busy now working in conjunction with the Salvation Army repairing and repainting (try) to be given poor children on Christmas eve.

After the meeting a short square dance was enjoyed.

RALEIGH, Dec. 22.—(AP)—Denouncing the majority report of the state liquor study commission, Dr. William L. Poteat, president of the United Dry Forces, in a statement made public here called for a state-wide referendum on the liquor issue.

The liquor study commission recommended a state-supervised county option system.

"We have twice announced our will on the liquor business in thunderous tones," Poteat said, "—one in 1908, and again in 1933. We have not been consulted since."

A county option system, he asserted, "would manifestly land us in confusion," since "the boundaries of counties present no barriers to people going out or coming in."
