Something New.

The Subscriber

TAKES this method of informing his friends and the public, that he has purchased the

SMITH SHOP,

formerly owned by Mr. Frederick Mowery, in the Town of Salisbury, which he intends here after to carry on in a manner altogether new in this part of the country. He is not only a Smith in the common understanding of the term, but he is an actual Iron King, being able and prepared to put iron into any shape or temper, whatever. All kinds of MACHINE WORK, turning of MILL SPINDLES, the casting of INKS or GUDGEONS, &c., done at the shortest notice, and in first rate style. He will also build and repair COTTON GINS or THRESHERS, or indeed any kind of MACHINE WORK, that he may be called upon to do. He respectfully solicits a trial.

W. H. WILLIAMSON,
Salisbury, Sept 3, 1842—116

NOTICE.

ALL persons indebted to the Subscriber, by note or book account, are hereby notified to come forward and settle the same, by the 21st of this month; and all those failing to do so, need not be surprised if they are called upon by an officer, and all those having claims will present them immediately for payment.

A. MATTHEW,
Salisbury, Sept. 19, 1842—5-9

DR. KUH'L'S MEDICINES: RESTORER OF THE BLOOD,

FOR

CHRONIC AND OTHER DISEASES.

WHETHER produced by bile, phlegm, from internal morbid matters, arising from badly cured old disorders; from the use of mercury, calomel, bark, &c., or (in females) from the change of life, as specified in the Pamphlet.

ANTI-SYPHILITIC STRUP—This medicine is in all Venereal Disorders, a certain remedy.

AGUE MIXTURE, (in liquid and in paste), celebrated for its speedy and perfect removal of Gout, Rheumatism, &c.

GOLD-MINE BALSAM, for Bilious and Nervous Affections, Colds, &c.

AROMATIC EXTRACT, a Liniment for Indigestion, Coldness in the stomach, Numbness or Weakness in the limbs, Rheumatism, &c.

DEPURATIVE POWDER, for Bilious Fever, Headache, Diseases of the Eyes, &c., which is to be taken in the Restorer.

JAPAN OINTMENT, for Piles, which is to be applied besides the Restorer.

BENZOIN OINTMENT, for Tetter, Ringworm, Salt Rheum, Scaldhead, Eruptions of the skin, and foul ulcers; is to be applied besides the Restorer.

UNIVERSAL OR STRENGTHENING PLASTER for Diseases of the Chest, Dyspepsia, Inflammatory Rheumatism, Palsy, Paralysis, &c.

DR. KUH'L'S ACOUSTIC OIL, for Deafness and all other Auricular Complaints, which is to be used together with the Restorer.

DR. Kuhl's Pamphlet "Treatment," &c., entered according to Act of Congress, contains full Directions for the use of the above mentioned medicines, and accompanies every Remedy.

From the Washington Globe.

We feel it our duty to insert the following communication in our columns, inasmuch as the efficacy and great success of Dr. Kuhl's Restorer is well known to us:

"You will please to notice in your paper the following certificate: 'I do hereby certify, that about the first of January, I was taken with the worst paralysis and inflammatory rheumatism that ever was inflicted on mankind. So far as I can learn, the use of every limb was taken from me, besides a tremendous swelling at every joint, fever with the same, and attended with the most excruciating pain I had ever endured. I tried all remedies that were recommended for the same, but to no effect. I, by accident was informed that Dr. Kuhl was at Orange Court House. I sent for him immediately, and by applying his medicines, I felt a change in less than an hour after he came. The medicines used, were the Restorer of the Blood, Aromatic Extract, Gold-Mine Balsam, Universal Plaster, and Depurative Powder. I, therefore recommend his treatment to all those laboring under affliction, as given under my hand and seal, this 14th day of March, 1837."

"JOHN PEYTON, [L. S.]

"Near Orange Court House Virginia"

Dr. Kuhl, notwithstanding the statement in the above certificate, wishes to be understood, that in general, cures cannot be effected within an hour, although a person may be much benefited within that time by the use of his medicines. He feels it, however, necessary to give the following extract of a letter from his Agent at Orange Court House, dated May 19th, 1837.

"Dear Sir—I saw Mr. John Peyton to-day, and he looks better than I ever saw him. He says if it had not been for your medicines he should have been under ground. He requested me to tell you, that you had saved his life, for one time, and to present his respects to you.

"Your Restorer is the leading medicine in this county, and many cures of importance have been effected in this neighborhood by the use of your medicines. I have had a great number of venereal cases, and many of long standing, and always effected, by means of your Vegetable Anti-Syphilitic Syrup or Abyssinia Mixtura, a perfect cure, and that in a short time.

Ashborough, N. C., July 13, 1842.

Dr. KUH'L, Raleigh,

Dear Sir:—I think your Medicines are about to take a start in this county, from the fact that they effected a cure which seems to have baffled the skill of the physicians in this section for a year or two. The subject is Mr. Nathaniel N., who has been afflicted with the Liver Complaint, together with some other complaints,—say, Flatulence and Dyspepsia. He has taken one bottle of the Restorer together with the Aromatic Extract and Depurative Powder. He says that in twelve hours he felt relieved, and in twenty-four hours, much relieved. He has so far recovered, now, as to follow the avocation of his farm with little or no difficulty. He says he wants all who are afflicted, to use your Medicines, and is recommending them to the afflicted.

I would be glad you would send me a supply very soon, by the stage, of Restorer, Aromatic Extract and Abyssinia Mixtura, as a vast number of persons are taking them now.

Respectfully yours,
J. M. A. DRAKE.

Persons wishing to procure any of the medicines, will please direct their orders, with the amount, (post paid) to

DR. KUH'L'S OFFICE, RICHMOND, VIRGINIA,

or to any of the following Agents:

NORTH CAROLINA.

Jenkins & Biles, Salisbury,

Cotton Gin Making Business

THE subscriber would respectfully inform the citizens of Rowan and the adjoining counties, that he has commenced the above business in Salisbury. His shop is three doors east of Moses L. Brown's Tan Yard, where he is prepared to execute all work in his line of business with neatness and dispatch. From a long experience in the business, he feels confident of his ability to give entire satisfaction to all who may favor him with their patronage.

N. B. All orders from a distance shall be punctually attended to. Repairing of every description done on the shortest notice, both Gins and Threshing Machines.

ALEXANDER FRALEY,
Salisbury, June 25, 1842—6m46

Moffat's

SUPREME REMEDY FOR FEVER AND AGUE AND BILIOUS FEVERS.

There is no remedy known either in professional or domestic practice, so absolutely, immediately, and permanently efficacious in the prevalent and obstinate malarial, as MOFFAT'S celebrated and long established LIFE PILLS and PHENIX BITTERS. Extraordinary and renowned as are their effects upon diseases in general, in FEVER AND AGUE, and all Bilious Affections they are more so; because, in these they are as infallible as any human means can be. This has been proved to more than ten thousand cases, nor is there an instance in which they have failed, or reasonably can fail, when taken in strict accordance with the directions here enjoined, and which are also given in MOFFAT'S MEDICAL MANUAL and Good Samaritan. But to ensure invariable success, these must be rigidly followed.

FEVER and AGUE, in all its four leading species, is peculiarly pernicious administration of a proper remedy, in connection with the specific powers of one of the ingredients in this medicine, is the secret of its invariable triumph, while all other practitioners either entirely fail, or only temporarily succeed, were with the very best remedies that were known. ANESTHETIC, or third-day; Quartan, or fourth-day; Tertian, or sometimes one of these periods, and sometimes as it is called, is complicated, by taking these periods in succession, and then running into intermitting fever of a more malignant character. But it is a remarkable fact, however mysterious and unaccountable it may appear, that each and all of these species of Ague, have a FOURTEENTH DAY CRISIS, in which they may be cured with certainty, but by neglecting which they can only be cured by chance. DR. MOFFAT'S directions for taking the medicines in this disease, are therefore these:—First, take two of the LIFE PILLS at bed time, and next morning before breakfast, a full wine glass of the PHENIX BITTERS in about the quantity of water, and half a wine glass more in a full wine glass of water, about half an hour before each meal during the day. On the second night take three pills and the bitters as before; on the third night four pills and the bitters as before, and continue taking four pills every night for three nights more, with the bitters during the day. On or before the seventh day, the Ague will seem to be entirely cured, and the patient will feel well, hungry, and hearty, but he must nevertheless continue to take the bitters as before prescribed, until on the fourteenth day, with two pills every night after the seventh day. He will then, and not until then, with positive and invariable certainty, be permanently cured, and not only of Fever and Ague but of whatever bilious and liver affections it may have superinduced or even in any way connected. If, however, the patient should by any neglect, or undue confidence in restored health, omit to take the PHENIX BITTERS in the full quantities prescribed, at least three times on the fourteenth day, Dr. Moffat must not be blamed if the disease should return, and the patient should learn wisdom from affliction, and go through another course of the medicines for a fortnight longer. Obeying these instructions, however, he will be so thoroughly cured, that he may bid defiance to the disease, however unhealthily may be his location or prevalent the malarial around him. For children between seven and fourteen years of age, half of the above quantities of the medicines will suffice; for younger children, a quarter of those quantities, to be increased or diminished in proportion as the age varies from advanced childhood to infancy. For very young children, small quantities of the bitters only will alone be necessary.

This treatment, with these supremely efficacious "LIFE MEDICINES," has been perfectly triumphant in the worst regions of the South and Western country, and around the northern lakes, where the malarial prevails with the universality of an epidemic, and the demand for this sovereign remedy has been far greater than the supply. DR. MOFFAT'S Agents, however, are now well furnished, and will make every effort to send this advertisement into the most afflicted districts. Voluntary and jealous grateful testimonials are received at the proprietor's office in New York, by every mail in incredible numbers, to the absolute efficacy of these astonishing medicines, not only in Fever and Ague, other intermittent fevers, liver and bilious affections, and derangements of the digestive functions generally, but also in chronic and inflammatory rheumatism, costiveness, pains in the side and limbs, eruptions of the skin, scurf, piles, worms, scurvy, and a host of other complaints, for the cure of which, these Vegetable Life Medicines are so pre-eminently renowned throughout the United States. Knowing, however, that many of these diseases, as well as a most fatal undermining of the general health are occasioned by Fever and Ague. Dr. Moffat, in his advertisements, invites the special attention of the public to the absolute ascendancy of his medicines over this malarial the fountain head of so many others. He has only to add that the Life Medicines are agreeable and invigorating in their operations, require neither confinement nor change of diet, and have acquired the reputation they have long possessed, not by the usual artificial efforts, but solely by their invariable and extensive usefulness. Prepared and sold by Dr. William B. Moffat, 375 Broadway New York.

The above medicines are for sale, wholesale or retail, at the Salisbury Medical Drug Store, by C. B. WHEELER, Agent.

Salisbury, Sept 3, 1842—1y6

TO THE PUBLIC.

THE subscriber takes this method of informing the public, that he still continues to carry on the business of

ROWAND'S

IMPROVED TONIC MIXTURE.

ROWAND'S TONIC MIXTURE, OR VEGETABLE FEBRIFUGE,

a specific and lasting cure for Fever and Ague, and for General Weakness, with their kindred complaints, so long, so extensively, and so successfully employed throughout the United States, and elsewhere, has been "essentially improved" by the original inventor, Doctor John R. Rowand, after a residence of upwards of two years, during 1839 and 1840, upon the banks of the Mississippi, where he enjoyed the fullest advantages and opportunities for acquiring a direct and personal knowledge of the peculiar and striking features which disease presents in the Great Western Valley; and for applying, testing, and still further perfecting his peculiar method of treating that peculiar class of complaints to which he has for upwards of fifteen years, devoted his most earnest, and almost exclusive attention.

The important improvement which has been introduced in the Tonic Mixture, consists in so modifying its general salutary operation as to render it still better adapted to all or either of the most prominent varieties under which Intermitting Fever, or Fever and Ague, presents itself to every part of the world: these are, the Nervous, the Bilious, and the Congestive forms. The first or "Nervous Ague," is characterized by the predominance of more or less of the following set of symptoms, superinduced upon the general signs of fever, viz: anxiety, depression of spirits, listlessness, irritability, restlessness, lassitude, frequent yawning and stretching, trembling, convulsions, dizziness, vertigo, palpitation, weakness, and other nervous symptoms. This variety is mostly met in high, or northern latitudes.

The second, or "Bilious Intermittent Fever, or Ague," is recognized, when in addition to the usual marks of fever, are presented in a striking degree, certain bilious symptoms, viz: yellow tinge of the skin, bilious vomiting, bitter taste in the mouth, disordered bowels, irritable stomach, (sore and white, changing to brown, skin hot and dry, &c., &c.) This variety prevails in the southern and tropical climates.

The third, or "Congestive form of Intermitting Fever, or Ague," is known to the approaching, or already present, when the usual signs of fever are attended by great distress at the pit of the stomach, or in the head, or in the bowels, or in the right or left side of the abdomen, swooning, insensibility or stupor, delirium, great and sudden loss of strength; deathly hue of countenance, collapse, the fever struggling to manifest itself in vain, the vital powers of the system being apparently too feeble to establish a reaction, &c. &c. Under this formidable aspect, agues are so frequently encountered in the Great Western Valley, and where its fearful ravages are too well known to be described. Yet the "Improved Tonic Mixture," administered under the "additional instructions" now given, fully meets even these alarming symptoms—so that while it prevents, by its gentle laxative effect, any accumulation in the bowels, it has been made to reach to the fountain of all the important secretions and excretions of the system—purifying these sources of health and energy—removing any of the seeds of disease which chance is lurking there, and by maintaining a regulated circulation, preventing intestinal congestions and all the sad consequences to which they too often lead; and at the same time preparing the digestive organs to receive and diffuse those health giving impressions which must ever flow from its peculiarly invigorating properties.

Families may now have within their reach, a sure protection against, and remedy for that great scourge and destroyer, the "Congestive Fever." Usually, the three classes of symptoms above enumerated, are found more or less blended together, as the causes producing each variety are generally concurrent to a greater or less extent, especially in those sections of the country where the grand divisions above specified approximate and run into each other.

The above medicine is for sale, wholesale or retail, at the Salisbury Medical Drug Store, by C. B. WHEELER, Agent.
