The following paragraphs respecting the proceedings in the Legislature we extract from the Register of the 25th ult. They give an account of all that is of any interest to the general reader.

HOUSE DEBATES. There has been in the House, this week, as well as in the Senate, stirring debates on various subjects. The Bill granting an extension of credit to the Wilmington Boad, on their bonds guaranteed by the State, elicited an

able and animated debute, in which Messrs, HALL, ME-BARNES, and some others participated, The Bill to vest the appointment of Field Officers

the Volunteer Regiment now raising, in the Officers ar Privates of the same, which passed the Senate a few days since, has been also a prolific theme of debate; and there seems to be almost as many opinions as Speakers. Some are for the Senate Bill, some for electing by the Legislature, and some for retaining the power in the hands of the Governor. Mr. RAYNER, we understand, made a capital speech against the Bill.

Gilliam, of Granville (Whig) was elected by a larger or in any manner promote the return of Santa vote than the Whig majority, Speaker of the House of Anna to Mexico; and if so, who was the offi-Commons, vice Edward Stanter, recently chosen Attor- cer or agent, and what were his instructions, mey General, that gentleman having vacated the Chair, preparatory to entering upon the discharge of his official that he inform the Senate by what means, or duties. Mr. Gratian brings to his appointment as speaker, not only that bland amenity of manners, which made Mr. STANLY to acceptable a Speaker, but he combines with it also, that knowledge of, and experience in, Parliamentary Rules, so essential to the proper and prompt discharge of the difficult duties of the Chair.

made an able Report to the Legislature, recommending the appointment of a Commissioner, to superintend the Common Schools of the State, with a salary of \$1250.

Re-Districting Bill - This important Rill has passed its second leading in the Senate a test vote by a ma; rule. jority of three, two Whigs and one Loco absent. Had all been present, the vote would have stood 27 to 23 .-We hope, in our next, to be able to announce the final passage of this great measure of political justice.

The Washington correspondent of the Baltimore House and then permitted. The Union the American soil-that no treaty of peace should be was not content to make the report of its own concluded with Mexico which does not provide for the reporter the authority for the statement, but payment of the claims of our citizens and a full indem-minution for the expenses of the war—that sufficient of vindicating the Secretary of State by vindi nification for the expenses of the war-that sufficient of vindicating the Secretary of State, by vinditerritory has already been secured to the United States cating him. His charge was that the Secretafor full satisfaction—that the war is approved by the people by whom an honorable peace is demanded and ex- yielding all of Oregon between forty-nine and pected and that, should not Mexico at an early day fifty four forty, when he had asserted, most posmanifest a desire for a peaceful and honorable termina. itively, that he would do no such thing. He tion of the controversy, an armed occupation, with a bad asserted this upon the authority of common view to the settlement of the conquered provinces by American citizens, should be the policy of the government. The resolutions, it is said, will also suggest the expediency of taxing banking incorporations, brokers, could be charged upon evidence with making notes bills of exchange, &c., &c., as a means of increasing the revenue, instead of imposing a duty on tea and coffee, as suggested in the annual report of the Secretary of the Treasury. These resolutions, when introduced will no doubt greate not a little interest and excitement in the Halls of our National Legislature.

BER, OF KENTUCKY.

THE AMERICAN REVIEW has now reached nearly the end of a second year. Its success so far has been entirely unprecedented. Its subscription list now numbers about 3,500, with a constant increase. IMPORTANT TO MILL OWNERS NEW FALL AND WINTER Hotchkiss's Vertical Water Wheel.

Salisbury, N. C., Sept. 10th 1846-20:tf

N consequence of the very great popularity which these wheels have attained by the use of nearly 4000 of them in different parts of the country, the subscribers have sold about 100 Rights in North Carolina, thirty of which are in full and successful operation in Cumberland county. When properly introduced, they nearly double the value of the mill, and in quantity of work generally far exceed the most sanguine expectations of the owners, many of whom are gentlemen distinguished for their science and practical skill, who have attested to the value of this improvement. The wheels are more durable, and more easily kept in order, when properly put together, than the common flutter wheel. They was save one-third of the water, and run well in back water when there is a head above. The speed of the saw is increas-
