- THE WHICK OF NEW YO The Address of the Whigs New York, to the Whigs of the U deserves particular attention. Where Whig to be found that will not from follow the noble example of the Whigs of New York, by giving his time or at least a portion o it till the election in so good a cause. We call upon all in the name of the country to come forward and put their shoulder to the wheel, and never desist until the nation is rescued from the impending ruin which threatens it. We call upon all who are opposed to the cs-

tablishment of the agrarian doctrines which must inevitably follow the election of Polk and DALLAS, to be up and doing, the time for action instead of talking has arrived. All who are opposed to a system of public robbery, as practised under the VAN BUREN Sub-Treasury system all who are opposed to the Locofoco doctrine of creating a gold and silver currency for the office-holders and paper rags for the Peopleall who are opposed to being brought under a system of Colonial vassalage to Great Britain, by the destruction of the TARIFF-all who are opposed to taking the bread out of the mouths of our own Mechanics, Manufacturers and Working Men, and putting it in those of British paupers, will see and feel the great necessity of giving some time to the cause of the country—we mean that of the WHIGS, for it is emphatically the cause of the People, in opposition to the detructive and levelling principles of Locofocoism the common ally of Great Britain: And all who believe the election of HENRY CLAY to he Presidency will redound to the honor and lory of the country, and give stability to the olls on the fourth day of November.

Upon the result of this election we verily be-

lieve depends the very existence of the present

form of free Government, and would admonish

all who value the privileges they now enjoy to

be on the alert—to work while it is called to-The Locofocos seem to be as blind as hats, as it regards the last Letter of Mr. CLAY tion of Texas to this count Almost every little locofoco sheet from one end the Union to the other, are bawling out inconsistency! (as if they ever had any regard for consistency or honor,) and to prove it, are publishing a garbled extract from this letter; thereby intending clearly to deceive and make Mr. CLAY say that which he never had any idea of to be striving for the public good, should resort to such despicable means to accomplish such end? No, the prosperity and happiness of the country never enter their minds, although they make such loud noise about it; they are fighting for the "spoils of office." Do they not richy merit the indignation of every friend of truth and honesty! And will not the People mete out to this double-faced Locofoco democratic party, that reward which they so justly deserve? The affairs of the nation are not safe and never can

their guard, and all will be well. The extract which has been going the rounds of these " democratic" papers, make Mr. CLAY

be, when in the keeping of such a corrupt and

debased party. Let the People see to it, that

they do not permit them to get the Government

into their hands, by default; but let them be on

that, far from having any personal objection to the annexation of Texas, I should be glad to H. CLAY." As the above reads, Mr. CLAY is personally layor of annexation, without any condition

"I have, however, no hesitation in saying

whatever. It is, however, only a part of the sentence. Here is the whole of it.

"I have, however, no hesitation in saying hat, far from having any objection to the annexation of Texas, I should be glad to see it, without dishonor, without war, with the common consent of the Union, and upon fair and just terms." Now, we leave it to every man of common sense to say, whether there is any inconsisteny in the language here used by HENRY CLAY, and that employed by him in his first letter on he annexation of Texas. But how can any one expect any thing better from these men. It is heir business to do the dirty work of the party which they are attached; and no one need be astonished when they see any big lie going the ounds of the Locotoco papers.

MARYLAND ELECTION.

It gives us the greatest pleasure to be able to make known to our readers, the complete triunph of Whig Principles in Old Maryland, afer one of the hottest contests ever witnessed in ocrats hate him for. were made by the Locofoco party to overwhelm the unflinching Whigs of Maryland. British gold flowed freely, and foreign voters colonized or harbored by the enemy to effect their object. but all would not do, the Whigs achieved a glohous victory, electing their candidate for Gov. emor by a majority of 532, and an overwhelming majority of Whigs to the Legislature. The Senate stands, Whigs 15 Locos 6 House of Delegates, " 61 " Whig majority on joint ballot 40, securing the election to the United States Senate a good

and true Whig. on the frauds perpetrated by the Locofoco pary in Baltimore on the day of election :

"That the vote polled by the Locofoco ticket his not the legitimate vote of this city is palpa-his. Since the Mayor's election in 1843—the

MORE AND CECIL COUNTIES, AND WE We have gained three Senators—a large majority of Delegates—and have beyond all ques-tion elected the Governor by at least 500 votes being the first Whig Governor over elected by cople in Maryland, and a gain of more than 1000 votes over the last Gubernatorial election, in spite of pipe-laying and violence—slan-der—fraud and BRITISH GOLD. Three cheers then for Old Maryland!

For HENRY CLAY, she is safe by 3,000 .-Nearly all the colonized locofoco majority has lready left us-on foot, on horseback, by coach and by railroad. We have a heavy Whig vote still left-made cautious by defeat-wise by exnce and determined, in another contest, to maintain their rights. Let our friends in Pennsylvania and New York be of good cheer. But for the causes we have assigned, our majority for Mr. Pratt must have been 2,500. We have it still among us, and with God's blessing, we

OF Some of the Locofoco papers are making

light of the disclosure, that the British are using all their means to elect Polk and Dallas, and to have the Tariff repealed. But it seems just as they were uttering the denial, an Agent of a British House in N. York, publicly proclaims in the streets of Baltimore, that he had orders from his employers in England! to make use of all the means (money of course) in his power, to procure the repeal of the American Tarovernment, we hope will not fail to attend the iff, as will be seen from the following article from the Baltimore Clipper, a neutral paper: Startling Fact.—An Agent of an English Iron Manufacturing Establishment, stated a few days since to a dealer in hardware, of this city, hat he had received positive instructions from his principals in England, to use all the means in his power to procure the repeal of the American Tariff. The agent resides in New York, and will comply with the instructions he has received. So here is proof positive of English by Kendall, Haywood, Duncan and Co., has interference with our domestic concerns. British gold will be lavishly spent to influence af- has not turned out to be as profitable as expe fairs in this country; and British agents will ed, have "got up" a new domestic article in they to be thus imposed upon or corrupted? We Judge, cleared him; and Clay and all the Whigs do not believe it. The influence of British dead set against re-building!" Not only so, chase of a few venal presses, which are a discan people will spurn this foreign attempt on saying. Is it not too had, that men professing the purity of our government, and cling with more tenacity to the measure which England is so desirous to destroy. The knowledge that British agents are at work, under instructions from their employers, to procure the repeal of the Tariff, will be sufficient to stimulate the American people to its support. No Congress will dare to unite with England in the destruction of our manufactures. No patriot would sanction so unholy an union; and no man, other than a

traitor to his country, would sustain it. This same British Agent offered to bet five thousand dollars of British Gold, no doubt, that POLK and DALLAS would be elected, when a good Whig stepped up and told him he was not in the habit of keeping that much by him, but if he would wait till morning, he could have his bet taken, if not, he had \$1,200 by him, which was at his service on the spot; but no, this British agent-this enemy to American prosperity, backed out and skulked off.

MR. CLAY'S CALUMNIATORS.

It seems that Mr. Clay's revilers and slanderers cannot satiate themselves, al though they have exhausted the whole vocabulary of mean epithets in traducing and villifying him. They have blackguarded him until they have made themselves sick, and still he shines forth as an unclouded star, bright and burning; and, like that emblem, seems rather to improve in his brilliancy by the blasts which howl

But his revilers, although they have done much, have not ceased to do: Their last effort to blemish and defame, we believe was, the publication of a picture of Mr. Clay, " with a coat of arms, exhibiting cards,"-indicating that Mr. Clay is a gambler, we suppose,—" a pistol,"—showing that he is a regular duelist, we again suppose—" a bottle"—that he is a drunkard-and the words-" shoot lower !"-Such is the last effort to dim the lustre of that crown, worn by Henry Clay, which pean Times. many envy, and which thousands of Dem-

LOCOFOCO FALSEHOODS.

We sincerely wish we knew who the impudent Locofocos" are referred to in the communication below, furnished by an esteemed and well informed friend. If we knew, we would take particular delight in holding them up to public indignation. We think we have a pretty good idea who they are, and if we find out for certain. we assure these busy bodies that we will expose them to the public gaze. The Whigs are not opposed to the re-building of the Mint but are to a man we believe, desirous that it should be rebuilt immediately. It does not come within the province of the Whigs, to oppose any thing which is calculated to benefit the Public, but more appropriately to the Locofoco party-the opposers of almost every thing intended to prosper the country.

FOR THE WATCHMAN. Messrs. Editors: I have lately heard that some impudent Locofocos in the mining regions of the West, and particularly in the counties of Rowan, Stanly, Cabarrus, Mecklenburg and Lincoln, are deluding the uninformed portion of our People, by telling them, that the Whigs are opposed to the re-building of the Branch Mint at Charlotte. I at first could not believe that there was a man to be found so daring and so silly. as to attempt an imposition of so base and palpable a character on any community. But such is the fact! All through this section of the State are certain secret agents, who, finding that their late stock of published lies, manufactured run short, or that the investment in the same roam through our land, to cheat and deceive our the following ridiculous style : " Mint's burnt ; people into the support of British measures. "Democratic Electors," are occasionally harping upon this golden theme, to elevate Jas. K. Polk to the Presidential chair! Such is Loco-Polko-focoism, in even the "good Old North

This is rather too small a matter to be noticed in a public Press; but I only do so to warn the Whigs against any secret and infamous falsehoods that might be propagated a few days before the election. And there is also sometimes danger of very small things working great injury, especially in political affairs.

As far as the Whigs are concerned with the Branch Mint, Democratic logic would make us all in favor of rebuilding. For, (say they,) Mr. Clay having during the 27th Congress, when there was a strong inclination to abolish it expressed an opinion decidedly in favor of its continuance, and voted for the appropriation to carry it on (a priori) his obsequious followers would, of course, be of the same mode of thinking. And this would be very proper in this instance. But let the People recollect that the Democrats have a majority in the present Congress, and that the application will be made this winter for the appropriation to rebuild. Should it fail, the defeat of the measure will lie at their GOLD HILL.
