The article published below, concerning the new and popular doctrine advanced by the illustrious Goelicke of Germany, cannot fail of exciting a deep and thrilling interest throughout our country.

(Translated from the German.) LOUIS OFFON GOELICKE, of Germany, THE GREATEST OF HUMAN BENE-FACTORS.

Citizens of North and South America.

To LOUIS OFFON GOELICKE, M. D., of Germany, (Europe) belongs the imperishable honor of adding a NEW and PRECIOUS DOCTRINE to the Science of Medicine-a doctrine which. though vehemently opposed by many of the faculty, (of which he is a valuable member,) he l tive.

proves to be as well founded in truth as any doctrine of Holy Writ-a ductrine, upon the ve rity of which are suspended the lives of millions of our race, and which he boldly challenges his opposers to relate, viz: Consumption is a disease always occasioned by a disordered state of Vis Vitce (or Life Principle) of the human body : I Poften secretly lurking in the system for years before there is the least complaint of the Lungs _____ and which may be as certainly, though not so quickly, cured, as a common cold or a simple headache. An invaluably precious doctrine this, as it imparts an important lesson to the apparently healthy of both sexes, teaching them that this insidions for may be an unobserved inmate of their "clayey houses" even while they imagine themselves secure from its attacks, teaching them that THE GREAT SECRET IN THE ART OF PRE SERVING HEALTH IS TO PLUCK OUT THE DISEASE WHILE IN THE BLADE AND NOT WAIT TILL THE FULL-

GROWN EAR. This illustrious benefactor of man is also entitled to your unfeigned gratitude, and the grat-

which they have heretofore believed incurable They frankly confess, that it is the most unac countable in its action of any medicine ever prepared by human hands.

Such is the demand for this mighty health restorer in Germany, that Mr. Anthony Strumer, one of our bookseliers, sold in one month; 147 phials, being more than six packages; Mr. E. P. Manhattan, grocer, 128 ; Mr. James Sevier, inokeeper, 105; and not a single agent, who has made returns of money to the depositor7, has sold less than 100 per month, since he received his appointment,

An association of gentlemen, with Mr. Manhattan at its head, and comprising twenty agents, recently offered Goelicke \$40,000 for the ORIGINAL RECIPE for preparing the Sanative;but this was refused.

Mr. Manhattan has cause to prize this medicine, since one of his daughters, whom Dr. Van contempt, believing and openly pronouncing him Gautt attended in a long sickness, and whom he to be a base imposter and the prince of quacks. acknowledged to be in a " confirmed consumption," has been perfectly cured by using only 'three quarters of a phial.' Also a young man, who was formerly a clerk in his store, and who had, for several years, been subject to fits, was tess patients; and we now deem it our bounder restored to uninterrupted health, on taking than a half phial. Several other very important. cures have been disinterestedly reported to the public by the beforenamed physicians, since their conversion to the Vis Vitæ doctrine. as will be seen by their annexed testimuni-

Of most medicines before the public, the patient is directed to 'take five or six bottles, and if these do not cure; persevere in the use of ten, or 15; but not so with the Matchless Sana-

It is here worthy of remark, that in almost every instance where cures have been wrought by this remedy less than a phial has removed the disease-and, in no case, whether resulting to tally or successfully, has a patient used two whole phials.

The Sanative is above all estimate, as a general preventive of CONTAGIOUS DISEASES,-and by many it is said to be a neverfailing antidute, though the inventor does not clothe it with such infallibity.

Masters of vessels, who may wish to finuish themselves and their grows, each with a potal of it, can obtain the article of my agents ; at 8 percent, discount by the packages.

All persons who live in unhealthy climates; whether hot or cold,-all operatives and others connected with manufactories and all who lead sedentary and inactive lives, are exposed to va rions insidious maladies, which may be silently preying upon their constitutions while their countenances wear the glow of bealth, and while they suspect no danger nigh'-maladies which an occasional use of the Sanative would check in the bud.

A certificate from three members of the MEDI CAL PROFESSION in Germany, in Europe

We, the undersigned, practitioners of medi-cine in Germany, are well waare that, by our course, we may forfeit the friendship of some of the faculty, but not of its benevalent members who are uninfluenced by selfish motives. The we shall refrain from an expression of our opin ion, either of the soundness or unsoundness of Dr Guelicke's new doctrine, we are happy to say that we deem his Santive loo valuable not to be generally known-for what our eyes behuld and

our ears hear we must believe. We hereby state, that when Dr Louis Offon Guelicke first came before the German public, as the pretended discoverer of a new doctrine and

a new medicine, we held him in the highest Bat, on bearing so much said about the Sanative, against it and for it, we were induced from motives of curiosity merely, to make trial of its reputed virtues upon a number of our most hopeless | duty (even at the expense of our self interest) publicly to acknowledge its efficacy in coring not only consumption, but other fearful maladies, which we have heretofore believed to be incurable. Our contempt for the discoverer of this medicine was at once swallowed up in our ulter

astonishment at these unexpected results ; and, as amends for our abuse of him, we do frankly confess to the world, that we believe him a philanthiopist, who does honor to the profession and to our corry which gave him birth. The recent adoption of this medicine into

some of our European hospitals is a sufficient guaranty that it performs all it promises. It needed not our testimony, for wherever it is us ed, it is its own best wirness

MATCHLESS SANATIVE.

AVID S. ROWLAND, the General A. Inerican Agent for this mighty medicine, (invented by the immortal Goelicke of Germany) has great pleasure in publishing the following highly important letter from a respectable gentleman in New York, which he has received, with many others of a similar character-also

WHY are some of the American Phy-L sicians making such strong efforts to PUT DOWN the Matchless Sanative ? Let the oblic answer.

2. Why did the German Physicians at first OPPOSE Dr Goelicke, and afterwards adknowledge him to be a GREAT BENEFAC-TOR to mankind ? Let the public answer.

S. What medicine BAS cured, IS curing, & WiLL cure obstinate diseases which the physicians CANNOT cure ? Let facts answer. ing

4. What kind of apple trees are STONED and CLUBBED ? Let farmers answer.

5. Why are the physicians constantly PEL TING the Sanative and saying nothing against OTHER medicines? Let their day book answer.

6. How did Dr Adams attempt to convince Mr Webster, who had bought a phial of the Sanative for a member of his family, that it was a DANGEROUS medicine? Let one of the daily papers answer. " The recent experiment which Dr Adams tried with the Matchless Santive, in giving a large dose to a dog, without MILLING HIM. clearly proves that the Sanative was made to cure and not to KILL "

7. Why do some physicians SECRETLY boy the Sanative and MIX it with their own medicines, which they use in their daily prac tice? Answer-that they may have the CRED. IT of the CURES.

S. Why is a sick young man belonging to one of the first families in Boston, now using the Sanative without letting the attending physician KNOW it ? The recovery of his HEALTH will shortly answer.

9. Why are physicians trying to persuade agents to give up SELLING the Sanative ? Anwer-they know, if it should be for sale in every town in America, they would be obliged to resort to SOME OTHER BUSINESS or else STARVE.

10. Why will the Matchless Sanative soon be the ONLY medicine used throughout the world? Let PHYSICIANS answer.

11. Why did a certain physician try to IIIRE an Editor of a paper to write-sgainst the Sanative ? Let his CONSCIENCE answer.

The above precious medicine (the original dis covery of Dr LOUIS O. GOELICKE, of Germany.) is for sale, wholesale and retail, in Boston, by D. S. ROWLAND, General American Agent for the discoverer, where numerous letters, certifying the good effects of the medicine, may be seen,

Also, for sale by retail, in most of the towns in America.

EPIn places where there is no Agent, the Postmaster or any STOREKEEPER who shall write to the General Agent at Boston, will immediately be appointed an agent.
