

POETRY.

From the Georgia Journal. THE LAST INDIAN, By M'KENDREE.

A noble race, but they are gone, From their old forests broad and deep, And we have built our homes upon The soil, wherein their fathers sleep; Far in the west a nome they've found, With forests broad, as wild as free, No pale face hems that home around, As in the woods of Cherokee.

A western wild, a hunting ground, Beyond the Mississippi's roar; There hill and dale with game abound, And they may hunt forever more. Deep rivers there in glassy waves .-Smooth lakes and streamlets free, Abound with fish and they may have Much better than in Cherokee.

Widely the forest child may roam, No hand to circumscribe his course, Contented find his newer home, By emigration none the worse; Warrior with warrior there my meet, Friends in each other's face may see, Vie in their sports with footsteps fleet, And think no more of Cherokee.

In supplication they may bow, That the Great Spirit of their race, Will to his forest children show, The approbious smilings of his face; The aged sire may inculcate, Upon the young that they are free; And not oppress'd by those they hate, As once they were in Cherokee.

A noble race but they are gone, From their old forest broad and deep, And we have built our homes upon The soil wherein their fathers sleep ; Their fountains slake our thrist at noon, Upon their hills our harvest waves, Our lovers woo beneath their moon, Ah ! let us spare at least their graves.

THE GREAT BELL OF MOSCOW.

The Russians at avery early age appear to have exibited a singular taste for massive metal castings, calculated to be of more show than utility. This is particularly the case in relation to cannon and bells-the great bell of Moscow, being undoubtedly the largest in the world. The colossal magnitude of the Russian bells will be more easily seen by comparing them with athers in Europe of the largest size. The great bell of St. Panl's weighs 8,400 pounds-the great bell of Lincoln, 9.894 pounds-Great Tom, at Christ's Church, Oxford, the largest bell in England, weighs 17,000 pounds,-the bell in the Pallazzo Vechio, at Florence, suspended at 275 feet from the ground, weighs 17,000 pounds -the great bell of St. Peter's at Rome, weighs 18,607 pounds -the great bell at Erforth 29,223 pounds-the bell at Rouer, 43,000 poundsand this is probably the largest bell in any country, excepting Russia. The bell in the tower of St. Ivan, at Moseow weighs 160,000 pounds, and the fallen great bell, which lies at the foot of the same tower, weighs 432,772 pounds, in the Literature of our country. This prodigy of the Kremlin was fractured by its fall, a large piece having broken from its side. Its height somewhat exceeds 21 feet, and its diameter at the tim is 22 feet. Its metal is calcolated by Dr. E. D. Clarke to be worth £66,-000. It has lately been disentombed from the pit, in which the force of its fall and its weight, continually working on a loose soil, had buried it, and over which a vault had been built.

Boston Transcript.

DEATH OF GOVERNOR CLARK.

We learn from the St. Louis (Mo) Republican, that Governor William Clark, the companion of Meriwether Lewis in the celebrated pioneer journey across the Rocky Mountains, died on the morning of the 1st inst. at the residence of his son in that city. Gov. Clark was in the 69 year of his age, and at the time of his death, is supposed to have been the oldest American settler residing in St. Louis. It is a high eulogium upon the honored dead, which, is pronounced by the Missouri Republican :- Gov. Clark well understood the Indian character, and his whole intercourse with them was such as won their most unbounded confidence. His name is known by the most remote tribes and his world was reverenced by them every where. They cing regarded him as a father, and his signature which is known by every Indian, even in the most distant wilds of the far west-wherever shown, was respected."

At the latest dates, wheat was selling at the Courier, with the Works either of Capt. 65 cents per bushel at Maysville, Ky. As experienced miller states that wheat crops of Kentucky this season are better, both as respects quality and quantity, than they have been for 10 years past.

During the late month of August, there were 2,500,000 pounds of merchandize entered at Cleveland for shipment inwards on the Ohio Canal.

During the month of July, the tolls on the Ohio Canals were \$52,458, being \$9,000 more than in the same month of 1837.

CURE FOR WARTS.

A subscriber in Canada says-" When I was a school-boy, I had a large wart upon my thoms. My teacher told me to rub the wart against my front teeth as soon as I awoke in the morning, for a number of mornings, and it would soon disappear. I obeyed him, and my wart disappeared in less than two weeks, without pain, ex cept in the act of rubbing. I may add that have had warts at times since, (being now fifty foor years of age,) and the same means applied for a short time always removed them.'

Gennises Farmer.

NOTICE.

THE Subscriber has been engaged for upwards of ten years in the improved plan of BUSHING MILLS, and other Machinery worn, or heated. By his method, Irons of either opright, or horizontal Gudgeons as also the bush for the Spindle and Ink, run much lighter and steadier than those on the old plan. The great trouble wedging and repairing the Spindle, Cranks, and Gudgeons are saved when run on, or in those Bushes and Inks.

Any person wishing to procure machinery of this kind can be supplied by making application to the Subscriber by letter, at Mecksville, Davie county, N C.

L M GILBERT.

Sept. 20, 1838 .- 3w9 The Subscriber would refer any one wishing information on the subject, to DR Aus-TIN, one of the Editors of the " Carolinian"

Lexington Female School.

THE Patrons of the Female School at Lexington, have the pleasure to inform the public, that they have secured the services of Miss SARAH A STEARNS for the next vear-Six or eight advanced pupils can be taken into the School. The superior qualifications of Miss Stearns and her populatity as an instructress in the higher branches of an Academic days. course, recommend her School in the strongest manner to those who wish their daughters instructed in a thorough course. The School will commence on the 1st of October, and it is very desirable that entrances should be made at that time or very soon after -Terms such as are usual in institutions of the kind September 22, 1829-3w9

PETER'S VEGETABLE PILLS.

HESE Pills have long been known, and appreciated for their extraordinary and im mediate powers of restoring perfect health, to persons suffering under nearly every kind of disease, to which the human frame is lia-

In many hundred of certificated instances they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably & infallibly proved that it has appeared scarcely less than miraculous to those who were unacquainted with the beautiful philosophical principles on which they are compounded, and on which they consequently act.

The proprietor rejoices in the opportunity afforded by the universal diffusion of the daily press, for placing his VEGETABLE PILLS, within the knowledge and reach of every individual in the community. Unlike the host of pernicous quackeries, which boast of vegetableingredients, these Pills are purely and solely vegetable, and contain perther Mercury, Antimony, Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some emineut pharmaceutical chemists; are altogether unknown to the ignorant pretenders to medical science, and were never before administered in so happily efficacious a combination.

Wherever these pills have been once introduced into a family, they become a standing remedy, and are called for again and again, which is sufficient proof of their good quali-

It is a truth, that almost every person who has ever used Peters' Vegetable Pills, recommend them to their friends, & it is from this circumstance alone, that they have gained such an unrivalled reputation.

When taking according to the directions accompanying them, they are highly beneficial in the prevention and cure of billions fevers, fever and ague, dyspepsia, liver complaints, sick head ache, jaundice, asthma, dropsy, rheumatism, enlargement of the spleen, piles, cramp and bilious cholic, female obstructions, heart burn, pleurisy, furred tongue; distention of the stomach & bowels, incipient diarrhœa, flatulence, habitual costiveness, loss of appetite, blotched or sallow com plection, and in all cases of torpor of the bowels. when a cathartic or an aperient is needed. They S or more to make a race, to name and close as have the testimony of the whole medical proed against them.

Prepared by Jos. Priestly Peters. M. D., at his Institution, for the cure of obstinate diseases, by means of Vegetable remedies, No. 129, Liberty street, New York. Each box contains 40

Pills-price 50 cents. More than two millions of boxes of these celebrated Pills, have been sold in the United

States since January 1835. Dr. Peters has received upwards of fifteen hundred certificates, all given in consequence of the good done by his Medicines.

This valuable Medicine is for sale in this place by J. & W. Murphy, in Lexington by John P. Mabry: And can be found in almost every Town & Village in the Southern country. N. B. Merchants can be supplied at New York prices by applying to Williams & Boyd of Charlotte, sole Agents for 10 or 12 Counties in the Western part of N. Carolina. Salisbury, Nov. 4th, 1837-12m16.
