The United States Elections.

The late elections held in several of the U. S. States, have gone largely against Lincoln. New York, Pennsylvania, Ohio, Illinois, Delaware, and perhaps Missouri, have gone for the Democrats. Illinois, Lincoln's own State, has cast a majority of 15,000 or 20,000 against him in the popular vote. In New York State the change since 1860 is over 200,000.

State Printer.

Among other duties of the Legislature, will be the election of a State Printer. We think that with the heavy burden upon the people, ecomy should be considered in all things, and the public printing procured to be done as cheaply as possible. In former years this expense has been too large, and was made a fee for partizan services. There are in Raleigh at this time a number of printing offices, and we think the public printing should be let to the lowest bidder, without regard to party. This ilegislature was elected to reform alleged abuses and extravagance, and not to subserve party. The people, will scan every act done by their representatives and in the one item of public printing, it ought to be done.
