MONDAY, OCT. 8, 1945 THE WIDENING CIRCLE

There seems to be a feeling prevalent that the spreading strife in the soft coal fields is something for Secretary of Labor Schwellenbach, the 155,000 miners who have quit work, the states of West Virginia, Pennsylvania, Kentucky, Ohio, Tennessee and Indiana, and John L. Lewis to worry

At that, it would be quite some problem. That many idle workers involving the closing of some 586 pits cannot be passed off with a wave of the hand, even when only those who are actually participating in the strikes and the coal industry itself are given consideration.

But as it so happens, this only starts the chain of disastrous events. Of course the coal miners are out of work and their income is subtracted from normal buying power. Of course the coal mines are shut down and their production is as dead as last year's Christmas tree.

But consider, too, the fact that coal production over the entire nation down 749,000 tons daily, which means that more than one third of the normal output of the mines has been cut off. Consider the fact that our reserves are practically nil and that sharp retrenchments in shipments to dealers have had to be made. Think of the steel mills which are already feeling the shortage with many of them reporting large reductions in production schedules.

For the moment we will forget that winter is coming on and that a coal shortage would pinch severely. Instead we will selfishly think of all those consumer goods which we were promised as soon as the war was over—automobiles, land that knows autumn. Not so washing machines and a host of others, all of which use much as a relief from summer, but some steel. What will happen if they can't get steel because as a season in itself, an annual the steel processors can't get coal? What will happen to the time of maturity, of mellow ripeness give it. View it cynically and you workers in the factories where automobiles and washing and rich fulfillment. Now comes will become a cynic. View it doubtmachines are made? Navy To Speed Discharges As King Deposed

By DREW PEARSON
(Lt. Col. Robert S. Allen Now On
Active Service With the Army)

KANSAS CITY, MO .- Navy insiders are hoping for a new deal regarding discharges, recognition of reserves and other navy injustices, following the shake-up in the navy's bureau of personnel and the impending exit of navy czar Adm. Ernie King. In fact, some fresh air already has blown into the navy department.

ize that for about five years the secretary of the navy has chiefly been the performing puppet of of the Navy Frank Knox was at sword's points with King most of show him a few routine cables and then adjourn.

Later, King and his close asso-Knox nor Under Secretary James Forrestal knew existed.

ful clique the navy has ever seen, with no one able to penetrate it. least of all the secretary of the navy. The older men of King's men bore the brunt of the fightof 1897 and 1933.
