BY FRIDAY MORNING'S MAYL

Eleven Days Later from England. By the steamer Britannia, Capt. Hewitt arrived at Boston on Friday morning, bringing Liverpool papers to the 14th September. Our time will only allow us to make the following summary :

The news, though eleven days later, is unimportant.

The Queen of England had not returnof from the Continent.

The engrossing topic of the day, was the rumored war between the U. States and Mexico. The news by the Cambria

one per cent in the market.

Wilmer & Smith's European Times, gys :- The Cotton market, that great barometer of public feeling, has shown sympoms of improvement. The fine weather has had a material influence in strengthening this feeling, and in dispelling the melancholy forebodings about the harvest which had taken possession of the public mind. The sales up to the end of the week exceeded 48,000 bags-a daily average of more than 8000. In the four days since nearly 40,000 have been sold, and prices are evidently getting up.

The affairs of Ireland are represented as far from favorable. A meeting of the association was held on the 25th August. It is only interesting as developing the feelings of the people on the plan of Sir Robert Peel, for hurling the Repealers.

"The meeting on the 25th was very thinly attended. Mr. O'Relly, a member of the Dublin Corporation, was in the chair," and in his opening address binted at what he deemed to be the great danger of the present crisis. The government were now trying to draw away some of their young men by the lure of place and office. The new colleges would supply tempting situations to young men of literary talents; and in Maynooth itself an effort would be made to bias the minds of therising generation of the Catholic priest-

There was a peril in these regards which they must prepare against. Already he feared that some wavering individuals had been lured away from them .-For the present he would say no more, but he reserved himself for a future day, when he would speak out more openly, and denounce in the strongest terms all flinchers from their sacred cause.

A serious affray had taken place at Madagascar, between the natives and the British and French, in which the former lost 4 men killed, and 12 wounded. The latter had 17 killed and 43 wounded.

The Late Disturbances in Germany .-The German Universal Gazette announces, that on the 8th inst., a proclamation was posted at Leibsic, informing the people that the King had appointed commissioners to inquire into the deplorable events of the 12th, who would soon arrive in that city. On the same day the Municipal Council published a document foridding, under the severest penalties, all popular meetings without special permision of the authorities.

The National Intelligencer of the 23d, says: It is officially announced in the government gazette of Saturday night that Levi Woodbury, now one of the Senalors in Congress from the State of New Hampshire, has been appointed by the President of the United States to be one of the Associate Judges (Judge of the Sureme Court) in the place of Joseph Stor, deceased.

Mr. Woodbury has been for tweenty years in the General Government-first as Senator, afterwards for several years Secretary of the Navy, afterwards for several years Secretary of the Treasury, and again Senator from New Hampshire, succeeding in that office Mr. HUBBARD. Before entering into the General Government, he had been Governor of his own State, and, we believe, a judge in the highest court of that State. He has had me advantages, therefore, which would be derived from extensive experience in public affairs, in the course of which he must have acquired a perfect knowledge of the laws of the United

Congressional Intelligencer.

THE Proprietors of the NATIONAL INTELLIGENCER, in order to meet the wishes of those whose circumstances or inclination do not allow them to subscribe even to a weekly Washington paper during the whole year, have determined to issue, during the session of Congress, a weekly sheet styled "THE CONGRESSIONAL INTELLIGENCER," to be devoted exclusively to the publication as far as its limits will permit, of the Proceedings of both Houses of Congress, and Official Reports and Documents connected herewith, including a complete official copy of the Acts passed by Congress during the session. To bring the price within the means of every man who

can read, the charge for this paper will be for the first session of each Congress One Dollar, and for the second session of each Congress half a Dollar. The price of the Congressional Intelligencer, to be

issued on each Wednesday during the approaching Session of Congress, will therefore be One Dollar paid in ad-

To enlarge upon the value, to those who take no newsfrom Washington, of this publication, containing an impartial but necessarily abbreviated account of the Proceedings of Congress, including an authentic official copy of all the laws passed during the session, would be need-less. The man who takes no such paper ought to take one, if he does not prefer remaining ignorant of what most nearly concerns his own destiny, and that of his family and of his posterity for ever.

When six copies are ordered and paid for by any one person, a deduction of one-sixth will be made from the price: that is to say, a remittance of five dollars will command six copies of the Congressional Intelligencer for the next Session. A remittance of ten dollars will secure thirteen copies; and for fifteen dollars remitted from any one person or place twenty copies will be forwarded. Payment in advance in all cases is indispensable.

WEEKLY NATIONAL INTELLIGENCER. This paper, being made up of such portion of the contents of the National Intelligencer proper as can be compressed within the compass of a single newspaper, continues to be issued and mailed to subscribers every Saturday at Two Dollars a year, payable in advance, in all cases no account being opened with subscribers to the weekly pa-

To bring this paper yet more nearly within the reach of such as desire to take by the year a cheap paper from the seat of the General Government, a reduction will be made in the price of it where a number of copies are ordered and paid for by any one person or association at the following rates: For Ten Dollars six copies will be sent. For Twenty Dollars thirteen copies; and For each sum of Ten Dollars, above Twenty, 8

copies will be forwarded; so that a remittance of Fifty Dollars will command 37 copies. Publishers of papers throughout the several States and Territories who will give a single insertion to this advertisement (with this note annexed) and send one of their papers to this office with the advertisement marked therein, shall receive the Weekly National Intelligencer for one year free of charge,

EDUCATION. THE next Session of the Uponsevilling ADRICION will commence on Monday the fifteenth of September, under the supervision of William L. Van Eaton, A. B. The advantages which this school possesses are such as are within the reach of but few parents who may desire to give their children a lib-eral and classical education. The Teacher is ever at his post, ready and willing to impart all necessary instruction, and also is extremely careful to watch over the morals of his scholars, and correct their evil habits. And furthermore, our situation is such as renders our village very healthy, being high up on the Yadkin, near the mountains which cause our atmosphere to be not only healthful but pleasant, and also its sound morality is unsurpassed by any town in the western part of the State. as it is entirely exempt from those temptations which

have led so many young men to dissipation and min. All the branches requisite to prepare a young man for entering the higher classes of our colleges will be taught. The Languages and higher branches of Mathematics

Philo ophy, Astronomy, Ethics, Logic, Rhetoric, &c., Eng. Grammar, Arithmetic and Geography, 8 00 Board in the Village or neighborhood can be procured at four and five dollars per month. ENOCH B. HUNT, WILLIAM J. PARKS,
