PROSPECTUS,

For publishing a large paper in Greensboro N. C. to be called

The Southern Telescope.

THE Publishers being desirous of seeing a paper established within the limits of N. Carolina, which will vie in respectability and size, with any other in the country, propose, so soon as proper arrangements can be made, and their patronage is somewhat increased, to enlarge their paper to the size of the large city papers now issued,—printed on an extra imperial sheet.

A principle feature in the paper as enlarged will be to give it more of a religious character, and make it what every publication of the kind intended for the benefit of mankind ought to be, condescend to all their intellectual and moral wants; and promote of their highest and best interests.

The proposed improvement seems to be called for by the wants as well as by the voice of the public, and in fact is manifestly necessary, if we would wish to give *pari passu* with other parts of our country in the march of improvement. We do not by any means wish to arrogate to ourselves any superiority in the scale of intellectual attainments of purity of motives, but merely to make a humble attempt to meet the wants and wishes and promote the welfare of our common country, by extending so far as we can, the means of mental and moral improvement.

In proposing to devote a portion of this paper to matter of a religious cast,—to give it more of a religious character—it must not be inferred that it is intended to be a sectarian sheet, or that in our selections in this line, we shall be prejudiced in our preference to such articles which unfavorably notice particular sect or denomination—We shall endeavor to be guided alone by our views of the real worth of articles and of the well-being and moral improvement of our readers.

A certain portion will also be devoted to light reading, such as tales, and articles of a miscellaneous cast, selected with a scrupulous regard to their beneficial and instructive tendency on the mind.

The paper will be apportioned and divided off under separate and distinct heads, so as to enable the publishers in its ample dimensions to present its readers with such a quantity and quality of matter weekly, as cannot fail to give general and entire satisfaction.

Believing that a paper furnishing such a quantity of matter, as this must necessarily contain on all subjects embraced within its sphere, would certainly meet with the wishes of a great majority of the people of this, and neighboring States the publishers are buoyed up with such reflections in the hope of the ultimate success of the undertaking, and induced to offer this prospectus to the public, relying upon their generous support for the prosecution of the work.

The publication of the Telescope, as enlarged, will appear as soon as a sufficient number of subscribers can be obtained to warrant the course just increased expense; and arrangements will be made to have forwarded to us in time for its commencement, all necessary additional materials, whenever appearances indicate a sufficient addition of names.

CONDITIONS.

The paper, as enlarged, printed on a large Extra Imperial Sheet, of purest white, with entire new materials, will be furnished to single subscribers at the low rate of \$2.50—or to clubs of five individuals at \$12.00 per annum—the money invariably to be paid in advance; and such who may subscribe before its appearance, to transmit us postage free, or pay into the hands of some one of our authorized agents the amount due immediately on the reception of the first number. Subscription to the paper for six months, \$1.50; for a shorter period than which none will be taken.

Jan. 13 1837.

Editors with whom we exchange, are respectfully requested to give the above a few insertions and the favor shall be reciprocated.

N. B.—All names procured by agents, others, throughout the country, are requested to be forwarded by the first of March, when will be made known the success of the project.

ZEVELY & EVANS

RHODERICK DHU.

This fine blooded horse, Rhoderick Dhu, will stand the Spring Season of 1837 at my stable, in the town of Hounsfield, Surry county, N. C. at the reduced price of Ten Dollars the Season, and Twenty Dollars the Insurance (with the additional sum of Twenty five cents, in every case to the groom.) which is less than any high blooded horse ever stood at in the United States.

RHODERICK DHU

is a beautiful bay, five years old this Spring, five feet one inch high. He was got by Monsieur Toussaint the best race horse in his day, and now the property of W. R. Johnson, the Napoleon of the Turf, at the price of \$10,000 cash.

His dam is Lady Burton, she by Old Archie, out of the mare sent to Mr. Jefferson, by the Day of Tants, as a present. (See Sir Patrick N. Edgar's Stud Book, and the Turf Register for Monsieur Toussaint and Lady Burton's pedigree note at large.)

Suffice it to say that, in breeding from such a stock, you go at once to the top of the ladder.

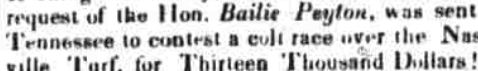

RHODERICK DHU

was raised by Alexander Henderson, Esq. of R-ckingham county, North Carolina, and at the request of the Hon. Bailie Peyton, was sent to Tennessee to contest a colt race over the Nashville Turf, for Thirteen Thousand Dollars!—He was entered and trained. Just before the trial, however, he was found to be lame, and of course withdrawn. The Hon. Mr. Peyton stated to a gentleman in this neighborhood, as he passed on to Washington City, last fall, that RHODERICK gave great evidence of speed and bottom while training.

Gentlemen sending mares from a distance, can either have them kept in good pastures, gratis, or fed on grain at twenty five cents per day. I will not, however, become responsible for any accidents, but pledge myself to use every exertion to have them well attended to.
