Vol. II.

Statesville, N. C., Friday, February 4, 1859.

Boeten.

The camp has had its day of song:
The sword, the bayonet, the plume,
Have erowthed out of fly me too long

The plough, the anvil, and the loom

The training of the workshop yields.

More heroes true than war has known.

Who drives the bolt, who shapes the stell,

May with a heart as valliant smite, As he who sees a forman reel In blood before his blow of might:

The skill that conquers space and time, That graces life, that lightens toll. May spring from courage more sublime

Let labor, then, look up and see
His draft no pity of benef lacks:
The soldier's rule yet shall be
Less honor d than the woodman's axe;
Let art his own appointment prize.
You deem that gold or outward light

In tastes that breed their own delight

When man this sarred truth shall heed— That from the thought and from the will

Can compensate the worth that lies

And may the time draw nearer still,

. Must all that rulses man proceed:

Though pride may hold our calling low

For us shall duty make it good: And we from truth to truth shall go.

Tall life and death are understood.

Intellect in Rags.

tears, as she replied:

AYER'S CHERRY PECTORAL FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness. BRIMFIELD, MASS., 20th Dec., 1855. DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Ifoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in any practice and my family for the last

ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D. A. B. MORTLEY, Esq., of Urica, N. Y., writes: "I have used your Pectoral myself and in my family ever since you invented it, and believe it the best medicine for fits purpose ever put out. With a bad cold I should sooner

pay twenty-five dollars for a bottle than do without it, or take any other remedy.' Croup, Whooping Cough, Influenza. SPRINGFIELD, MISS., Feb. 7, 1866.
BROWNER AVER: I will cheerfully certify your Fectoral is the best remedy we possess for the cure of whooping cough, croup, and the chest diseases of children. We of

your fraternity in the South appreciate your skill, and

commend your medicine to our people.

HIRAM CONKLIN, M. D. AMOS LEE, Esq., Monterey, IA., writes, 3d Jan., 1856: "I had a tedjous Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your Pectoral by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis. WEST-MANCHESTER, PA., Feb. 4, 1856; Wistr-Manchester, Pa., Feb. 4, 1866; Sm: Your Cherry Peteral is penforming marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant. A. A. RAMSEY, M. D. Albion, Monroe Co., Iowa, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your Cherry Pedoral for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial. Probably no one remedy has ever been known which

cured so many and such dangerous cases as this. Some Pectoral affords relief and comfort. ASTOR HOUSE, NEW YORK CITY, Merch 5, 1856. Doctor Ayer, Lowell: I feel it a daty and a pleasure to inform you what your Cherry Pectoral has done for my

wife. She had been five months laboring under the dan-gerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily fail-ing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. Werbless his kindness, as we do your skill; for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

OKLANDO SHELBY, or SHELBYHLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PROTORIA. It is made by one of the best medical chemists in the world, and its cures all around us bespeal the high merits of its virtues. — Philadelphia Ledger.

Aver's Cathartic Pills. THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect

purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, and expel disease. They purge out the foul liumors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my, Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:-Costiveness, Bilious Complaints, Rhenmatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nau-sea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatniency, Loss of Appetite, all Ulcer ous and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. They also, by purify ing the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions. Do not be put off by unprincipled flealers with some other pill they make more profit on. Ask for AYER's PILLS, and take nothing else. No other they can give

you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it. Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

Jan. 21, 1859 .- 7-tf PROSECTUS

THE IREDELL EXPRESS.

PUBLISHED WEEKLY,

Statesville, Iredell County, N. C.,

EUGENE B. DRAKE AND SON, EDITOR'S AND PROPRIETORS,

At \$2 a year, in advance. THE SECOND VOLUME COMMENCED DECEMBER

The Express is now one of the largest, neatest, and best papers published in the State, being printed on a No. 4 Washington Press, upon new Type, from the Foundry of L. Johnson & Co., Philadelphia, and Paper of the best quality. It will be devoted to Politics, Agriculture, Manufactures, Commerce, Miscellaneous Reading, and to the Development of the Resources of Western North Carolina. Ample Congressional and Legislative Reports will be found in its columns, with extracts from Foreign and Domestic Journals of whatever is noteworthy in other portions of the country and world.

The Express will advocate Whig Principles, as the true conservative doctrine of the country, and the palladium of Amercan Liberty, outside of which there is no security for the American Union. Corruption, either in the General Government, or any party administering it, will be fearlessly exposed and denounced, and reformation demanded in the name of our injured country. Party tyranny, which was inaugurated by a bogus Democracy in years past, and has been strengthening its chains by falsehood to the present day, humbugging the people by de-ceitfulness, will be assailed, and, if possible, its manacles sundered, so that the minds of departments the proprietor gives his person- the people may be liberated, and allowed to had anybody to teach me. I just think as freemen for themselves.

The Express being the only WHIG JOUR-NAL published in this Congressional District, the Whigs in which are supposed to feel more tain an advocate of their cherished prinriples within the District, we appeal to them, as well as to our friends in other portions of the Express may have a wide circulation, both at home and abroad, as a messenger of useful-

> The River of Life. Blood is the mighty river of life,

the mysferious centre of chemical and vital actions-as wonderful as they are indispensible, soliciting our attention no less by the many problems it presents to speculate ingenuity, than by the practical conclusions to which those speculations lead. It is a torrent impetuously rushing through every part of the body, carried on by an elaborate net-work of versels, that, in the course of the twelve months. convey to the various tissues not less Than three thousand pounds weight of nutritive material, and convey from the various tissues three thousand pounds weight-of waste. At every moment of our lives there is nearly ten pounds of this fluid rushing in one continuous throbbing stream, from the heart thro the great arteries, which branch and branch like a tree, the vessels becoming smaller and smaller as they subdivide, till they are invisible to the naked eye, and then they are called eapillaries, (hair-like vessels) altho they are no more to be compared to hairs, than hairs are with cables. These vessels form a net-work finer than the finest lace -so fine, indeed that if we pierce the surface at almost any part with the point of a needle, we open one of them, and let out its blood. In these vessels the blood yields some of its autrient materials, and receives in exchange some of the wasted products of tissue; thus modified, the stream continues its rapid course back to the heart, through a system of veins, which commence in the myriad of capillaries that form the termination of the arteries. The veins, instead of subdividing like the arteries, become gradually less and until they reach the heart. No sooner has the blood poured into the heart from the veins, than it rushes through the lungs, and from them back again to the heart and arteries, thus comple-

ting the circle of circulation. This wonderful stream, ceaselessly circulating, occupies the very centre of the vital organism, midway between the functions of nutrition and excretion, feeding and stimulating the organs into activity, and removing from them all their useless material. In This is one of God's special come its torrent, upwards of forty different have care or control over them, nev- considered organised entities, twenty forward, but, at all times, to be care- of the heart, to be replaced by other is one among the greatest cur'es of tracted from the blood of great men.
