State Symphony Fund Is Given \$400 By Valdese Citizens

CHAPEL HILL, July 31.—The smaller communities are doing their part in the campaign to expand the activities of the North Carolina symphony orchestra.

Burke county was given a quota of \$400, but the village of Valdese alone has already exceeded that quota.

Mrs. Hayes Rutherford of Valdese headed up the appeal, which was sponsored by the Valdese Music club. Miss Beatrice Cobb of Morganton is county chairman.

"The magnificent manner in which Valdese has responded to the appeal is typical of the way the people there react to every

worthy cause," L. C. Gifford, editor of the Hickory Daily Record, says in an editorial.

"It is symbolic of the spirit of the men and women who have built a truly 'amazing' city—teaming with industry and commerce, and yet thoroughly attuned spontaneous to desirable cultural requirements.

"We sincerely trust that what has been accomplished there will prove an inspiration to the remainder of the county and to workers in surrounding counties."

THE THREE SCOURGES OF MAN

★ Devastating epidemics have ranked with war and famine as population levelers. Of these three scourges of man, pestilence was most dreaded. During the Black Plague epidemic of 1348, it was estimated that in some places over two-thirds of the population was wiped out.

The discovery of bacteria as the cause of infectious disease is still within the memory of the living. Pasteur developed the first vaccine for rabies in 1885. Since that time many immunizing procedures have become routine. As a consequence, deaths from infectious diseases have been drastically reduced.

Everyone should be protected against smallpox and diphtheria as an absolute minimum. Do not wait for an epidemic to break out. Then it is often too late.
