Youth Falls 65 Feet And Is Unhurt

A fall of 65 feet from the Seaboard's Broad River trestle, which he was engaged in painting, left George Nolan, 17, little the worse but for a smearing of bright orange paint with which he became entangled as he started his drop to soft sand below Friday afternoon.

Rushed to Shelby Hospital, young Nolan, paint and all, started ambulance attendants and hospital attaches by calmly walking inside where Dr. H. C. Thompson ordered him put to bed and retained as a patient. This morning Nolan felt badly shaken up but was grateful the wet sand had provided him what he termed a "featherbed" landing spot.

Jewess Sticks To Story Of Belsen Horrors

LUENEBERG, Germany, Sept. 22—(P)—Dr. Ada Bimko, a small, dark woman who described herself as "a Jewess from Poland," continued her story today of the horrors she saw while a prisoner of the Nazis at the Oswiecim and Belsen concentration camps.

She was the first witness presented by the prosecution in its effort to expand the general indictment against Joseph Kramer, commander of the Belsen camp, and 44 other Nazis on trial as war criminals.

Dr. Bimko, who relates she saw her six-year-old son, her husband, a brother, a sister and her parents carted off to the gas chambers at Oswiecim, yesterday pointed out 15 of the defendants and declared some of them selected Jewish inmates of the camps for death and prostitution.

STICKS TO STORY

Under cross examination today by Capt. C. Brown, the witness stuck firmly to her story that selections of gas chamber victims from among the prisoners had nothing to do with the health of the prisoners. She said she had seen patients in the camp hospital who were due to be discharged as recovered who were sent to the gas chamber.

Early in her testimony Dr. Bim-
