DEAR MARY HAWORTH: Is it natural for a girl to be always afraid, especially of her mother? Ever since I can remember, my mother used to scare me if I did something wrong. YES, YOU

MUST REGISTER

You may have been voting in regular city, county

and state elections for years, but YOU MUST RE-

REGISTER to vote in the SPECIAL HOSPITAL BOND

ELECTION to be held Saturday, July 7th. The law

says that all elections involving the levying of a tax

or issuance of bonds, require a RE-REGISTRATION.

So don't neglect to register this week. It's your last

this week and register. That is legal. If it is inconvenient to call on your registrar now, you can find him or her at your voting place Saturday, June 23, until 6 o'clock. That's your last opportunity, but the election is too important to put off registering until the last day. Do it NOW.

#### SOME REASONS WHY

I have been asked to serve as general chairman in promoting the election. I gladly accept the task because Cleveland County's greatest need now is larger and better hospital facilities in Shelby and Kings

I believe in promoting health and adequate hospital and medical care for our people-all our people, poor and rich alike.

Here in Cleveland, we have active civic, religious, social and patriotic organizations, pledged to the upbuilding of our county.

We have 70 or more strong churches, a fine school system, excell in farming, rank at the top in industrial output, so we must have adequate hospital facilities for the sick and afflicted.

Christ, the Great Physician, not only healed men's souls, but relieved them of their bodily afflictions. He passed this power on to his disciples. We do not have healing powers, except as we provide hospital and medical care for our sick and afflicted.

#### WHY WE MUST NOT FAIL

The hospital is now crowded to such an extent that new-born babies have to be put in bureau drawers and bath tubs because there are no cribs for them. At times, patients have to be put in hallways where there is no privacy, because all other beds are filled. Do you want this to happen to you or yours?

In the past 20 years the local hospital has had 35,004 patients. This is a 300 per cent increase in the past ten years. 4,585 babies have been de-livered in the hospital in 20 years, seven times as many as were born in the hospital just ten years

The School of Nursing has graduated 129 nurses since 1925. These practice their profession in army camps, in hospitals, in homes and offices, relieving suffering humanity and prolonging life.

#### SOME DAY YOU MAY NEED IT.

You may never have needed hospital care for yourself. Make no mistake about you, some day YOU likely will need hospital care. Without it, it may cost you your life or shorten your days.

It will cost a little, to be sure, but suppose it does? What is money compared with life, health and happiness?

It's economy to you to have a good hospital at home. Elsewhere they are filled and you can seldom

Thousands of you industrial workers carry hospital

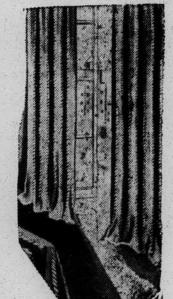

insurance. Your policy is good only if there is a hospital bed available. Let's make it available for all who need hospitalization.

Read future advertisements which will explain everything about the election, the hospital program for the county, the tax rate, the trustees which will come one from each of the townships and the operation and maintenance of the proposed county hospital system.
