VECESIVE DE THE

The SE Pills have long been known, and appreciated for their extraordinary and im-mediate powers of restoring perfect health, to persons suffering under nearly every kind of disease, to which the human frame is lia-

In many hundred of certificated instance they have even rescued sufferers from the very verge of an unimely grave, after all the deceptive nostroms of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, with out which life itself is but a partial blessing. So great, indeed, has their efficacy invariably & infallibly proved that it has appeared scarcely less than miraculous to those who were unacquainted with the beautiful philosophical principles on which they are compounded, and on which they consequently act

The proprietor rejoices in the opportunity afforded by the universal diffusion of the daily press, for placing his VEGETABLE PILLS within the knowledge and reach of every incividual in the community. Unlike the host of pernicous quackeries, which beast of vegetable-ingredients, these Pills are purely and solely vegetable, and contain neither Mercury, Animony, Arsenic, nor any other mineral, in any form whatever. They are entirely composed of ex-tracts from rate and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some emineut pharmacen tieal chemists; are altogether unknown to the ignorant pretenders to medical science, and were never before administered in so happily efficalous a combination.

Wherever these pills have been once intro-duced into a family, they become a standing re-medy, and are called for sgain and again, which is sufficient proof of their good quali-

le is a truth, that almost every person who has ever used Peters' Vegetable Pills, recommend them to their friends, & it is from this circomstance alone, that they have gained such an unrivalled reputation.

When taking according to the directions accompanying them, they are highly beneficial in and ague, dyspepsia, liver complaints, sick head ache, jaundice, asthma, dropsy, rheumatism, en-largement of the spleen, piles, cramp and bilious cholic, female obstructions, heart burn, pleurisy, forred tongue, distention of the stomach & bowels, incipient diarrhæa, flatulence, habitual cos-tiveness, loss of appetite, blotched or sallow comdiection, and in all cases of torpor of the bowels, when a cathartic or an aperient is needed. They style of fashian, and warranted to fit well. ns in their favor, while not a single case

ern Literary A WHE startling cost at which this work his been established, and is sustained, and the backwardness of many subscribers in fulfilling their part of our mutual compact, call indispensably for an appeal; not to their liberality—but to their justice. If punctual payments are ever necessary, they are pre-eminently so in the case of such a publication,—purely literary—almost wholly original—and destitute of the vital aid which newspapers derive from advertisements.

My Ann is at stake, in this enterprise.—It is a venture, stimulated indeed by some hope of

emolument; but founded largely, also, upon the well warranted expectation of rallying Southern talents and Southern public spirit, around the drooping and well nigh prostrate banner of South ern Literature. Since it has now acquired claims upon Southern JUSTICE,—can it be, that

Subscribers then, who are in arrear-and le them remember, that payment is due in advance will, I trust, without delay, transmit he adounts they owe, to me, at Richmond; by mail, at my risk and cost; -- taking proper evidence of the fact and date of mailing; and retaining a memoandum of each note sent.

best evidence that can be given. The commendations which several liberal and intelligent Physicians have bestowed upon the Remedy, have already been published, and the subscriber has now the gratification of adding the following from a most respectable practising physiciae of Somerton, Va.

> R.S. BERNARD Somerton, May 14, 1837.

Mr. H S Bernard. Dear Sir-This is to inform you I have tested the efficacy of your Remedy for the Cholera in several instances that have lately come under my care, and that its effect evince it to be a judiceus preparation-one eminently servicable. I will say altogether competent to cure the diseases for which it is recommended. I feel no hesi-

Dear Sir : I feel it a duty I owe to the propriefor of the above medicine, as well as the public ra mixture which I bought at your store a few evenings since, has entirely cared me of a severe Diarrhoa. The cute was effected in taking only two doses, and as I had tried many other remedies without the least effect. I am fully of the opinion that the medicine here alluded to is every thing that it is said to be.

JAS. S. WALLACE, Petersburg, Va.

Who will neglect to supply themselves with Beroard's Remedy for Cholera, when it is so fuly proven to be efficacious in all the diseases for which it is recommended? In no case has it failed to care the most obstinate attack of summer complaint made upon children. In one in stance a permanent cure was effected upon a child in this place, after the summer complaint had put it (as thought by the doctors) beyond the power of medicine to relieve. It was such an aggravated case that the child had in the course of one day and night, sixty-three evacuations from the bowels. Yet one buttile proved a sov ereign remedy.
