7. "The Balkans—American policy always has recognized Russia's claim to primary interest in the countries along her borders for security reasons. Thus while the United States has argued over the one-party political controls organized in Romania and Bulgaria, it has not directly challenged Russia's dominance there but based its criticisms on lack of a democratic setup.

8. "DEMOCRATIC ELECTION"—The United States has offered to recognize the Hungarian government formally if it will merely promise democratic elections. In the case of Romania and Bulgaria, this country has made such elections a prerequisite to diplomatic recognition.

9. "The atomic bomb—for the United States the first great question of policy is whether to share its secrets with the rest of the world. Practically this means sharing them with Russia as the only great military power which does not now possess them.

10. "Prolonged debate on this issue is reported to have contributed considerably to the worsened relations between Russia and the western powers as reflected at London.

11. "Argentina—Braden, who remains as ambassador to Buenos Aires until his appointment as assistant secretary is acted upon by the senate, returned from South America Saturday. He immediately opened a review of this government's Argentine policy because of the latest restrictive measures imposed upon that country by its militarist regime.

18. "Although the senate remains in week-end recess until tomorrow, many members will be busy in committees.

19. "One, the education and labor committee, is reported about ready to stamp its okay on another Truman suggestion: A federal aid program for hospitals.

20. "Biggest issue is whether the government would put up \$100,000,000 or \$50,000,000 a year during the next five years. A compromise may be worked out. The whole senate will still have to act, then the house.

21. "Thus far Mr. Truman's old friends of the senate have been kindest—relatively—to his proposals.

22. "They passed a so-called "full employment" bill last week. It was a watered down version of the bill administration leaders wanted, but most observers thought it would be satisfactory to the White House.

23. "The senate also approved an unemployment compensation measure. But it was one Mr. Truman didn't like much. He said the senate let him down when it didn't provide up to \$25 jobless pay for 26 weeks.

24. "Later the whole committee shelved the whole thing.

25. "Still later the White House issued a statement emphasizing that Mr. Truman's \$25 a week proposal "does not mean that everybody would get \$25 a week." The statement stressed that the figure would be a ceiling and that state laws which determine weekly benefits on a percentage of wage loss would remain in effect.

26. "The bankers gave Colonel Kramer an estimate of the gold reserve of the bank of Japan, which they said was Japan's total reserve except for small amounts earmarked for shipment to Indochina and Siam, but the figure was not disclosed immediately.

bank of Japan held any foreign money, denied any knowledge of a possible hiding place, and maintained they had no control over financial activities of field military commanders.

The bankers gave Colonel Kramer an estimate of the gold reserve of the bank of Japan, which they said was Japan's total reserve except for small amounts earmarked for shipment to Indochina and Siam, but the figure was not disclosed immediately.

Kramer previously had announced that the finance ministry estimated Japan's gold reserve at \$125,000,000.

Col. Ken R. Dyke, head of MacArthur's civil information and education section, announced an investigation of Shintoism. The government has poured a lot of money into Shinto during the war x x x."

There were these other developments: Shigenori Togo, foreign minister at the time of Pearl Harbor who was scheduled to surrender yesterday, suffered another heart attack at his home. An American doctor ordered an examination.

COMMISSIONERS APPROVE ROADS

Cleveland county commissioners in regular monthly session at the courthouse this morning recommended to the North Carolina Highway and Public Works commission the improvement of two farm to market roads in this county.

One of the roads leads north from Shelby to Lawndale via Double Shoals and the other runs from the John T. Warlick place to Casar.

Later today the commissioners were to meet representatives from the Shelby Chamber of Commerce and other civic organizations. Also under consideration was the proposition of electrifying the courthouse clock. This job would cost approximately \$1,000.

ident of the federation of Westinghouse salaried unions, said members voted to go back "pending the outcome of negotiations."

In New York the building service men struck in protest against a regional WLB directive which increased hourly rates but reduced the hours per week, resulting, the union contended, in a pay cut. The strike ended when the union bowed to an ultimatum from Gov. Thomas E. Dewey, that it accept arbitration.

Dewey named George Frankenthaler, former New York State Supreme Court justice, as arbitrator. He scheduled a meeting with interested groups for today.

FUEL, IRON STRIKE The Colorado fuel and iron strike in Pueblo ended when members of the CI United steel workers union voted to return pending a WLB hearing. Michael J. Soldren, International Union representative, described the stoppage as a "vacation" stemming from a union complaint to the WLB that the company had failed to comply with a directive forbidding supervisors to do the work of subordinates.

The two largest strike threats arose in the Dayton Frigidaires and from the telephone workers. The latter, the National Federation of Telephone Workers, called an executive board meeting for today to discuss a tentative National Labor Relations board order.

DISSOLUTION The order recommended disestablishment of a federation affiliate, the Western Electric Employees Association, in New York and New Jersey, charging it to be company-dominated. NFTW President Joseph Beirne thought a "demonstration" work stoppage was a "definite possibility."

The Frigidaire employees voted to strike at 6 a.m. (Eastern Standard Time) today after what the union termed "the unjustified indefinite suspension of four workers." The union involved is the CIO United Electrical, Radio and Machine Workers. The plants employ 14,000 persons, but the union did not say how many voted.
