Fever and A oe is a most observate disly resists every crainary mode of cure so as to become very discressing to the patient; and by the extreme deo py which the disease induces, in often gives rise to other chronic complaints.— Marsh miasmala, or the efflowing a sing fom stagnast water, is the most frequent exciting eause of this disease; and one of the great necoliarities is its sescentibility of a renewal from very slight couses, such as from the prevalence of an easterle wind -even without the repetition of be original exciting cause In this, Fever and Ague differs from most o her feveret and is we' can be. This has been proved in more than ten brown, that after an ordinary fever has once oc- thousand cases, nor is there an instance in which curred, and been removed, the person affected is they have failed, or reasonably can fail, when ta not so liable to a fresh attack as one is to was not ken in strict accordance with the directions here so affected. Tuese circomstances remier it extrewels difficult to effect a permanent cure of Fever and Ague, though to relieve the parient for the time being is a very easy task.

Dr Moffat's Life Pills and Phoenix Bilters have been thoroughly tested, and proved to be a positive and Radical cure of Fever and Ague. Handreds of his fellow citizens in the West have voluntarily come forward to assure Dr. Hoffut, that the Life Medicines are the only medicines hat will theroughly effect a removal of this most tedions and disagreeable disease.

O hers who have emigrated to that rich and promising por ion of our conners - men who went out full of hope, and confident of winning a competence from the luxe lance of the soil; or who carried to the outposts of our settlements the mer cantile or mechanical experience ston in the crowded cities or towns of the older sintes, have either returned with shattered constitutions and depressed spifts, or they remain in their new homes, dragging out a weary life, or at last sink under some disease to which they are needisposed by that letter of the West, Fever and Ague -Pheir hones are ulasted - their unstoess energies destraved their Eldorado becomes a desert; aqui the word of promise, made to their ear, is broken

to the hope. La hese individuals, Dr. Moffat would say -" Try the Life Medicines, and voo will yet anticipate your most sanguine expeciations, for they will certainly restore you to health."

Fever and Arue is a complaint a bien requires to be me at its first app nach, and combarted at every stage Seldom tatal of riself, it reduces the strong h, and impairs the functions of the organs, so that upon the manifestating of disto the weak and trembling victim of disease new beblin, life and strength

For full particulars of the mode of freetment the reader is eleved to the Good Samaritan. a copy of which accompanies the medicine.

The above medicine is for sale by CRESS & BOGER, Agents Salisbu V. Oc. 22, 1842 +1v18

Guard Your Health. Addressed to those who are in perfect health, or reputed so

Gentle Reader: If you would avert from you the sickness, the pains, the wreiched ness, the premature mortality which you see al around vou, and which, like a sharp sword suspended, is ever ready to fall upon you, despise not my advice-it will cost you little, will neither infringe upon your occupations or smusements, and all the faculties of your mind and body will be as much bettered by it as to repay you ren fold. I ask only one week's trial to con vince the most sceptical. In the first place, discard all old errors and

prejudices from voor mind, especially the old sdage, " If you are passing well, do not attempt to better vootself;" it is the saying of ignorance and superscriton -of those who attributed all they saw around them to change and fortune. instead of mine's universal laws. Has not man. led on by experience, learned to goard himsel agains: the other elements of nature, the waves. the wind, and the tocrents of rain? Why then should be not, in fair weather, guard himself against the storms which are ever rising in his own frail body? Remember, you are every day eating gross food; and it is vour dature to continge to do so You are well at present, but every day the seed of disease is growing within you; and if you do not strictly guad your health while you are well, you are continually in danger of paintal and protracted confinements and in some constitutions, death.

Nothing is stationary in this world. Even the purest fountain of which we drink - does it not require cleaning? A person may imagine he is in perfect health, and yet not know to wirat perfection his vital organs may be brought when assisted by the hand of Nature. I have undoubted proofs of this fact in the unuounded sac cess of the LIFE MEDICINES. Let thuse who have followed the motto, ' When you are even moderately well, throw physic to the dogs call upon me, if they would be convinced of the importance of my position.

The progration of the Life Medicines in every her time has come to my knowledge is most rativing. Those who are in comparative good beauty no a perfect their happiness with no in describence; and those unfortunates who are and tow by disease of simost any description, and sore relief in those parels vegetable dremarations. They operate gently but powerbilly upon the secretions of the body, and cleanse the brood of all vitiated homors separating the badlion he good, expelling the dregs, dross and anities and leaving behind only what is

and the shing ka nature. . Moffat's

SUPREME REMEDY FOR PEVE VFRN .- There is no rementy known either mmediately, and permanently efficacious in this prevalent and obstinate malady, as MOFFAT : celebrated and long established LIFE PILLS and PHENIX BITTERS. Extraordinary and renowned as are their effects onen diseases to general, in FEVER AND AGUE, and all Billious Affections they are more so; because, in these they are as infallible as any human means subjoined, and which are also given in MOF-FATS MEDICAL MANUAL and Good Sa maritan. But to ensure invariable success, these must be rigidly followed.

FEVER and AGUE, in all its four leading

species, is peopliar PERIODICAL administration of a proper remedy, in connection with the specific powers of one of the ingredients in his med icines, is the secret of his invariable triumph while all other practitioners either entirely fai or only temporarily succeed, were with the ver remedies that were known. Aneros, o Agge is either Quotidiam, or daily; Terlian, or hud-dad ; Quartan, or fourth day ; Eratic, or sometimes one of these periods and sometimes another; or it is Complicated, by taking these periods in succession, and then running into inermittent fever of a more malignant character. But it is a remarkable fact, however mysterious and unaccountable it may appear, that each and all of these species of Ague, have a roug-TEENTH DAY CRISIS, in which they may be cored with certainly, but by neglecting which they can only be cared by chance. Dr. MAP-PAT's directions for taking the medicines in this disease, are therefore these :- First, take two of the Life Picis at bed time, and next morning pefore breaklas! a full wine glass of the Phonix BITTERS in about the same quantity of water. and half a wine oless more in a full wine glass of water, about half an bour before each meal during the day. On the second night take three pills and the bitters as before ; on the third night foor pills and the bitters as before, and continge taking foor pills every hight for three nights more, with the bitters during the day .-On or before the seventh day, the Agne wil ease. Nature is untile, onassisted to resist the seem to be entitlely cured, and the patient will the same, and attended with the most excrueiainroad. The Life Medicines, when taken stric: feel well, hangry, and hearty, but he must ne-Iv according to directions, will care it, and give vertheless continue to take the bitters as before dies that were recommendable for the same, but prescribed, until and on the fourteenth day, with to no effect. I, by accident was informed that two pills every night after the seventh day .-He will then, and not until then, with positive | him immediately, and by applying his medicines, and invactable certainty, be permanently cured, I felt a change in less than an hour after he and not only of Pever and Ague but of whatever billions and liver affections it may have superinduced or even in any way connected. If, however, the patient should by any neglect, or undes confidence in restored health, omit to take laboring under affliction, as given under my the Phonix Bitters in the full quantities prescribed, at least three times on the fourteenth day Dr. Maffai must not be blamed if the disease should return, and the patient should learn wisdom from affliction, and go through another course of the medicines for a fortnight longer. Obeying these instructions, however, he will be so thoroughly cored, that he may bid defiance to the disease, however unhealthy may be his location or prevalent the malady around him. -For children between seven and fourteen years of age, half of the above quantities of the me dieines will suffice; for younger children, s quarter of those quantities, to be increased or diminished in proportion as the age varies from advanced childhood to infancy. For very young children, small quantities of the bitters only will alone be necessary.

This treatment, with these supremely effectoal "LIFE MEDICINES," has been perfectly triumphant in the worst regions of the Southern and Western country, and around the northern lakes, where the malady prevails with the universality of an epidemic, and the demand for ine supply. DR MOFFAT'S Agents, however, are now well furnished, and will make every effort to send this advertisement into the most afflicted districts. Voluntary and jealously grateful testimonials are received at the proprietor's office in New York, by every mail in incredible numbers, to the absolute efficacy of these astonishing medicines, not only in Fever and Agne, other intermitent fevers, liver and inflious affections, and derangements of the difula, piles, worms, scurvy, and a bost of other able Life Medicines are so pre-eminently renowned throughout the United States. Knowwell as a most fatal undermining of the general health are occasioned by Fever and Ague. Dr. Moffat, in his advertisements, invites the special attention of the public to the absolute ascendency of his medicines over this molady the fountain head of so many others. He has only to add that the Life Medicines are agreeable and invigorating in their operations, require neither confinement nor change of diet, and have acquired the reputation they have long possessed, out by the usual artificial efforts, but solely by their invariable and extensive usefulness Prepared and sold by Dr. William B Moffat, 375 Broad way New York.

From the Washington Globe. We feel it our duty to insert the following communication in our columns, inasmuch as the efficacy and great success of Dr. Kuhl's Restor-

er is well known to us: " You will please to notice in your paper the

following certificate: "I d hereby certify, that about the first of January, I was taken with the worst paralysis and inflammatory rheumatism that ever was inflicted on mankind. So far as I can learn, the use of every limb was taken from me, besides a tremendous swelling at every joint, fever with ting pain I had ever endured. I tried all rame-D. Kunl was at Orange Court House. I sent for came. The medicines used, were the Restorer of the Blood, Arematic Extract, Gold-Mine Bal sam. Universal Plaster, and Deparative Powder. I, therefore recommend his treatment to all those band and seal, this 14th day of March. 1857. "JOHN PEYTON, [L s]

" Near Orange Court House Virginia

Dr Kubl, not withstanding the statement in the bove certificate, wishes to be understood, that n general, cures cannot be effected within an hour, although a person may be much benefitted within that time by the use of his medicines. He feels it, however, necessary to give the following extract of a letter from his Agent at O ange Court House, dated May 19th, 1837.

" Dear Sir-I saw Mr John Peyton to day and he looks better than I ever saw him. I says if it had not been for your medicines he should have been under ground He requested me to tell you, that you had saved his life, for one time, and to present his respects to you.

" Your Restorer is the leading medicine in this county, and many cures of importance have been effected in this naighborhood by the use of your medicines. I have had a great number of venereal cases, and many of long standing, and always effected, by means of your Vegetable Anti this sovereign remedy has been far greater than | Syphilitic Syrapt or Abyssinia Mixture, a perfect core, and that in a short time.

Ashborough, N. C., July 13, 1842. Dr. Kung, Raleigh,

Dear Sir :- I think your Medicines are about to take a start in this county, from the fact that they effected a cure which seems to have baffled the skill of the physicians in this section for a year or two. The subject is Mr Nathaniel N. who has been afflicted with the Liver Complaint, ingether with some other complaints,-say, Flatgestive functions generally, but also in chronic vience and Dyspepsia. He has taken one bottle and inflammatory rheumatism, costiveness, pains of the Restorer together with the Aromatic Ex in the side and limbs, eroptions of the skin, scro- tract and Deparative Powder. He says that in twelve hours he felt relieved, and in twenty-four complaints, for the cure of which, these Veget- hours, much relieved. He has so far recovered, nuw, as to follow the avecation of his farm with little or no difficulty. He says he wants all who ing, however that many of these diseases, as are afflicted, to use your Medicines, and is recommending them to the afflicted.

I would be glad you would send me a supply very soon, by the stage, of Restorer, Aromatic Extract and Abyssinia Mixture, as a vast number of persons are taking them now. Respectfully yours,

J. M. A. DRAKE Persons wishing to procure any of the medicines, will please direct their orders, with tue amount, (post paid.) to DR. KUHL'S OFFICE, RICHMOND, VIRGINIA

The Bankrupt Law!!

AVING taken considerable pains to ac-Bankrupt Law, lately passed by Congress, I hereby tender my services to such as may wish to avail themselves of its benefit. I shall attend the United States Court of this District, and if necessary, the Circuit Court also. Persons wishing to avail themselves of my services, can see me on the approaching Sixth Circuit of the Superior Court:-and afterwards, I shall be found in my office in Salisbury. H. C. JONES.

N. B. I take this occasion to correct a prerailing error concerning this Law : many persons find, suppose that no one, except such as owe a the amount of Five Hundred Dollars, can claim its benefit. This is a mistake, for it embraces "all persons" owing decis who are unable to "meet them," no matter how small the amount. Salisbury, February 1 . 1842 -1129

George W'. Davis,

Commission and Forwarding Merchant WILMINGTON & FAVETTEVILLE N. C.

THE undersigned is now prepared to receive Goods at Wilmington, and forward the same to his Agent at Favetteville, who will forward to he Owners in the back country. He has a large Warehouse at the River, where Goods will be stored free of storage, and the owners subjected only to half the usual carrage from the River to Fayetteville,—thereby lessening the expense on Goods much below the usual charge. As his Warehouse is isolated from all other buildings. he danger of Fire will be trifling in comparison to the risk iscurred from being situated in town. Those who may favor him with their posiness. may rest assured that every attention will be paid o the promotion of their interest.

Rowand's Improved Tonic Mizher

A few remarks will serve to illustrate the ference. In the first place, the operation (Tonic Mixture in the cure of Fever and her noon entirely new and peculiar, vel principles. Secondly: It not only prompth rests the course of the chills, when punch and perseveringly used, but it soon restors wonted functions of the general system to a fectly healthy state; when relapses are mon liable to ensue than an attack of the disease one who has never had it before. Thirdle: system, during the administration of the las ed Tonic Mixiare, springs up at once unde benign influence, and gives forth an earnest torning health and vigor. Fourthly : Prod more or less effect on the bowels, the care the disease passes off in the way most sligg indicated by nature. Fifthly : lis effects on system are aniformly mild and sale, is well efficient, and it is as well adapted to the bell infant, simply by a modification of the dus, m the most vigorous adult. Many other count attens, of the utmost importance to the appu parents and invalids, might be enome tiene but the above are a few of the points of comin comparison with the remedies generally m ed to in professional and family practice,

which a proper judgment may be formedia lecting the remedy. N. B.
