WORMS! WORMS!! Startling Facts.

Hundreds of children and adults are lost yearly with worms, when some other cause has been supposed to be the true one. It is admitted by all doctors that scarce a man, woman or child exists out what are sooner or later troubled with worms, and in hundreds of cases, said to relate, a supposed fever, scarlatina, cold, or some other ailment carries off the flowers of the human family--while in truth they die of Worms! and these could have been eradicated in a day, by the use of a bottle of Kolmstock's Vermifuge, at the cost of a quarter of a dollar! How sickening the thought that these things should be--and who can ever forgive themselves for not trying this Worm Exterminator, when they know that even if the case was not worms, this remedy could not by any possibility do harm--but always good as a purgative--let the disease be what it may. How important then to use it, and who will dare take the responsibility to do without it? Let every parent that is not a brute, ask themselves this question in truth and soberness. Mr J. C. Ringold had a child very sick for near two weeks, and attended by a physician, without relief, when Kolmstock's Vermifuge was given, and next day more than forty worms were passed, when the child recovered rapidly. A child of a widow woman, living near the Mountains Water Works, had died for a month, till near a skeleton, with great dryness of the mouth, and itching of the nose. A humane lady, who called to provide for the family, sent immediately for Kolmstock's Vermifuge, which brought away great quantities of worms for two or three days, and the child grew better at once, and regained its full strength in less than a month. Several children in a highly respectable family in Broadway had worms to a frightful extent, and were all cured rapidly with this Vermifuge. In some of the best families in the neighborhood of St. John's Park, it has been extensively used, from the circumstance of having eradicated a large quantity of worms, after all other remedies had failed, which was very extensively known in that part of the city. A family in New Jersey saved several children by the use of it. One, a girl of eight years of age, had become exceedingly emaciated before the Vermifuge was given. The next day three large worms were dislodged and she left off the Vermifuge, when she became again worse, and had resort to the Vermifuge that finally brought away an incredible quantity of worms, and the cure was complete, and she gained her health rapidly. A Physician of standing, had doctored a family of children some weeks without being able to restore but one out of the seven to health. He had the liberality to send for Kolmstock's Vermifuge, and cured the rest with it in less than a week. Numerous cases of other complaints were supposed to exist, and the persons treated for fever, &c., but finally a trial of this Vermifuge discovered the true cause of the sickness, by bringing away almost an innumerable quantity of worms, large and small, and the persons recovered with great despatch. Instances of this kind might be cited to an immense extent, but it is useless, one trial for 25 cents will show any one with establishment the certain effects of this Vermifuge. Caution--Never buy this article unless it have Dr Kolmstock's Vermifuge? handseily engraved on the outside label, and the fac simile of Comstock & Co. Agents--C. B. Wheeler, Salisbury; J. & R. Sloan, Greensboro; D. Hezritt, Hillsboro; J. P. Mabry, Lexington; Dr. Stith, Raleigh. March 4, 1843--1532
