LIVER COMPLAINTS

The PATENT MEDICINE STOMACHICE, ET IEPATICE, formed by chymical analysis and synthesis of several proximate vegetable princi-ples, are universally acknowledged to have totally eclipsed the pretensions of every other remedy, and superceded the necessity of every other mode of treatment, wherever the above diseases are found to exist, as well as in enlargement of the Spleen and in Jundice.

Among the syaptoms of Dyspepsia and Liver Complaints, are flatulency, sourness or burning in the stomach, melancholy, irritability, disagreeable taste in the mouth ; great irregularity of appetite, which is sometimes voracious, and at other times greatly deficient : thirst, fetid breath, nausea, weakness of the stomach, acid eructations, palpitation, drowsiness, irregularity of the bowels, pressure on the stomach after meals, pain in the head, drzziness or vertigo; confusion of mind, attended with his of memory, a gnawing in the stomach when empty, chillness. affection of sight and hearing, pain and weakness in the back, languor, disturbed sleep, cold feet and hands, tremor, uneasiness in the throat cough, pain in the side or breast, &c.

DR. PETERS' Tegetable Anti=Bilious Mills

Are the cheapest and most approved FAMILY MEDICINE ever offered to the Public. They are extremely mild in their operation, neither causing sickness of the stomach, nor any unpleasant sensation in the system, as is too frequently the result from medicine given to act upon the bowels. They act specifically upon the Liver, when in a torpid condition, carrying off a large quantity of bile, through the influence off the excernent function, which, if suffered to remain in the system, would produce either Jaundice, Liver Complaint, Bilious Fever, Fever and Ague, or some other grievous bodily affliction. In all cases of torpor of the bowels, they act like charm. In recent cases of Dyspepsia, the are a certain cure. Many persons who were subject to violent attacks of sick head ache, have been much benefited, and several perfectly cured in a few weeks by their use. They are highly recommended as a preventive and cure of Uthous complaints. Persons who are subject to that distressing complaint, s a sickness, by taking a portion or two of them a few days previous to embarking on board the vessel, will be almost certain to escape it. Females can use them at all periods, without incurring any risk. Persons going to sea, or to a southern climate, should by all means take some of these Pills with them .-Their virtues will remain unimpaired for years in any climate. No family should be without these Pills; a portion of them, taken occasional ly, would be the means of preventing much suf fering from sickness. It is from neglect of keep ing up a regular peristaltic action of the stomach and bowels, thus suffering to be absorbed and mingled with the blood, unassimilated fluids, IAG. that most diseases are produced. Dr. P. feels confident that no person who gives these Pills a fair trial, will ever atter feel willing to be without them. The testimony of thousands speaking in the highest terms of their efficacy, might be added, but the very high reputation Dr. P has acquired as the inventor of the " Patent Veretable Medicina Stomachica et Hepatica." for the cure of Dyspepsia and Liver complaints. is thought a sufficient guarantee to those wishing to make a trial of their virtues. They contain not a particle of Mercuty, or any ingredient that does not act in harmony with health and op-

Dr. P. wishes it distinctly understood, that these Pills possess beneficial qualities independent of their purgative effects; they are both tonic and deobstruent, acting upon the secreting and exhalent functions; thus strengthening the patient, while they remove obstructions --Medicines which possess no other, excepting ca thartic qualities, debilitate the patient, and their repeated use lays the foundation of a long catalogue of Chronic diseases.

Dr. P. having been educated under the most eminent American and European Medical pro-fessors, and practiced his profession many years in the South, where diseases of the most obstinate character prevail, considers himself well qualified to judge on the nature of diseases inci-

dent to warm climates. Prepared by Jos. PH PRIESTLEY PETERS M. D. P. B. C P. M. at his Institution for the core of obstinate Diseases, by means of vegetable remedies, No. 129 Liberty street, New York, inventor and sole proprietor. Each box contains furty Pills. Price 50 Cents.

These Invaluble Medicines are for sale in Charlotte, by Smith and Williams; Concord, by Barringer and Carson; Lexington, by John 2. Mabry; Raleigh, by Williams, Haywood and Co., and in almost every Town in the State: And can be had in this place at the Store of JOHN MURPHY.
