PACIFIC DATELINE:

Marine Evacuation Hospital On Okinawa Was Underground

By BONNIE WILEY
OKINAWA—(AP)—A Pacific war experiment—a marine evacuation hospital originally manned entirely by navy personnel—is ready to close, its job of evacuating the wounded completed.
Nine wards were in cellars dug 10 feet down. These were reserved for patients who could not be moved no matter how close enemy bombs fell during the campaign to wrest Okinawa from the Japanese.
Twenty-one wards were in sand-bagged revetments and the remainder were in tents with foxholes for the walking wounded.
Tragedy hit this hospital in May when a bombing and strafing by Japanese planes cost 13 lives and wounded 31.
HERO KILLED
"A real hero was killed," said Capt. Walter F. Karbach, of San Antonio, Tex., commanding officer of the hospital.
"He was one of our loyal hospital corpsmen off duty and could

have jumped into a foxhole. But instead he rushed into the wards to help with the wounded.
"When the going was roughest he shoved a patient against a wall and threw himself in front of the man. Both were hit. The wounded man was slightly injured but the corpsman was killed."
Operating rooms buried in the ground look like something from a fantastic story, but in those rooms countless lives were saved.
"Ninety per cent of our cases were surgical," said Capt. Daniel W. Wheeler of Duluth, Minn., the executive officer.
"The casualties were more mutilated than any I ever had seen before," Karbach declared.
On the peak day 540 patients were evacuated by the hospital, mostly by air.
"It really was a hard job, but a speedy one," Karbach said. "The most unusual part was the bringing to us by Cub planes from the front lines men who had been hit only 20 minutes before."

LIONS TO MEET AT CHEROKEE

Shelby Lions will go to Camp Cherokee in Kings Mountain Battleground National Park tomorrow night for their meeting. Each Lion will bring his wife or sweetheart. The group will see the Lions Fresh Air camp in action at Camp Cherokee.
Members of the club and their guests will meet on the east side of the court square at 6 o'clock to go by motor caravan to their meeting.

Sims Is Injured In Forced Landing

GASTONIA—Allen H. Sims, executive vice president of the Citizens National bank here, was painfully injured Sunday afternoon when he made a forced landing in a plane he was piloting coming down near the Gastonia-Kings Mountain highway, a short distance from the Linwood airport here.
Mr. Sims, who is a licensed pilot, came down in a cornfield. The plane apparently developed mechanical trouble. He suffered a gash on the forehead and a back injury. He was placed in the City hospital here.

Truman Signs Bill For Pay Increases To Postal Workers

WASHINGTON, July 9—(AP)—President Truman has signed legislation giving postal employees their first general pay raise since 1925.
For regular postal employees in so-called automatic grades, the legislation provides a 20 percent increase in base pay, or \$400 a year, whichever is the lesser. In no event will the raise be less than \$300.
It provides for overtime payment at the rate of time and one-half for time worked in excess of a basic 260-workdays annually, the payment to be in money or compensating time off, and for a differential of ten percent for employees who work regularly at night.
The overtime provisions do not apply to supervisors, rural carriers, traveling mechanics and employees of the railway mail service and the air mail service.

It has been assigned to the North Carolina magnesium development corporation of Asheville.
Hansgirg's method is to effect a partial reduction under condition promoting the reduction of the silica content to metallic silicon without affecting the magnesium oxide content to any substantial extent. The resulting partially reduced material is then reacted at elevated temperatures where the silicon produced reduces the magnesium oxide to form metallic magnesium.

New Process Makes Metallic Magnesium From Silicates

RICHMOND, Va., July 9—(AP)—Dritz J. Hansgirg of Black Mountain, N. C., has obtained a patent on a method of producing metallic magnesium from magnesium silicates, the U. S. patent office here has announced.

Many tire dealers have been victimized by crooks who have tendered stolen or counterfeit tire certificates, drawn on distant banks, he said.
All tire certificates are now being sent to the OPA verification center in Atlanta after being turned in by dealers, Mr. Hollingsworth explained. All counterfeiters are charged against the dealer's inventory account, he added, which means his stock of new tires will be reduced by that number.
In case of any doubt regarding certificates, Mr. Hollingsworth suggested that the dealer call their own local War Price and Rationing Board for advice on how to proceed.

State College Textile Specialist Off To Germany

RALEIGH, July 9—(AP)—Elliot B. Grover, head of the yarn manufacturing department of the N. C. State college school of textiles, has left for Germany, where he will study the war-time developments in German textile processing and machinery, the college announced today.
Grover will serve as a member of a joint commission sponsored by the War department and the technical, industrial investigating commission. He is expected to spend three months in Europe and will resume his teaching duties this fall.

Jap Spies Seeking MacArthur Hanged

MANILA, July 9—(AP)—The Japanese sent spies into Manila after the capital's liberation with instructions to determine the location of Gen. Douglas MacArthur's headquarters, and a dozen of them were caught and hanged in June, military authorities disclosed today.
One officer said the spies insisted they were given no instructions for any action against the American commander but only to find where he was living.
One Filipino also was hanged. All were caught in civilian clothes. Some had hand grenades and written instructions. They were arrested by the counter intelligence corps as they entered Manila and were condemned by military court on pleas of guilty.

Japs' Antiaircraft Fire More Accurate

WASHINGTON, July 9—(AP)—The accuracy of Japanese antiaircraft fire has improved 100 percent in the last three months, presumably because of expanded use of radar control, an American airman reported today.
Lt. Col. Patrick B. McCarthy, commander of an aerial reconnaissance unit operating over the ene-

Tire Dealers Cautioned About Certificates

Tire dealers in the Charlotte district were cautioned this week about acceptance of new tire certificates presumably issued by War Price and Rationing Boards in other states, in a statement by A. M. Hollingsworth, OPA Rationing Officer in Charlotte.
Many tire dealers have been victimized by crooks who have tendered stolen or counterfeit tire certificates, drawn on distant banks, he said.
All tire certificates are now being sent to the OPA verification center in Atlanta after being turned in by dealers, Mr. Hollingsworth explained. All counterfeiters are charged against the dealer's inventory account, he added, which means his stock of new tires will be reduced by that number.
In case of any doubt regarding certificates, Mr. Hollingsworth suggested that the dealer call their own local War Price and Rationing Board for advice on how to proceed.

Zoar Cemetery To Be Cleaned Thursday

Cleaning of the cemetery at Zoar church will be undertaken Thursday morning preparatory to opening of the revival on the fourth Sunday. All with friends or loved ones buried there are asked to help or send a dollar to C. L. Hollifield, chairman.
Rev. Hugh Harrill will conduct the revival opening July 26th.

New Motor Fuel

DES MOINES—(AP)—William Humphrey, 50, charged with reckless driving, gave this reason for the event:
"Practical jokers had poured molasses into his gasoline tank and he was forced to race and retard alternately the motor. "That was the only way I could keep it running," he said.
Municipal Judge Harry B. Grund imposed the usual \$25 fine.

For Festive Dinner

CHICAGO—(AP)—Mrs. Casimir Pawlak's rooster, as roosters will, crowed at 4:30 a.m. neighbors complained to police.
"I'm keeping this big fellow to make a dinner for my son when he comes home from Europe," she told the officers.
Police let her keep the rooster together with eight hens and a guinea hen, all earmarked for the same occasion.

my homeland, told a news conference today that apparently the Japanese had trained enough radar operators to man many more AA guns. Until recently, the enemy gunners apparently depended to a large extent on visual aiming and tracking.
As to Japanese fighter plane opposition, McCarthy said it was his own opinion that the enemy now was able to get no more than 20 per cent of his interceptor planes off the ground.
