#### SPRING AND SUMMER FASHIONS FOR 1843.

#### HORACE H. BEARD.

**H**E has received of Mr. F. MULHAN, the LONDON PARIS & PHILADELPHIA FASHIONS, for the Spring and Summer of 1843!

which far surpasses any thing of the kind heretofore published. He will receive the Tailoring Business.

in all its branches, at his old stand, where he is ever ready to meet and accommodate his old and new customers with fashionable cutting and making of garments, not to be surpassed by any in the southern country. Pains-taking, despised and faithful work has been, always shall be, his aim and object. Thankful for past encouragement, he hopes to merit its continuance.

P. S.—Reference he deems unnecessary, as his services and work for the last sixteen years will show.

#### WORMS! WORMS!!

#### Starting Fact.

Hundreds of children and adults are lost yearly with worms, when some other cause has been supposed to be the true one.

worms, as by all doctors that scarce a man later troubled with worms, that are under of cases, said to relate, supposed fever, colds, or cold, or some other ailing carries of the flowers of the human family—while in truth they die of Worms! and these could have been eradicated in a day, by the use of a bottle of Kolnstock's Vermifuge, at the cost of a quarter of a dollar!

How staggering the thought, that these things should be—and who can ever forgive themselves for not trying this *Worm Exterminator*, when they know that even if the case was not wormy, this remedy could not by any possibility do but—not always good as a purgative—but let the disease be, it that way? How important then is to use it, and who will dare take the responsibility to do without it? Let every patient that is not a brute, ask themselves this question in truth and soberness.

Mr. J. C. Ringold, had a child very sick for near two weeks, and attended by a physician, without relief, when Kolnstock's Vermifuge was given, and next day more than forty worms were passed, when the child recovered rapidly.

A child of a widow woman, living near the Manhattan Water Works, had dwelted for a month, till near a skeleton, with great dryness of the mouth, and itching of the nose. A humane lady, who called to provide for the family, sent immediately for Kolnstock's Vermifuge, which brought away great quantities of worms, for two or three days, and the child grew better at once, and regained its full strength in less than a month.

Several children in a highly respectable family in Broadway had worms to a frightful extent, and were all cured rapidly with the Vermifuge.

In some of the best families in the neighborhood of St. John's Ark, it has been extensively used, from the circumstance of having eradicated a large quantity of worms, after all other remedies had failed, which was very extensive, known in that part of the city.

A family in New Jersey saved several children by the use of it. One, a girl of eight years of age, had become exceedingly emaciated before the Vermifuge was given. The next day three large worms were dislodged, and she left off the Vermifuge, when she became again worse, and had resort to the Vermifuge that finally brought away an incredible quantity of worms, and the cure was complete, and she gained her health rapidly.

A physician of standing, had doctor'd a family of children some weeks, without being able to restore to one out of the seven to health. He had the liberality to send for Kolnstock's Vermifuge, and cured the rest with it in less than a week.

Numerous cases of other complaints were supposed to exist, and the persons treated for fever, &c., but finally a trial of this Vermifuge discovered the true cause of the sickness, by bringing away almost an innumerable quantity of worms, large and small, and the persons recovered with great despatch. Instances of this kind might be cited to an immense extent, but it is useless, one trial for 25 coats will show any one with absolute certainty the certain effects of this Vermifuge.

*Caution.—Never buy this article unless it have Kolnstock's Vermifuge handsomely engraved on the outside label, and the inc. name of Comstock & Co.*

#### Dr. Moffat's Vegetable Life Medicines

POSSESS qualities of the most mild and benevolent nature. They are composed of articles the most anti-purulent, combined with ingredients known as the only certain antidote for fevers of every description. When the disease is produced either from cold, obstruction, heat, air, swampy and damp situations, or natural malady, whether malignant or epidemic; or by other causes, these medicines are certain in their operations or effects. They are possessed of equal qualities, which not only expel all disease, but at the same time restore and invigorate the system. When first taken in the stomach, they immediately diffuse themselves like vapor through every pore, producing effects at once delightful, salutary, and permanent. When the bark of life begins to grow dim, the circulation languid, and the animal spirits paralyzed, these medicines are found to give a tone to the nerves, accelerate the animal spirits, invigorate the body, and to animate the whole man.

The Life Medicines have also been used with great success in Nervous and

Diabetic diseases, Consumption, Asthma, Liver Complaint, Rheumatism, Ichthyosis and inflammatory Diseases, &c.

#### George W. Davis.

Commission and Forwarding Merchant

WILMINGTON & FAYETTEVILLE N. C.

I HAVE undertaken to now prepare to receive

Goods at Wilmington, and forward the same

to his Agent at Fayetteville, who will forward to the Owners in the back country. He has a large

Warehouse at the River, where Goods will be

stored free of storage, and the owners subject

to half the usual carriage from the River to Fayetteville, thereby lessening the expense of

goods much below the usual charge.

As his Warehouse is isolated from all other buildings, the danger of fire will be trifling in comparison to the risk incurred from being situated in town.

Those who may favor him with their business

will rest assured that every attention will be paid to the promotion of their interest.
