Near Mocksville, Davie co. 2 425 January 14, 1845. CONSUMPTION AND LIVER

Completint.

R. TAYLOR'S BALSAM OF LIVER DIVORT .- from \$75 Bowery, New Yorkfor the cure of goughs, colds, catarine, Aethma raising of Blood, Liver Complaints, Bronchitis, and all those affections of Throng and Lungs .which are a source of so much suffering, and un arrested, so often terminate in Consumptionthis remedy is highly and justing distinguished It is purely vegetable, mild and gentle in its effeets upon the system, and can be taken in the most delicate cases, with safety as well as ptili ty. Physicians, aware of its medicinal properties, and witnessing its effects even in extreme, and in some instances, apparently almost hopeless cases, often prescribe it in their practice. both as a palliative and a remedy, and with the Medical Faculty generally, it has met with great

INP CONSUMPTION -- The following remarks were taken from the last number of the Medical Magazine :

"The surprising effect produced by the genuine Balsam of Liverwort, made at \$75 Buwery, in consumptive cases, cannot fail exciting a deep and thrilling interest abroughout the world. We have so long believed the disease (consump tion) incurable, that it is difficult to credit our senses when we see persons, evidently consumptive, restored to bealth. Yet it is a fact of daily The following was given as a short time since. by Capt Scott, of Elizabeth City, N. C.

Certificates. Being constitutionally predisposed to Consumption, (a number of my family traving died of this disease,) and having suffered severely from trritation of the Lungs, secompanied with cough and raising matter and sloud, tugether with severe pain in my side and breast, till I was supposed to be beyond recovery. I was induced by advice of Dr Perkins, as a lost resort to try Taylor's Bal am of Liverwort. I have taken five buttles in all. I began to improve with the free bottle, and while taking the third, was so far tecovered, as to be able to get about. Since which time, by continued use of it, I am quite testored and able to attend to my usual business. To persons suffering from coughs and affections of the tongs, I do earnestly recommend it

JAS C SCOTT. Eizibeth City, N. C , Dec 16, 1842, Liver Complaint and General Debility -1 was given up by two physicians, and laid to pre pare for death. I was so weak I could not raise my hand to my bead. I was in this low state ben a friend sent me a bottle of Dr Taylor's Bulsam of Liverwort, from 375 Bowery, and be fore I had used up the bottle, I was able to sit up in bed. By the further use, I have completely regained my health. GEO WELLS 23 John at

Violent pain in the side -I have been cared of a violent paus in the side, extending through to the shoulder, indigestion, dissiners, loss of ap petite, and general dehility, by the use of two buttes of Dr Taylor's Balsam of Livermort, from S75 Bowery. JF H Atten

MILIES. IMPROVED TONIC MIXTURE

These who would have recourse to a Family Medicine for FEVER AND AGUE. Dyspensia and inflamely Nervous Weakness, should discriminate between Breathin Organs heralded forth to the public, (the same now as in all times past,) and that almost universally successful prescription colled

Rowand's Improved Tonic Mixture. A few remarks will serve to illustrate the difference. In the first plane, the operation of the Tonic Mixture in the cure of Fever and Ague is upon entirely new and peculiar, yet safer principles. Secondly: It not only promptly arrests the course of the chills, when ponctually and perseveringly used, but it soon restores the wonted functions of the general system to a perfeetly healthy state; when relapses are no more table to ensue than an attack of the disease in one who has never had it before. Thirdly : The system, during the administration of the Improv ed Tonic Mixture, springs up at once under its benign influence, and gives forth an earnest of returning health and vigor. Fourthly : Producing more or less effect on the bowels, the cause of the disease passes off in the way most strongly Bowels, Nervous Affections &c. indicated by mature. Fifthly: Its effects on the system are uniformly mild and safe, as well as efficient, and it is as well adapted to the feeblest infant, simply by a modification of the dose, as the most vigorous adult. Many other considerations, of the utmost importance to the anxious parents and invalids, might be enome:ated here, but the above are a few of the points of contract in comparison with the remedies generally resorted to in professional and family practice, from which a proper judgment may be formed in se-

lecting the remedy. N B. With a view to re-establish entire confidence in the efficiency of the "Rowand's Improved Tonic Mixture," to effect a lasting cure of Fever and Ague, the Proprietor restores the original guarantee, viz: The money shall be returned in every case wherein the remedy has been ponetually used without producing the desired effect. Address

NOTICE.

NATHANIEL BOYDEN, Admir Salisbory, may 27, 1943-1714

Moffat's

CUPREME REMEDY FOR FEVER AND AGUE AND BILLIOUS FE-VERS .- There is no remedy known either th professional er demestic practice, so absolutely, mmediately, and permanently efficacions in this revalent and obstinate malady, as MOFFAT S delebrated and long established LIFE PILLS and PHENIX BITTERS Extraordinary and renowned as are their effects upon diseases in general, in FEVER AND AGUE, and all Billious Affections they are more so; because, in these they are as infallible as any human means can be. This has been proved in more than ten thousand cases, nor is there an instance in which they have failed, or reasonably can fail, when ta ken in strict accordance with the directions here subjoined, and which are also given in MOF-FATS MEDICAL MANUAL and Good Sa maritan. But to ensure invariable success, these

FEVER and AGUE, in all its four leading

must be rigidly followed.

species, is peculiar PERIODICAL administration of a proper remedy, in connection with the specific powers of one of the ingredients in his medicines, is the secret of his invariable triumph, while all other practitioners either entirely fail or only temporarily succeed, were with the very best remedies that were known. ANEXUS, or Agne is either Quotidiam, or daily; Tertian, or third-dad ; Quartan, or fourth day ; Eratic, or sometimes one of these periods and sometimes another; or it is Complicated, by taking these periods in succession, and fhen running into intermittent fever of a more malignant character. But it is a remarkable fact, however mysterious and unaccountable it may appear, that each and all of these species of Ague, have a FOUR-TEENTH DAY CRISIS, in which they may be cared with certainty, but by neglecting which they can only be cared by chance. DR. MAF-FAT's directions for taking the medicines in this disease, are therefore these :- First, take two of the Lips Pills at bed time, and next morning pefore breakfast a full wine glass of the PHENIX BITTERS in about the same quantity of water, and half a wine glass more in a full wine glass ing a practical knowledge of diseases, and the of water, about half so hour before each meal during the day. On the second night take three pills and the bitters as before ; on the third night four pills and the bitters as before, and continue taking four pills every night for three nights more, with the bitters during the day .-On or before the seventh day, the Ague will seem to be entirely cured, and the patient will feel well, hungry, and hearty, but he must nevertheless continue to take the bitters as before prescribed, until and on the fourteenth day, with two pills every night after the seventh day .-He will then, and not until then, with positive and invariable certainty, be permanently cured, and not only of Fever and Ague but of whatever billions and liver affections it may have superinduced or even in any way connected. If, however, the patient should by any neglect, or undue confidence in restored health, omit to take

the Phonix Bitters in the full quantities prescribed, at least three times on the fourteenth day Dr. Maffat must not be blamed if the disease should retorn, and the patient should learn wisdom from affliction, and go through another course of the medicines for a fortnight longer. Obeying these instructions, however, he will be so thoroughly cured, that he may bid defiance to the disease, however unbealthy may be his location or prevalent the malady around him. -For children between seven and fourteen years of age, half of the above quantities of the me dicines will suffice; for younger children, a quarter of those quantities, to be increased or diminished in proportion as the age varies from advanced childhood to infancy. For very young children, small quantities of the bitters only will alone be necessary.

This treatment, with these supremely effecual "LIFE MEDICINES," has been perfectly triumphant in the worst regions of the Southern and Western country, and around the northern lakes, where the malady prevails with the universality of an epidemic, and the demand for this sovereign remedy has been far greater than the supply. DR MOFFAT'S Agents, however, are now well furnished, and will make every effort to send this advertisement into the most afflicted districts. Voluntary and jealously grateful testimonials are received at the proprietor's office in New York, by every mail in incredible numbers, to the absolute efficacy of these astonishing medicines, not only in Fever and Ague, other intermitent fevers, liver and billious affections, and derangements of the digestive functions generally, but also in chronic and inflammatory rheumatism, costiveness, pains in the side and limbs, eruptions of the skin, serofula, piles, worms, scurvy, and a host of other complaints, for the cure of which, these Vegetable Life Medicines are so pre-emipently renowned throughout the United States Knowing, however that many of these diseases, as well as a most fatal undermining of the general health are occasioned by Fever and Ague. Dr. Moffat, in his advertisements, invites the special attention of the public to the absolute ascendency of his medicines over this malady the fountain head of so many others. He has only to add that the Life Medicines are agreeable and invigorating in their operations, require neither confinement nor change of diet, and have acquired the reputation they have long possessed, not by the usual artificial efforts, but solely by their invariable and extensive usefulness. Prepared

Peper and Agus positively Cured. Fever and Agne is a most obstinate disense, and in warm and humid climates, frequent ty resists every ordinary mode of core so as to become very distressing to the patient; and by the extreme debility which the disease induces. is often gives rise to other channic complaints,-March missinate, or the effloris arising from stagnant water, is the most frequent exciting squee of this disease; and one of its great pecu liarities is its susceptibility of a renewal from ve y slight causes, such as from the prevalence of an easterly wind seven without the repetition of the original exciting cause. In this, Fever and Agne differs from must other fevere; as it is well known, that after an ordinary fever has once orcurred, and been removed, the person affected is not so liable to a fresh attack as one who was no o affected. These circomstances render it exremely difficult to effect a permanent care of Fever and Ague, though to relieve the patient for the time being is a very easy task.

Dr Moffet's Life Pills and Phania Bitters have been thoroughly tested, and proved to be a positive and Radical cure of Fever and Agne. Hundreds of his fellow citizens in the West have voluntarily come forward to assure Dr. Noffat that the Life Medicines are the only medicines that will thoroughly effect a removal of this most tedious and disagreeable disease.

Others who have emigrated to that rich and romising portion of our country - men who went out full of hope, and confident of winning a com petence from the luxuriance of the soil; or who carried to the outposts of our settlements the mer cantile or mechanical experience won in the crowded cities or towns of the older states, have either returned with shattered constitutions and depressed spirits, or they remain in their new homes, dragging out a weary life, or at last sink under some disease to which they are predisposed ov that terror of the West, Fever and Ague -Their hopes are blasted -their business energies destroyed - their Elderade becomes a desert, and the word of promise, made to their ear, is broken to the hope.

To these individuals, Dr. Moffat would say -Try the Life Medicines, and you will yet anicipate your most sanguine expectations, for they will certainly restore you to health.'

Fever and Ague is a complaint which requires o be met at its first approach, and combatted at every stage. Seldem fatal of itself, it reduces the strength, and impairs the fonctions of the organs, so that upon the manifestation of disease. Nature is unable, unassisted to resist the inroad. The Life Medicines, when taken strict according to directions, will cure it, and give to the weak and trembling victim of disease new health, life and strength

For full particulars of the mode of treatment. the reader is referred to the Good Samuritan, a copy of which accompanies the medicine.

A. C. McINTOSH, Agent.

Guard Your Health. Addressed to those who are in perfect health, or

reputed so.) Gentle Reader: If you would aver from you the sickness, the pains, the wretched ness, the premature mortality which you see all around you, and which, like a sharp sword suspended is ever ready to fall upon you, despise not my advice-it will cost you little, will beither infringe upon your occupations or amusements, and all the faculties of your mind and body will be as much bettered by it as to repay you ten fold. I ask only one week's trial to con

vince the most sceptical. In the first place, discard all old errors and prejudices from your mind, especially the old adage, " If you are passing well, do not attemp to better yourself;" it is the saying of ignorance and superstition -of those who attributed all they saw around them to chance and fortune instead of nature's universal laws. Has not man led on by experience, learned to goord himself against the other elements of nature, the waves. the wind, and the torrents of rain? Why then should be not, in fair weather, guard himself as gainst the storms which are ever rising in hiown frail body? Remember, you are every day eating gross food; and it is your nature to continue to do so. You are well at present but every day the seed of disease is growing within von; and if you do not strictly guard your health while you are well, you are continually in danger of painful and protracted confinements. and in some constitutions, death.

Nothing is stationary in this world. Even the porest fountain of which we drink-does it not require cleaning? A person may imagine he is in perfect health, and yet not know to what perfection his vital organs may be brought when assisted by the hand of Nature. I have undoubted proofs of this fact in the unbounded suc cess of the LIFE MEDICINES Let those who have followed the motto, 'When you are even moderately well, throw physic to the dogs' call upon me, if they would be convinced of the importance of my position.

The eperation of the Life Medicines in every instance that has come to my knowledge is most gratifying. Those who are in comparative good health may perfect their happiness with on in convenience; and those unfortunates who are laid low by disease of almost any description. may find sure relief in those purely vegetable preparations. They operate gently but powerfully upon the secretions of the body, and cleanse the blood of all vitiated humors, separating the bad from the good, expelling the dregs, dross and impurities-and leaving behind only what is good and nourishing to nature. Reader, consider and reflect well.

The blessings of this life, for rich and poor lie entirely within ourselves, in our own physical bodies. My advice to all, then, is, guard your health. If you are well, perhaps you may be still better-and you may always avoid being sick by a indicious use of the VEGETABLE LIFE MEDICINES. Dr. Moffat's Life Pills and Phoenix Bitters, are for sale by
