From the North.
Fredericksburg, No. 13.—Dates to the 11th inst., have been received. Gen. McClellan has been removed, and Burnside is in command of the Army of the Potomac.

The reasons for this are McClellan's refusal to advance, and the Harper's Ferry Commission having censured him in their official report.

The Scotia has arrived with Lord Lyons and Simon Cameron among the passengers.

No Cabinet Council was held in England, as summoned, on the 23d of October. It was postponed indefinitely on the morning of the meeting.

The London Times says that Sir G. C. Lewis expressed the opinion of the English Government.

The communication of the French Minister related to matters at New Orleans, and was not likely to lead to any complications.

"Ion," the Washington correspondent of the Baltimore Sun, says that Lord Lyons will visit Richmond in ten days.

Cameron thinks there will be intervention by the meeting of Parliament. He says that the Confederates are getting a fleet ready in English ports to attack New York.

From the Georgia Coast.

AUGUSTA, Nov. 13.—The Savannah Republic of this morning says that two Yankee gunboats entirely destroyed the town of St. Mary's, Ga., on Sunday last. The abolitionists attempted to land and were repulsed by the Confederates. They afterwards destroyed the town.

From the Army—Active Operations.

The scenery which has veiled the movements of our army during the past few days, is now to a great extent removed. With the arrival of the Central train last evening, came the intelligence, that the advanced portion of the army in the Valley had been shifted, that the points to which attention must now be directed were the Shenandoah Valley, where Gen. Jackson is said to be operating against a portion of the enemy, and to Culpeper, where Gen. Lee stands opposed to a larger force than has yet been marshalled in his front.

On yesterday rapid and heavy cannonading was heard from Gordonsville, in the direction of Culpeper, continuing from sunrise until 12 o'clock. Whether a battle of any considerable extent was being fought or not our informants were unable to judge.—Many exaggerated statements were made as to the firing being of a more violent character than in any of the engagements around Richmond.

Rich. Enquirer, Nov. 11.

From General Lee's Army.

The reports from our army received at Lynchburg Tuesday night, were uncertain and contradictory. The Republican says it is stated that the enemy are retreating, and that the corps of Burnside which crossed the Rappahannock Friday, has recrossed that stream, not daring to advance further in search of our forces.

On Sunday evening last, our artillery moved forward and commenced shelling the enemy, and for several hours the firing was heavy and rapid. The shelling was kept up until late in the night, and Monday morning the Yankees could not be found on this side the Rappahannock.

These reports are believed to be the most reliable, though it may be proper to add that other rumors are in circulation to the effect that the enemy are advancing in great force and our army slowly retiring before them.

The opinion is general, however, says the Republican, that the two armies are in such close proximity, a battle must be fought, and will not be delayed beyond a very few days. We have some knowledge of the strength of our force in Culpeper, which leads us to express the opinion that the result will not be against us, and we await the commencement of the conflict with not the least anxiety for its favorable termination.—*Pet. Express, Nov. 13.*

Railroad Accident.

The Wilmington Journal states a terrible railroad accident to have taken place on Saturday morning, at Florence, on the Wilmington and Manchester Railroad. The boiler of the dirt train exploded while at the water tank, killing three persons—a Mr. Kirby, of Timmonsville, S. C., a man named Murphy Kelley, and a negro fireman. The engineer, David Carpenter, was blown about one hundred yards, and deposited in a cotton field. Dr. White, who was at Florence on his return from Wilmington, attended to the injuries of the engineer. The noise of the explosion was heard ten miles. Cause of the accident not stated.

Dr. Goodrich, Dr. Leacock, and Mr. Fulton, Episcopal clergymen, of New Orleans, have been sent to Fort Warren, by Brute Butler.

Quinine—How much do you use annually? Why not save the expense by using the Sure Cure Aque and Chill Pills? They are no humbug medicine imported from New York or Boston for Southern consumption, but put up by a responsible Southern firm at Nashville, Tenn., and made of the very purest and best of ingredients, purely vegetable, entirely harmless, and strange to say, painless, and best of all warranted to cure invariably and speedily if directions are followed. Quinine it is asserted never cures a chill, only suspends it. This medicine cures. One Million of Dollars goes North yearly for quack and patent medicines. Throw your Dutch and Yankee Mineral Medicines to the dogs you wish to kill, and try these Purely Vegetable and Southern Remedies, prepared alone by Dr. Clark, a native of Tennessee, who has a familiarity with Southern diseases and their treatment in a Southern climate. Dr. Clark's Sure Cure Aque Pills are recommended for Chill Fever, Fever Ague, Dumb Ague, and nothing else. They will effectually break up, and when taken in connection with the Liver Pill, will entirely eradicate every trace of the disease, no matter of how long standing, or how obdurate the case. Price \$1. Sent by mail, post paid.

PAYMENT OF STATE BOUNTY DUE DECEASED SOLDIERS.

EXECUTIVE DEPARTMENT, N. C.,

ADJUTANT GENERAL'S OFFICE,

Raleigh, Oct. 17th, 1862.

GENERAL ORDERS,

No. 9.

The following regulations are published for the information of those persons wishing to draw bounty of deceased soldiers: in accordance with an ordinance of the Convention ratified the 22d day of February 1861;

REGULATIONS.

1. The payment of bounty to the representatives of deceased soldiers is based upon the certificate of the commanding officer of the company, who will state the time of the enlistment of the soldier, the date of his decease in service, the amount of bounty already paid by the State, and the company and regiment to which he belonged.

2. The claimant will make affidavit before a magistrate that he or she is the next of kin to the deceased, according to the provisions of the foregoing ordinance of the Convention, and that there is no other person entitled to make claim. The affidavit of the claimant must be sustained by that of one disinterested witness, that the facts stated are correct with his own knowledge and that he has no interest in the claim. The magistrate administering the oath will certify to the creditability of the witnesses, and the clerk of the County Court will certify, under seal, that he is an authorized and acting magistrate.

3. If the claimant or claimants be minors, payment will be made to the guardian, upon the production of the proper certificate under seal of the Court, of his appointment and the sufficiency of his bond—the claim to be proved by him as in other cases.

4. A bounty of fifty dollars, including the bounty that may have been previously paid, is due to all persons who may have volunteered for three years or the war, and to all persons mustered into or continued in service under the provisions of the Conscription Act.
