for her labor; and finally came to the conclusion to seek her old home.

POETIC PROPHECY. I have frequently observed says the Washing. on correspondent of the Newark Sentinel ladies' albums circulating through the House and Senate Chamber, with the view of collecting the autographs of the members. One this morning, belonging to a young lady of _____, attracted con siderable attention. Upon examination, I found is contained a page of well written poetry, dated 23d July last, in the tremulous hand-writing of John Q. Adams. This piece was descriptive of the wild chaos at preesat spread over our polit cal affairs and anicipated coming events which would bring order out of disorder. The closing verse was as follows :

"Say, for whose brow this laurel crown? For whom this web of hie is spinning? Tore this thy Album upside down.

And take the end for the beginning."

The meaning of this was somewhat mystical. but by turning to the back of the book, and inverting it, on its last page a peice was found with the signature H.CLAY! Yours &c.

great store ;

THE WRECK. BY A POST-CAPTAIN. 'Again the dismal prospect opens round,

The wreck, the shore, the dying, & the drown

Having stranged my affairs, and taken a farewell of my friends and arquaintances. I sailed from Quebec in the Medots, and with heartfelt leelings of delight anticipated returning to my mative home, after ten years absence from England The vessel was in excellent trim, the crew in high order, and her captain steady and skilful ; -hesides myself, there were embarked, Mr. P-and his daughter, as passengers.

With light hearts, we dropped down the magnificent St. Lawrence, having all say spread to a precze, and enjoyed the noble prospect which our advance to either shore presented. As we approached Anticosti il suddendy fell calm; and though we were still at some distance, I felt uneary, for having often sailed about the gulf, I was well aware of the risk which attends a proximity to that desolate island. Besides the uncertain ty of the reciprocating currents, its coast are extremely dangerous being lined with reefs of flat limestone, which extend out in fifty fathoms water, so that there are few spots in its whole extent, where a vessel can anchor.

Shortly after the wind had died away, a the shore, from the south-west,-the common indication of a gale from that quarter Return to Slavery Voluntarily .- The ty fathoms water. Yet there was no chance with which his mind was agitated. Philadelphia Gazette of the 14th inst. says; of their holding, but what might arise from Yesterday application was made to Judge their hooking in some crack in the rock, Randall, of the U. S. Court, at the instance which was so perfectly clean, that an armed boats were washed overboard, and every for his discharge and certificate as Bankrupt, of a black woman, a slave, for a certificate deep-sea lead did not bring up a particle of wave seemed to make a deeper and more to enable her to return with her master to sand. The anchors, therefore, could not fatal impression upon her, for she rose to the South .- After the hearing of the testi- hold; but though they came home, they SAMUEL REEVES, of Salisbury, Rowan pressed gratification at the decision of the and the chain cables retar ed our progress county, for his discharge and certificate as Bank- Judge. From ber statement it appears she towards the shore, and afforded us hope city, and was onable to realize any thing sed by the swell, would arrive before any direction of Cape Rovier.

inclined to lough at the terror she had man- withstanding the extreme darkness of the

long asleep, when I awoke and found the vert the fate that threatened them in the un.
ship lying nearly on her beam-ends; and avoidable destruction of their vessel.

When the hower cables parted the ship the members for the borough, with a request by the rapid tumult of water past her sides, I When the bower cables parted, the shir the see, increasing with it, rose literally could withstand the rush of waters. A keep the ship close to the wind, but the sea canted her head off, so that she made more lee than bead-way, and the rigging was ter-

ribly strained in the effort. As the morning broke, the gale scemed, if possible, to increase, the sky was one A tremendous gust now split the foresail into ribbons, while, at the same moment, a ses struck her with a force that made every timber and plank tremble. I grasped a rope clinging for safety, heard a wild cry of agone break through the howling of the storm; for, as the vessel righted, the foremast had enapped short off, and crushed several unhappy men in its fell.

The captain and his crew managed so admirably that the ship was prevented from broaching to; and in order to relieve the wildness of the belm, a hawser was veered over the stern. Broad-axes and tomabawks were distributed, and while one party proreeded to clear away the wrenk of the foremost another rigged the pumps, and delivered the water which had been pouring in. These exections were successful in essing the ship, but we discovered, with some dis

may, that she had opened to the force of the weather, so as to make it requisite to keep the pumps incessantly going.

I now descended into the cabin, where tound all was terror and confusion, every ticle that could move having rolled into the lee scuppers, and the water was stream ing in at every seam. Poor P-, in deep inguish, was endeavoring to soothe the a large of his daughter, while the interesting gul seemed to be equally intent upon con cealing from her father the extent of he feats. My appearance, and the tidings brought, that the ship was easier, begar, in some measure, to quiet their apprehensions; heavy rolling swell began to set towards and I strove, by treating the matter with at fected indifference, to restore their full con fidence. The captain, too, soon afterwards This drove us so fast towards the island that | joined us, and made some ark ward attempts there was no alternative but to drop the an. to be cheerful; though I could perceive, by chors, which was done immediately, in for- his vacant restlesences, the deep concern

Another heave sea having struck the ship

I returned on deck. At this instant, the each with a dull and exhausted motion, as mony of a gentleman who knew her to be a kept the vessel's heard to the sea, which though about to surrender to the force of slave, the order or certificeate was granted .-. had now become so heavy, that she pitched the opposing elements. And as the water She was very anxious to return, and ex- bowsprit in. The weight of the anchors within was gaining upon her, in spite of pumping and bailing, it became evident that my babe l' burst in agony from the poor, broken we were reduced to extreme danger. Even the hearted mother, as she knelt over a little coffin pipt, at Wilmington, on Monday the 31st day of has been at work for a long time in this that the wind, which we knew was precur- seamen began to look aghast at the prospeet of foundering, when, towards the close serious estastrophe could take place. The of the day, LAND was announced as being situation, however, became truly alarming; in sight under the lee beam. This discovfor, at 6 P. M. we had driven within half a ery gave great joy to all on board except mile of the reefs, on which such a surf was myself, for I was too well equainted with breaking, as left us no doubt of the result, the iron-bound shores on either hand, not if some change did not occur in our favor. to know full well the danger of approach-At this critical time a man discovered, from ling them. In this instance, however, it was the mast-head, the expected gale on a case of desperation, for with the probathe horizon, approaching rapidly, the bility of otherwise sinking, the slightest waves being capped with form. We could chance of anchoring or even of running on distinctly hear it roaring as it advanced, and shore, was considered preferable to keeping never did any sound give me more pleasure the sea. In this state, we drove past a rug-The men behave nobly, both anchors were ged head-land, and perceiving a sort of hay saved, and the Medora was again under a inside it, we tried for soundings, and findpress of sail in an incredibly short space of ing bottom with thirty fathoms, the ship sweet lambs as pure offerings at the shrine of time. We contrived to carry on all night, was rounded to, and both the bower and Heaven where she may one day again clasp and every time we tacked, Massey's sound | chors let go; the cables were then veered som. American Engle. ing machine assured that we were deepen- away to a long range, and the stream and ing our water, and claming off shore in the kedge dropped under foot. The ship rode The Providence Evening Chronicle states heavily, and pitched immoderately, but all that Thomas Hoskies, of New Hampshire. At day-break it was found that we were at the top-hammer being taken off, there were and emiss-ty from Dorr, has been arrested least a dozen miles to windward of Anti strong hopes that she would hold her on on a warrant charging him will an attempt a meaningless chat. We have sometimes costi, with a brisk gale to work with. This till the morning. But to me the expectation to excite insurrection to the State, and with gladdened all parties, especially in the cab- of riding out the tempest appeared frail, for being the bearer of a communication to cer- tion going on for half an hour, each talking in, where the depression of spirits, occasion. the wind continued to rage with unabated tain persons from Thomas W. Dorr. an o-The Highest Mountain in the U. sky, and the difficult navigation around us, ver all, and the cables snapped like twine. A few hundred dollars given in a lump is somemade me still apprehensive, though I said "The Land receive us;" ejaculated the capthing to tell of; six pence a time, a creen times nothing that might be disheartening. This tain, "it is now all over with the Medora," a day, is never thought of -Boston Courier. continued a couple of days, and we had Cries and growns burst from the lips of all passed the Magdelen Islands and New- and despair paralyzed every breast. This foundland, when my fears subsided; and however, was only a momentary effect, for after walking the deck to a late hour, each individual quickly became sensible match; was witnessed in the neighborhood of that it was more than ever necessary to act Birmingham, on Tuesday, the 12th altimo.—gaining the open ocean. I had not been with discretion and farmness, in order to a. About 300 pigeons belongibg to merchants and foundland, when my fears subsided; and however, was only a momentary effect, for

knew that a heavy squall must have caught bung for a short interval by the stream and her. There was much confusion above and kedge, but then began to drive, broadside below, and the clattering of topes and blocks, on, dragging them along with ber. Every with the screaming of the wind, and the man now clung to a rope, determined to recreaking of the timbers, announced the main by the ship while she held together, violence of the assault. I harried immedi. an effort of some difficulty, as the sea was ately on deck-the night was pitchy dark, now making clear breaches over her; and the wind had freshened to a tempest, and it was only the struggle of desperation that mountains high; the top-gallant mast were mournful silence ensued among the men, sent on deck, the jib-boom run in, sprit- but the horrid brawl of the tempest was brosail-yard placed fore and aft, preventer- ken by piercing shrieks from the cabin; at braces rove, the hatches batten down, and the same instant, the vessel struck, and pigeon reaching its destination at half-past ten. every thing got as saug as circumstances was dashed with such violence on the reef would allow of. They then endeavored to that the mainmast was thrown over the side and the rodder forced upwards. Fortunately, she canted to leeward, or every soul must have immediately perished; but she continued to beat bard, and we heard, by the cracking of her timbers below, the progress of her dissolution. All hope of saving dense cloud, and the rain fell in torrents, even life had now vanished, and recommending ourselves to the protection of the Almighty, we began to consider ourselves as beings of another world. The ill-fated Medora lay struggling upon her beam-ends near the mizzen-rigging, and while thus groaning, writhing like a giant in the agonies of death; and the darkness that surrounded us seemed the darkness of the grave! Oh, with what auguish did we hear the cries of those who were successively washed away? by the breakers that best over us-at intervals we saw their obscure forms for a moment while struggling on the white from of the billows, and the next instant they were gone forever!

As it was impossible that the ship could hold together much longer. I determined to get my two forlorn fellow passengers on deck, as the only prospect however slight of their reaching the shore. With this intent I and another hand, made our way through the skylight into the cabin; the lamp was still burning, and threw its dim rays so as just to lighten up the 'darkness visible' of the gloomy scene. The sad father, propped by the fallen furniture, supported his almost inanimate daughter in his arms. He raised his head as we approach ed, but I shall never forget the careworn expression, and sickly paleness of his counenance. His heart had fainted within him not that he feared to die but he was agitaed at the approaching fate of his beloved child, to whom every crash of the timbers sounded like a summons to eternity. We slong them both, and had them secured under the weather bulwark, where they joined in prayer with those next them. A wild scream was now heard from forware. A tremendous sea struck the ship, rending her fore and sit, and engulphing us in its yours, dread shyss. There was a long protracted yell; it grew fainter, and all was hushed, save the howling of the gale, and the rolling of the billows. Two of the seamen alone, besice myself, were saved.

A House of Mourning .- Passing along one of the streets of our town a day or two since our attention was arrested by the mournful shrieks of a female. They were so mercing and laden with angoish, that we approached the house and entered it, hoping it might be in our power to assuage the sufferings of the disconsolate. "O! that I had never been a mother! kissing the marble corpse of her beautiful babe. Death had passed lightly over the budding flower, nor marred its loveliness as he plucked it from its parent's bosom. Brantiful in death, dv to-day, the disconsulate mother hung over her helpless innovent, bathing it in tears and caresses, with en arder of affection and bitterness of anguish, which a parent only can feel. It was the third little lamb that had been snatched from her bosom within a few weeks. Truly was it the house of mourning. A scene of deeper, more searching anguish, nevel stired our sympathies. We would have proffered consolation to the bruised and broken spirit, but there was none.-Nothing bot the searching spirit of the Almighty could have reached the dephs of her affliction, and given comfort to her thrice-broken heart. But the Angel of Death has borne ber them to ber now disconsolate and bleeding bo-

Miss P-, in the joy of the moment, was glare of the lightning discovered to us, not- cellency the Governor of New Hampshire. Constitutionalist.

No men labor harder than printers-no me are more scantily paid in proportion to the wear and tear of mental and physical constitution. and tear of mental and physical constitution—
no men in this community we are quite certain,
are called upon for so large an amount, in proportion to their means, of gratulious services—and
we believe that no men perform those unpoid
services with more cheerful alacrity.—I he
boldness or indifference with which some people lay an assessment upon newspaper proprietors would justify the inference that they supposed types and press to cost nothing, journey—
men and apprentices to labor and live without
food or clothing, and paper makers to furnish a
costly material without ever asking for payment.
We have no doubt that each of the proprietors
of the daily papers of this city, give enough
annually in the way of advertising for persons
and socities who are able and ought to pay, and
in newspapers for which he gets beither credit inclined to leagh at the terror she had manilested; while her father was so pleased
with the cool conduct of the seamen, that
he declared he would make each of them a
present on anchoring in England.

Meantime the wind strengthened, but as it
veered westward in our favour, the hilsrity
continued, and we stood across the Galf of
St Lawrence in the hope that all danger

withstanding the extreme darkness of the
night, a reef of frowning rocks, whitened
with bleakers, immediately astern of us.

After contemplating the awful scene before us with a dreadful anxiety, the ship's
company, who were greatly worn from fatigue, were called aft to snatch a lasty resky high, as the prince of philanthropist, and
commenced ere the ship trembled and recethis came would ring along the Atlantic from

> "Flight of 300 Carrier Pigeous from Bir-mingham to Anticerp.—An extraordinary and that he would see them fairly started at 6 o'clock on the above morning."

> This request was accordingly complied with, the whole of the pigeons having been started on their journey almost simultaneously, from Mr. Monta's residence at Handsworth, and after making some gyrations in the air, they took an easterly direction, and favored by a fresh breeze, they were out of sight in a few minutes.

Mr Mun'z has since received intelligence of he safe arrival of the whole flock, the first pigeon having reached Answerp at half past nine o'clock the same morning, followed in rapid seccession by the others, in fives and tens, the last

Estimating the distance from Birmingham to Antwerp (measuring in a straight line) at 300 miles, and allowing for the difference in time between the two points, the first bird would appear to have travelled at the surprising velocity of 90 miles per hour! It is not the least singular fact connected with the match, that amongst so large a number of pigeons not one should have wandered from its forward course. Foreign Paper.

A FAIR OFFER.

Make a full estimate of all you owe, and of I that is owing to you. Reduce the same to note. As fast as you collect, pay over to those you owe; if you can't collect, renew your notes every year, and get the best security you can. Go to business diligently, and industrious ; lose no time, waste no idle moments-be very prudent and economical in all things-discard all pride but the pride of acting justly and well-be faithful to your duty to God by regular and nearty prayer morning & night-attend church and meeting regularly every Sanday, 'do unto all men as you would be done by. If you are too peedy in your circumstances, to give of the poor, do whatever else you have in your power to do for them cheerfully -but if you can, uiwave help the worthy poor and unfortunate. Pursue this course diligently and since tely for seven years, and, if you are not happy, comfort able and independent in voor chroum tances. come to me and I will pay your debts. Dr. FRANKLIN

A SENSIBLE IVO VAN.

To the Point .- A late number of the N. Y. Express contains the following straight forward decisive, and at the same time eloquent reply of a Miss in her teens to a young gentleman who had solicited her heart and hand: It may serve as a model: -

Dr. J. I received yours of the 16 h, inform.

ng me of your attachment for one who is no less attached to you. Having consolted my parents find they have no objections, knowing it was contract for life I have considered well the subject, and have come to the conclusion to accept vonr offer. It is something I did not except, but since I have been the object of your choice may I prove worthy of your love. Very sincerely

SMALL TALK.

We give the following as a specimen of the truly edilying conversation, frequently beard in "almost say quantity" at our watoring places and fashionable reserts generally. It was got up by the New York Herald, and particularly calculated for the meridian of Washington city, but will suit any and every latitude :

"Ab, Mrs. * * *, frunning up and shaking hands,) I am very glad to see you in-

"Well, how do you do?" "Very well, I thank you. It is very win 'Yes, very windy. I thought it would

'So did L. Very windy. But it has leared off quite pleasant. There are a good many people here to

"Yes, a good many." "We have a great deal of rain lately." 'Yes a great deal of rain.'

"Where are you staying my dear?"

Thank you. I am glad to see you look Thank you. I am very glad, Mrs. * . to see you indeed.'

Thus they run on, the male exquisites frequently taking a part, and making Miss Nancys of themseives, by helping out with incessantly all the while, and when the thing came to be 'cyphered out,' and reduced down to the standard of good hard sense. 476 feet above the level of the ses, by actual sel. All was confidence and cheerfulness : herrors of our situation, the occasional individuals, one of them an aid to his Ex. not a word had been spoken .- Georgia
