

**IMPORTED
FLATTERER,
Michael stakes at New
Market, (England),
First October meet-
ing of 1834.)**

THIS splendid English Race horse (the property of Capt. J. A. J. Bradford, U. S. A.) will make his first season in America, under the direction of the undersigned, at the Hon. Judge Sprague's Myrtle Hill estate, three miles north of Fayetteville, on the old Raleigh road, and to let mares at \$50 the season, \$75 to insure, and Fifty Cents to the Groom—the money to be paid or secured to be paid, before the mares are taken away.

The season will commence on the 15th of February, and end on the 15th of July. Extensive Clover and Grass Pastures provided for mares, and separate lots for such as may have young foals, and mares well fed at thirty cents per day. Every care will be taken to guard against accidents, but the undersigned cannot be responsible for any that may occur, nor for escapes. Coloured servants sent with mares, boarded gratis.

PEDIGREE.

Flatterer was got by Muley (son of *Orville* and the famous mare *Eleanore*) and is, therefore, brother of the celebrated imported *Lionel* of Tennessee, and imported *Margaret*, winner of the *Dunstable* St. Leger in 1833; his dam *Clare*, bred by Lord Egremont in 1834, was got by *Marmion*, grandson of *Harpalier* by *Gubanna*, g. grandson of *Amazon* by *Driver*—*Fractions* by *Mercury*—*Woodpecker*—*Everlasting* by *Eclipse*.

Muley, the sire of *Flatterer*, was the best bred son of *Orville*, the winner of the *St. Leger*, and a most capital stallion, having covered as high as 452. *Orville* is the sire of *Emilus*, now covering at 50 sows, and grand sire of imported *Prian*, covering in this country at \$150; *Pleasant*, covering at 25 sows, (all three winners of the Derby.) imported *Narpedon*, *Oxygen*, winner of the Oaks, imported *Tramby*, imported *Merman*, &c. Muley is also the sire of *Vespa*, winner of the Oaks, of *Muley*, *Maloch*, imported *Leviathan*, imported *Margrave*, &c. Muley is out of *Eleanore*, the best mare of her day, having won both the Derby and the Oaks. *Eleanore* by *Whisker*, that famous getter of the stout sort, is the grandam of imported *Luzborough*, whose get in this country, ran last year with so much distinction, and is sister to *Cressider*, *Prian*'s dam.

Clare, *Flatterer*'s dam, was out of *Harpalier* by *Gubanna*, the best four mile horse of his day, and as a stallion, equal to any of his age.

Flatterer, like his sire muley, who was said to be the largest boned, thorough bred in the kingdom, and to be equal to 20 stone, (280 lbs.) is a horse of the largest size, full sixteen hands high, of immense power, large bone, great substance, good action, long stride, sound constitution, and excellent temper. His colour is a fine brown, without white. It will be seen that his pedigree runs back to the famous old English *Eclipse* in an extremely short, and as rich a line as could be desired.

HISTORY AND PERFORMANCES:

Flatterer was bred by Mr. Norvell, in 1831, & ran in England, by Sir Mark Wood. He was imported by Mr. Wadsworth, of Gloucester, New York, by whom he was placed in the stable of Mr. Robert L. Stevens, Esq., near the Union Course, Long Island, who trained and ran him in this country. His performances, both in England and in this country, are creditable to his noble stock. His first appearance in England was in his three year old form, (in 1834) for the renewal of the two thousand guinea stakes, at New Market, when he ran a capital second to *Gleaner*, who has been imported into this country at a high figure. The following is his record:

"NEW MARKET FIRST SPRING MEETING,
Tuesday, April 29, 1834.

On the 29th of May following, he started for the Derby at Epsom, won by *Plempo*, as was not placed. 122 subs 22 started, three placed.
At the New Market, First October meeting, he won the Grand Duke Michael Stakes.

Flatterer was now purchased for Mr. Wadsworth and shipped for America. After an unusually long passage, during which he never laid down, he was landed at New York the latter part of July, 1835, was put in training without the possibility of preparation, but, notwithstanding, ran two very creditable races, one of which mile heats, he won, beating two *Phillips* colts & a filly by the same horse. In the following spring, he was beaten by *Mingo*, three mile heats, running second to him, and beating *Cadmus*, by *Eclipse*, *Sydney*, by *Sir Charles*, and the *Jewess*, by *Henry* in the first heat, when he was drawn. Of this race, the *New York Spirit* of the Times contained the following account: "Cadmus had the pole, *Mingo* the outside. They got away in a cluster, the *Jewess* making a spurt between the stand and first gate that quite astonished us, when *Cadmus* and *Flatterer* took up the running, *Mingo* and *Sydney* lying well up, the first under a hard pull. Finding *Cadmus* dislaid the pace, *Willis* held him off after the second mile and *Mingo* held him the field with ease. *Flatterer* maintained his stride to the end, running a very handsome second to *Mingo*, who, for a single three miles can pull to the fastest horse in the country, and come home ahead. *Cadmus* could not run in the mud—and his friends did not expect much from him, though he ran 2d the next heat, *Flatterer* having been withdrawn after a very creditable performance. *Stanford* rode him in tip top style, and had to

carried 168lb. would have flung the mud in the face of the best of them."

Flatterer did not start in the Fall nor succeeding Spring. He was purchased by W. L. Corbin, Esq. of Va. and placed in the stable of J. S. Corbin, Esq. of Fairfield, who furnishes the annexed account of his promise:—"In regard to the promise *Flatterer* gave, while in training by me, of making a good race-horse, I can with sincerity, and I think truth, say, that it was decidedly *flattering*. In his mile trial, he beat 'Whig' (a very fast horse) several lengths, and exhibited very good symptoms at 'the finish,' of an ability to run a long distance successfully. I witnessed a race on Long Island, last Spring, twelve months, between him and several other very sharp sags, two mile heats, in which *Flatterer* was a good deal puer the foot of any of them. I considered him then a better horse than he showed for, as he had had but a poor chance to recover from the unusually long and rough voyage across the Atlantic, and the injudicious races he had been made to run the Autumn previous, very recently after his landing. Had his frog been sound when he went into training this Fall, he would undoubtedly have made *distinguishing* and successful races in the campaign. I would as soon breed from *Flatterer* as any untried Stallion in the country. His blood is as pure as a horse's can be, and his family all run. He runs back very shortly to the English *Eclipse*, and is a horse of uncommon speed himself, and I think of bottom too. His fine size should recommend him to breeders who may have small or slight mares. His action is remarkably good indeed. I have given the Groom the requisite instructions, though from his good temper none were needed. His health and appetite are as good as can be. I turned him out during the training on account of diseased frogs, made so from standing in a foul stable at the North. W. L. Corbin says of him, 'I am sure he will fulfil the promise expected of him in Carolina.'

Mr. White of Northampton county, who was desirous of procuring *Flatterer* to stand in that county, says 'I feel convinced that *Flatterer* would be excellent stock for this section, as we have a large number of *Archie*, *Hal*, *Toson* and *Luzborough* mares. Such material, when built upon by such bone as *Flatterer*'s, would insure good produce. On *Toson*'s, *Luzborough*'s and *Hal*'s all lack bone. *Flatterer* having a good share of size and bone, would have added much to our stock. Upon the whole I am much pleased with him. His rear parts I think first rate, and his countenance, to a man of soul, is daily bread."

In a letter to the owner, dated New York, September 25th, 1837, W. L. Corbin remarks, "Before touching on your proposition, I will remark for your edification and benefit, what fell from the lips of a notable fancier of the blood of noble breeds this morning. Mr. Boardman of Alabama, now here, chanced to be at Newmarket, England, when *Flatterer* ran, and says he gave great promise, and stood high in the Sporting circles, as does all his stock."

Flatterer is yet untried as a stallion—but as all his stock in this country have established a high reputation as sure foot getters, it is expected he will maintain it.

The undersigned repeats the assurance that the strictest and most careful attention will be paid to mares sent to *Flatterer*, & pledges himself to deliver them in good order and condition when taken away. And he will remark for the information of the breeders, who may be desirous of obtaining a cross of as noble blood as ever coursed the veins of the horse, that advantageous offers have been made for his services in the race horse region, this will be the only Season he can make here.

MACDUFF.

The season to commence the first of March, and end the first of July. The subscriber deeming a newspaper puff of no advantage to a horse that is so well known, and so fully able to recommend himself as *MACDUFF* certainly is; will merely state that he is a beautiful chestnut, full 15 hands 3 1/2 inches high, and was got by the famous running horse, Washington, he by *Timoleon*, he by the justly renowned horse *Old Sir Archy*; *McDuff*'s dam, *Perfection*, was got by *Old Sir Archy*; her dam by *Bell Air*; her great grandam by *Cedar*; her great, great grandam by the imported horse *Why Not*, which was a thorough bred mare, &c. &c., tracing to the finest stock of England. As to *McDuff*'s racing performances, see *Turf Register*, vol. 1, pages 562, 564, 565, Vol. 11, pages 146, 251, 254, 303, Vol. 111, pages 99, 198, 314, 368, from which it will appear that he was a long time on the turf & competed with some of the best horses in America always with credit, although notoriously in unskillful hands. View him and you will be delighted with his beauty and symmetry of form—Try him and you will be pleased with his colts.

N. B. *MacDuff*'s stand at Salisbury will be at the stable of Col. R. W. Long, Mansion Hotel.

JOBBPRINTING Of every description done AT THIS OFFICE.

Important Information TO THOSE SUFFERING WITH Cholera, Morbus, Diarrhea, Summer Complaints, Colic, Cramps, and Spasms.

THE utility of R. S. BERNARD'S Remedy for Cholera has ceased to be a problem. Experience, the only sure foundation of Medical, as on all other kinds of knowledge, has established it as a fact, that the judicious composition of the Remedy, its admirable adaptation to the various indications which occur in the course of those diseases of the stomach, liver and bowels, usually designated as Cholera complaints, and the Proprietor to anticipate from the first of all experience, however, that of men competent to discriminate accurately and to decide justly on the effects of a medicine, must be the best; and with such in its favor, even the most judicious in these matters, must lay aside these prejudices.

The indications of cure are—to tranquilize the stomach and bowels; to relieve the excessive puking and purging; to allay the increased irritability of the intestines, giving rise to increased peristaltic motion; to relieve that tenacious state of the bowels which is often the attendant of choleric cases sometimes accompanied with inflammation and ulceration; to overcome the spasms; to equalize the circulation, and to restore warmth to the surface; to remove congestion of the internal organs; and to relieve the morbid irritability of the brain and nervous system—all of which has been effected by the use of Bernard's Remedy for Cholera; certificates of which have been given at various times of the efficacy in cases widely different in their origin and progress of each other.

Look to the certificates; they are the best evidence that can be given.
The commendations which several liberal and intelligent Physicians have bestowed upon the Remedy, have already been published, and the subscriber has now the gratification of adding the following from a most respectable practicing physician of Somerset, Va.
R. S. BERNARD
Somerton, May 14, 1837.

Mr. R. S. Bernard.
Dear Sir—This is to inform you I have tested the efficacy of your Remedy for the Cholera in several instances that have lately come under my care, and that its effect evince it to be a judicious preparation—one eminently serviceable. I will say altogether competent to cure the disease for which it is recommended. I feel no hesitation, therefore, in declaring that for the treatment of such disorders, I shall regularly dispense your Remedy from my office, and would recommend it to be kept in all families liable to these dangerous attacks.

You may use this certificate as you will.
Yours, very respectfully,
W. L. PARHAM
As agent for Bernard's Cholera and Diarrhea Medicine, I call the attention of the public to the certificate below from one of the most respectable gentlemen in the state; and I particularly call their attention to the one given by a gentleman in this town—and if it were necessary, I could produce a half dozen others from Petersburg, who have tried the medicine within two weeks past.

EDW. P. NASH
Mr. Edward P. Nash, Agent for Bernard's Cholera Medicine.
Dear Sir: I feel it a duty I owe to the proprietor of the above medicine, as well as to the public generally, to inform you that the bottle of Cholera mixture which I bought at your store a few evenings since, has entirely cured me of a severe Diarrhea. The cure was effected in taking only two doses, and as I had tried many other remedies without the least effect. I am fully of the opinion that the medicine here alluded to is every thing that it is said to be.

JAS. S. WALLACE, Petersburg, Va.

Who will neglect to supply themselves with Bernard's Remedy for Cholera, when it is so fully proven to be efficacious in all the diseases for which it is recommended? In no case has it failed to cure the most obstinate attack of summer complaint made upon children. In one instance a permanent cure was effected upon a child in this place, after the summer complaint had put it (as thought by the doctors) beyond the power of medicine to relieve. It was such an aggravated case that the child had in the course of one day and night, sixty three evacuations from the bowels. Yet one bottle proved a sovereign remedy.

This valuable Medicine is for sale in this place by J. & W. Murphy, in Lexington by John P. Mabry, in Charlotte by Williams & Boyd.
